- (2) Subsection (3) applies to a borrower if—
 - (a) the borrower's pre-taxed repayment obligation for a tax year is \$1,000 or more; or

 - (ii) that borrower has not estimated his or her pre-taxed repayment obligation for that tax year.
- (2) The amount of each of a borrower's remaining repayments (for the borrower's pre-taxed repayment obligation for the tax year) is the same and must be calculated in accordance with the formula—

$$a = \frac{(b - c) - (d - c)}{e}$$

where—

- a is the amount of each of the borrower's remaining repayments
- b is the borrower's pre-taxed repayment obligation for the tax year
- c is the amount of the borrower's interim payments for the tax year calculated in accordance with section 82 or 83

 - (b) for all other borrowers, the number of due dates the borrower has for the next tax year determined in accordance with section 81(4).

(3) However,—

- (a) if the sum of $(b - c)$ is less than zero, then it must be treated as if it were zero; and
- (b) if the sum of $(d - c)$ is less than zero, then it must be treated as if it were zero; and
- (c) if a is not divisible into equal amounts, then the final remaining repayment carries the difference.

(4) If subsections (2) and (3) do not apply, then the amount of each of a borrower's remaining repayments (for the borrower's pre-taxed repayment obligation for the tax year) may vary and must be calculated separately in accordance with the formula—

$$a = \frac{b}{c} - d$$

where—

- a is the amount of the borrower's remaining repayment

- b is the borrower's pre-taxed repayment obligation for the tax year
- c is the number of due dates the borrower has for the tax year determined in accordance with section 81(5)
- d is the amount that, as at the due date of the remaining repayment, has been used to satisfy (so far as it extends) the interim payment due on the same date.

 - (b) must pay a remaining repayment on or before each of the interim payment dates that immediately follow the date on which the borrower is required to file his or her declaration of pre-taxed income for tax year A, even though this may require those payments to be made in tax year A and in the tax year following tax year A.

- (5) If subsections (2) and (4) do not apply, a borrower must pay a remaining repayment for a tax year on or before—
- (a) each of the interim payment dates for the same tax year; or

119 Meaning of excess repayment

- (1) A borrower makes an excess repayment in relation to a tax year if, as at the close of that tax year, that borrower's total payments exceed his or her total obligations.
- (2) In determining whether an excess repayment has been made, the Commissioner must—

- (2) The Commissioner must, as soon as practicable, notify the borrower in writing—
 - (a) that an excess repayment has been made for the borrower; and
 - (b) of the amount of the excess repayment; and
 - (c) that the excess repayment has been offset against the borrower's consolidated loan balance; and
 - (d) of the borrower's options in relation to the excess repayment (*see* section 121); and

 - (ii) it is due to the borrower starting or ending employment;
 - (iii) it is due to an action or an omission of the borrower's employer; and

 - (f) at the beginning of the tax year, the borrower's loan balance was \$550 or more.
- (2) The Commissioner must reduce the borrower's loan balance by an amount equal to 10% of the borrower's excess repayment for the tax year that the Commissioner considers would have been made if the under-deduction referred to in subsection (1)(c) had not occurred.

- (2) If the 10% bonus was credited under section 125(2), then the remaining excess repayment (if any) for the tax year that is \$500 or more must be determined by reference to the borrower's excess repayment for the tax year that the Commissioner considered (under section 125) would have been made if the under-deduction referred to in section 125(1)(c) had not occurred.
