

(Unofficial translation)

Dear Ms. Lubyova,

Allow me on behalf of professors, students and all staff of the School of Economics of the Lomonosov State University to congratulate you as a representative of the International Labour Organization with the ILO 90th Anniversary.

The role of the ILO in the humanization of the society is undeniable. Throughout its 90 year-history the leadership and staff of the Organization have carried out a tremendous work on the realization of the fundamental principles and rights at work, enhancing decent work opportunities for workers, raising effectiveness of the social security system, developing social dialogue. These efforts inspire sincere respect and acknowledgement in the Russian society.

We would like to express our special gratitude for more than a decade-long cooperation of the Lomonosov State University with the ILO. During that period the ILO Moscow officials have created at our Department of Labour Economy and Personnel a representative library of ILO documents, including Conventions, statistics collections and other regulatory and information ILO publications, which are in a great demand among our professors and students. Students of the University represent many countries of the world, including China, India, Iran, African countries. We are proud to know that the University is a unique conductor of the spirit, ideas and fundamental ILO principles to the hearts and minds of the youth of these countries.

We highly appreciate our cooperation with the ILO in the field of science and research, which allows us, on the one hand, to introduce into our curriculum the most recent elaborations of the ILO, and, on the other hand, to conduct our own research on the Decent Work concept. This has a favorable impact on the quality of the modern Russian student youth education.

Dear Ms. Lubyova, let me congratulate you once again on the anniversary of the International Labour Organization. I would like to wish you personally sound health, prosperity and many years of fruitful work. I look forward to our further scientific and practical cooperation with the ILO in order to promote decent social and labour relations.

Dr (Econ.), Professor Vassily Kolesov
Dean
School of Economics
Lomonosov Moscow State University
