the establishment and implementation of nation

Recent developments

- **SafeWork Bookshelf 2006**
- **Database of OSH Institutions (CISINST)**
- **OSH News**

design – development – testing – production

Common principles

- Relational database structure (Oracle)
- Access through Internet for editors and end-users
- Multiple interface languages (English/French/Spanish)
- Multiple data languages and alphabets
- Collaborative maintenance

Collaborative maintenance

- Key position of CIS Centres
- Password protected personalized access, 24 hours a day
- Limitation by country – not by language
- Advocacy
- Credit - responsibility

Please, don't forget ...

... to lend me the memory stick or CD with your presentation, that I could make a copy of it for the CIS Internet site.

You get it back after the lunch pause.

Thank you.

Search for an institution

French

Spanish

COUNTRIES

Find institutions in one or more selected countries*

-- all countries --

Australia
Canada
China
Egypt
France
Hungary
Korea, Republic of

AREAS OF ACTIVITY

Find institutions in one or more selected areas*

-- all activities --

Agriculture and forestry
Chemical safety
Electricity
Environmental pollution
Fishing
Health services
OSH - General
Physical hazards

**To select more than one item from a list, keep the Ctrl button down while selecting with the cursor.*

NAME / ACRONYM / DESCRIPTION

Find institutions with one or more words in their name or descriptive information

Institutions containing all of the specified words anywhere in the record will be selected.

*To search for word stems rather than complete words, use an asterisk *. e.g. tox* will retrieve toxic, toxicology, toxin, etc.*

To find a phrase, use quotation marks, e.g. "child labour".
