

**International Conference
on Partnerships in Occupational
Safety and Health Inspection**

**State Administration of
Work Safety, China**

**International Association of
Labour Inspection**

**International Labour
Organisation**

**Strategies, methods and ideas for working
in harmony across government and with
industry to deliver integrated OSH
inspection**

**13 – 14 April 2006
Beijing, China**

Come and participate in this important opportunity to learn about practical and cooperative models of successful OSH inspection from around the world.

Hear about partnership strategies (government and industry) to address the challenges of high risk work such as coal mining, chemical handling and construction.

Learn how OSH inspectors can work hand-in-hand with people in the workplace and their representatives to achieve improved health and safety results.

Find out how to make your OSH inspection programme more effective. Go to www.iali-aiit.org for details of this significant event.
