Pdf booklets containing links to resources online (e.g. including ILO departments)

Pdf booklets containing links to resources on the CD for offline use (i.e. without links to ILO departments)

Eventually, the CD directs people to the ILO/Asia/ADWD website. While the resource kit is a snapshot of available materials at a certain moment, the website is the place where the latest resources can be found including the ones that could not be presented in the booklets.

The website will also be the link to the ADWD knowledge networks/to the current pilots youth employment, skills-AP, IR net.
