

LIST OF LIBRARY ACCESSIONS : April 2001

INTRODUCTION

This List of Library Acquisitions is produced on a monthly basis by the ILO Regional Office for Asia and the Pacific. It consists of materials available in its collection and data base which come from different sources such as ILO, NGOs, IGOs, institutions, other United Nations agencies, commercial publishers and individual experts.

The topics covered include labour and employment issues, education and training, labour economics, labour relations, labour legislation, management development, working conditions and technological change, in Asia and the Pacific.

Copies of the ILO publications included in this list could be obtained through major bookshops or ILO offices. Request for non-ILO publications should be sent directly to the issuing institution or publisher.

ABSTRACT : This book is about educating and training people for work. It is about how different countries use their schools and public and private resources to prepare citizens for work; it is about the different policy issues that shape education and training practices; and it is about the practical as well as unresolved issues surrounding how participants are selected, programmes are designed, and instruction is conducted. It discusses linkages between schools and employers, as well as issues of poverty, opportunity, efficiency, and equity. It examines different education and training modes. And it explores the relationship between kinds of skills training programmes and social and economic development priorities.

KEYWORDS : ILO pub / Minimum wage / Poverty alleviation / Wages / Employment / Labour market / Poverty / Developing country
ABSTRACT : This paper presents a survey of the effects of

minimum wage legislation on the level of employment and poverty in selected developing countries. Following the introduction, the second section provides a literature survey of the relationship between the level of minimum wage and employment and between the level of minimum wage and poverty. The third section consists of an overview of low wage labour markets and presents trends in employment, average wages and minimum wages. The fourth section is empirical and tests the response of employment and poverty to changes in the minimum wage using time series data on more than 20 countries.
