First published 2001

The publication of information concerning action taken in respect of international labour Conventions and Recommendations does not imply any expression of view by the International Labour Office on the legal status of the State having communicated such information (including the communication of a ratification or declaration), or on its authority over the areas or territories in respect of which such information is communicated; in certain cases this may present problems on which the ILO is not competent to express an opinion.

ILO publications can be obtained through major booksellers or ILO local offices in many countries, or direct from ILO Publications, International Labour Office, CH-1211 Geneva 22, Switzerland. A catalogue or list of new publications will be sent free of charge from the above address.
