The designations employed in ILO publications, which are in conformity with United Nations practice, and the presentation of material therein do not imply the expression of any opinion whatsoever on the part of the International Labour Office concerning the legal status of any country, area or territory or of its authorities, or concerning the delimitation of its frontiers. The responsibility for opinions expressed in signed articles, studies and other contributions rests solely with their authors, and publication does not constitute an endorsement by the International Labour Office of the opinions expressed in them. Reference to names of firms and commercial products and processes does not imply their endorsement by the International Labour Office, and any failure to mention a particular firm, commercial product or process is not a sign of disapproval.

ILO publications can be obtained through major booksellers or ILO local offices in many countries, or direct from ILO Publications, International Labour Office, CH-1211 Geneva 22, Switzerland. A catalogue or list of new publications will be sent free of charge from the above address.

Les désignations utilisées dans les publications du BIT, qui sont conformes à la pratique des Nations Unies, et la présentation des données qui y figurent n'impliquent de la part du Bureau international du Travail aucune prise de position quant au statut juridique de tel ou tel pays, zone ou territoire, ou de ses autorités, ni quant au tracé de ses frontières. Les articles, études et autres textes signés n'engagent que leurs auteurs et leur publication ne signifie pas que le Bureau international du Travail souscrit aux opinions qui y sont exprimées. La mention ou la non-mention de telle ou telle entreprise ou de tel ou tel produit ou procédé commercial n'implique de la part du Bureau international du Travail aucune appréciation favorable ou défavorable.

Les publications du Bureau international du Travail peuvent être obtenues dans les principales librairies ou auprès des bureaux locaux du BIT. On peut aussi se les procurer directement, de même qu'un catalogue ou une liste des nouvelles publications, à l'adresse suivante: Publications du BIT, Bureau international du Travail, CH-1211 Genève 22, Suisse.

Las denominaciones empleadas, en concordancia con la práctica seguida en las Naciones Unidas, y la forma en que aparecen presentados los datos en esta publicación no implican juicio alguno por parte de la Oficina Internacional del Trabajo sobre la condición jurídica de ninguno de los países, zonas o territorios citados o de sus autoridades, ni respecto de la delimitación de sus fronteras. La responsabilidad de las opiniones expresadas en los artículos, estudios y otras colaboraciones firmados incumbe exclusivamente a sus autores, y su publicación no significa que la OIT las sancione. Las referencias a firmas o a procesos o productos comerciales no implican aprobación alguna por la Oficina Internacional del Trabajo, y el hecho de que no se mencionen firmas o procesos o productos comerciales no implica desaprobación alguna.

Las publicaciones de la OIT pueden obtenerse en las principales librerías o en oficinas locales de la OIT en muchos países o pidiéndolas a: Publicaciones de la OIT, Oficina Internacional del Trabajo, CH-1211 Ginebra 22, Suiza, que también puede enviar a quienes lo soliciten un catálogo o una lista de nuevas publicaciones.

PREFACE

Since 1921 the International Labour Office has from time to time published an international directory of co-operative organisations; the most recent edition (the twelfth) was published in 1971.

The present volume is a new directory, based on a world-wide inquiry by the questionnaire method, and gives the latest available information on the most important co-operative organisations in a large number of countries or areas.

The general plan of the directory is as follows: international organisations dealing with co-operation are presented first; these are followed by sections for each country or area, in which the organisations are listed according to a simple system of classification, with certain necessary variations (for example, they are grouped under each state or province for some countries with a federal structure). Government departments and other public services in charge of co-operatives have also been listed for developing countries or areas where no national co-operative organisations exist.

The type of co-operative organisations for which information will be found are:

- (a) international non-governmental bodies whose sole or main concern is with co-operation or which exert an important influence on the development of co-operative organisations;
- (b) secondary organisations of co-operatives in each country or area, i.e. unions or federations, including many whose structure does not follow the co-operative pattern but whose membership mainly consists of co-operative societies;
- (c) organisations which are of importance for the development of the co-operative movement in each country or area; co-operative educational bodies and institutions, co-ordinating committees of the central co-operative organisations, welfare bodies set up to assist the co-operative movement, production units owned by the co-operative movement;
- (d) certain important primary co-operative organisations which cannot be linked to an existing organisation or where there are no secondary co-operative organisations;
- (e) in addition, some statistics are given for a number of countries or areas where either no secondary organisations or large primary co-operatives exist or where not all co-operatives are affiliated to existing

secondary co-operative organisations. Figures have also been cited whenever they appeared likely to shed useful light on the situation as regards co-operation in any country or area.

A full table of the abbreviations and conventional signs used to simplify presentation in the three languages (English, French and Spanish) will be found on pp. viii-x.

In translating the titles of the organisations (where these do not already exist in several languages, as in the case of international organisations or of organisations in certain countries or areas with more than one official language), the compilers have attached greater importance to indicating the nature and work of the organisation than to giving a literal rendering.

The information supplied in the replies to the questionnaire sent out initially by the Committee for the Promotion of Aid to Co-operatives (COPAC) forms the basis of the text on each organisation in the directory, though particulars were also obtained in a number of cases from government departments concerned with co-operatives.

In some cases information provided by international organisations or obtained from published and unpublished material was also used, in particular for data on primary co-operatives. For certain countries or areas it was not possible to obtain any information, and these are not mentioned in the Directory.

The publication of this Directory would not have been possible without the active collaboration of the concerned co-operative organisations (national and international), government departments supervising co-operatives, and the field services of the ILO. I wish to express my gratitude to all of them for their valuable contributions. The work of revision, updating and checking of the data collected has been done under the supervision and responsibility of Mr. Dionysos Mavrogiannis, Chief, Section of Legislation, Studies and Documentation of the Co-operative Branch, and his close collaborators, Mr. Igor Vocatch-Boldyrev and Ms. Angela Schütz. They should be congratulated for their work.

PREFACE

Le Bureau international du Travail publie depuis 1921 un répertoire international des organisations coopératives. La dernière édition (la douzième) date de 1971.

Cette nouvelle édition est le résultat d'une enquête effectuée dans le monde entier depuis 1985. Elle donne les informations les plus récentes sur les principales organisations coopératives d'un grand nombre de pays ou zones. Sont présentées en premier lieu les organisations internationales qui s'occupent de la coopération; viennent ensuite les organisations des différents pays ou zones. Les organisations sont en principe classées par type; d'autres classifications ont toutefois été suivies dans certains cas (exemple: les Etats ou les provinces dans les pays à structure fédérative). Les administrations ou les autres services publics chargés de la coopération ont également été indiqués pour les pays en développement ou les zones où il n'existe pas d'organisation coopérative nationale.

Les informations données concernent les types d'organisations suivants:

- a) les organismes internationaux non gouvernementaux qui se consacrent à la coopération ou y consacrent une partie importante de leur activité, ou qui jouent un rôle important dans le développement des organismes coopératifs;
- b) les organisations coopératives du second degré, unions ou fédérations, des différents pays ou zones, y compris celles dont la structure n'est pas coopérative mais dont les membres sont en très grande partie des coopératives;
- c) les organisations qui jouent un grand rôle dans le mouvement coopératif dans les différents pays ou zones, les institutions d'éducation coopérative, les comités de coordination des organisations centrales, les organismes à vocation sociale créés pour aider le mouvement coopératif, les organismes de production appartenant au mouvement coopératif;
- d) certaines organisations importantes du premier degré, lorsqu'elles ne peuvent pas être rattachées à une organisation existante ou qu'il n'existe pas d'organisation du second degré;
- e) des informations statistiques succinctes sont données pour certains pays ou zones où il n'existe pas d'organisation coopérative du second degré ni de grandes organisations du premier degré, ou quand toutes les coopératives ne sont pas affiliées aux organisations du second degré. Des données

statistiques ont été aussi fournies lorsqu'elles pouvaient permettre au lecteur de se faire une meilleure idée de la situation de la coopération dans un pays ou une zone.

On trouvera aux pages viii-x le tableau des abréviations et des signes conventionnels utilisés pour simplifier la présentation du texte en trois langues (anglais, français et espagnol).

Pour la traduction des noms des organisations (lorsque ceux-ci n'existent pas en plusieurs langues, comme c'est le cas pour les organisations internationales ou pour les organisations de pays ou zones qui ont plusieurs langues officielles), on s'est préoccupé d'indiquer la nature et l'activité des organisations plutôt que de donner une traduction littérale.

Les entrées du répertoire se fondent sur les informations communiquées par les organisations en réponse au questionnaire originellement envoyé par le Comité mixte pour la promotion de l'aide aux coopératives (COPAC). Des informations complémentaires ont été communiquées dans certains cas par les administrations qui s'occupent de la coopération. Des renseignements fournis par des organisations internationales ou contenus dans des documents (publiés ou non) ont aussi été utilisés, notamment pour les coopératives du premier degré. Pour certains pays, il n'a pas été possible d'obtenir d'informations; ces pays ne figurent donc pas dans le répertoire.

La publication de ce répertoire a été rendue possible grâce à la collaboration active des organisations coopératives (nationales et internationales), des administrations chargées de la coopération et des bureaux extérieurs du BIT. Je tiens à leur exprimer ici toute ma gratitude pour leur précieux concours. La révision, la mise à jour et la vérification des données se sont faites sous la supervision et la responsabilité de M. Dionysos Mavrogiannis, chef de la Section de la législation, des études et de la documentation du Service des coopératives, et de ses proches collaborateurs, M. Igor Vocatsh-Boldyrev et M^{lle} Angela Schütz, qu'il convient de féliciter pour leur travail.

PREFACIO

Desde 1921, la Oficina Internacional del Trabajo ha publicado varias ediciones de un repertorio internacional de organizaciones cooperativas, la última de las cuales (la duodécima) apareció en 1971.

El presente volumen, que aparece al cabo de este largo período, es un nuevo repertorio basado sobre una encuesta mundial realizada mediante cuestionarios, y ofrece reciente información en cuanto a las organizaciones cooperativas más importantes en diversos países y zonas.

El plan general de este repertorio es el siguiente: en primer lugar figuran las organizaciones internacionales que se ocupan de cooperativismo; a continuación, en sendas secciones por países, las organizaciones están enumeradas con arreglo a un sistema de clasificación sencillo, con algunas variaciones necesarias: por ejemplo, se agrupa a las organizaciones por estados o provincias en el caso de algunos países de estructura federal. Asimismo, se han incluido los departamentos gubernamentales y otros servicios públicos encargados de las cooperativas, en países en desarrollo o zonas donde no existen organismos cooperativos nacionales.

Las categorías de organizaciones cooperativas respecto a las que se facilita información son las siguientes:

- (a) organizaciones internacionales no gubernamentales que dedican todas sus actividades o una parte importante de las mismas al cooperativismo, o que ejercen gran influencia en el desarrollo de las organizaciones cooperativas;
- (b) organizaciones cooperativas de segundo grado en cada país o zona, tales como uniones o federaciones, incluso si no tienen estructura cooperativa, siempre y cuando las organizaciones afiliadas sean en su mayoría cooperativas;
- (c) organizaciones que participan activamente en el desarrollo del movimiento cooperativo en cada país o zona, agrupaciones educativas e instituciones cooperativas, comités de coordinación de las organizaciones cooperativas centrales, organismos con fines sociales creados para favorecer el movimiento cooperativo y unidades de producción que pertenecen al movimiento cooperativo;
- (d) ciertas organizaciones cooperativas de primer grado, cuando no se ha podido asociarlas a una organización ya existente o en caso de que no existan importantes organizaciones cooperativas de segundo grado;
- (e) además, se han proporcionado informaciones estadísticas sucintas en los casos en que, en un país o zona determinados, no haya organizaciones cooperativas de segundo grado ni cooperativas de primer grado muy importantes, o cuando no todas las cooperativas están afiliadas a organizaciones

cooperativas de segundo grado. Además, se han proporcionado datos estadísticos para permitir al lector hacerse una clara idea de la situación en que se encuentra el movimiento cooperativo del país o zona en cuestión.

En las páginas viii-x se hallará un cuadro completo de las abreviaturas y de los símbolos convencionales utilizados con el fin de simplificar en lo posible la presentación del texto en inglés, francés y español.

En la traducción de los títulos de las organizaciones, cuando éstos no existan en varios idiomas, como es el caso de las organizaciones internacionales y de las existentes en algunos países o zonas que tienen más de un idioma oficial, se ha concedido mayor importancia a indicar la naturaleza y el trabajo de la organización correspondiente que a la traducción literal de su nombre.

Las informaciones proporcionadas en las respuestas a los cuestionarios distribuidos inicialmente por el Comité para la Promoción de Asistencia a Cooperativas (COPAC) constituyen la base para la redacción del texto con que se describe cada organización en el repertorio, aunque en determinados casos ciertos detalles se obtuvieron de servicios gubernamentales que se ocupan de cooperativismo.

En algunos casos se ha utilizado también información proporcionada por las organizaciones internacionales o por documentos, publicados o no, especialmente en cuanto a los datos sobre organizaciones cooperativas de primer grado. Con respecto a ciertos países o zonas no ha sido posible obtener información y, por tanto, no se los menciona en el repertorio.

La publicación de este Repertorio ha sido posible gracias a la activa colaboración de las organizaciones cooperativas (nacionales e internacionales), las distintas administraciones gubernamentales especializadas en el ámbito cooperativo y las oficinas de la OIT en diferentes países. Quiero agradecer en primer lugar a todos ellos su importante contribución. El trabajo de revisión, puesta al día y verificación de los datos ha sido realizado con la supervisión y la responsabilidad de Dionysos Mavrogiannis, jefe de la Sección de Legislación, Estudios y Documentación del Servicio de Cooperativas de la OIT, con la colaboración de Igor Vocatch-Boldyrev y de Angela Schütz, a quienes felicito por el trabajo realizado.

NOTES NOTES NOTAS

1. **Level:** The entry under this heading indicates whether the organisation operates on a national, regional or local level.
 2. **Official publications:** The figure which follows the abbreviation denoting the frequency of publication refers to the number of copies of each issue printed (for example, "m/2; 755,000" indicates a publication appearing twice monthly in 755,000 copies).
 3. **Affiliation:** The organisations listed under each country or area are numbered. Affiliation to international organisations is indicated by the usual abbreviated title (e.g. ICA, OCA, IFAP, INTERCOOP, etc.). It should be pointed out that many organisations are affiliated to bodies which are not co-operative organisations; these are not mentioned in the directory, since the indications relating to affiliation are (with rare exceptions indicated by a special note) limited to the co-operative movement.
 4. **Affiliated societies:** Where the abbreviation "aff. soc." precedes one of the other abbreviations, this indicates that the figure quoted relates to the affiliated societies of the organisation.
 5. The abbreviations "Inc.", "Ltd.", "SA", "GmbH", etc., which frequently appear in the titles of organisations, have been omitted from the translations in view of the differences between national legal systems and the consequent lack of exact equivalents.
-
1. **Niveau:** Sous ce titre, il est indiqué si l'organisation opère à l'échelon national, régional ou local.
 2. **Organes officiels:** Le nombre qui suit l'abréviation concernant la période de publication indique la quantité d'exemplaires publiés à chaque fois. Par exemple: «m/2; 755.000», publication paraissant deux fois par mois en 755.000 exemplaires.
 3. **Affiliation:** Chaque organisation mentionnée dans le répertoire porte un numéro. Pour les organisations internationales, les abréviations habituelles ont été employées (par exemple: ACI, OCA, FIPA, INTERCOOP, etc.). De nombreuses organisations sont, par ailleurs, membres d'organismes non coopératifs; ces derniers ne sont pas mentionnés dans le répertoire; en principe, seule l'appartenance à d'autres organisations coopératives a été indiquée (les rares exceptions sont signalées dans les remarques).
 4. **Sociétés affiliées:** L'abréviation (aff. soc.) accompagnant une autre abréviation indique que le chiffre donné concerne les sociétés affiliées à l'organisation en question.
 5. Les abréviations «Inc.», «SA», «Ltd.», «GmbH», etc., qui figurent souvent dans les titres conformément au régime juridique du pays n'ont pas été citées en raison de l'absence d'équivalent exacts.
-
1. **Nivel:** Bajo este título está indicado si la organización opera en el nivel nacional, regional o local.
 2. **Organos oficiales:** La cifra que aparece después de la abreviatura relativa a la periodicidad de la publicación indica el monto de la tirada. Por ejemplo: «m/2; 755.000» significa publicación bimensual de 755.000 ejemplares.
 3. **Afiliación:** En esta lista relativa a cada país o zona se ha asignado un número a cada organización citada en el Repertorio. Para señalar la afiliación a las organizaciones internacionales se han utilizado las abreviaturas normales (por ejemplo: ACI, OCA, IFAP, INTERCOOP, etc.). Numerosas organizaciones son miembros de organismos no cooperativos, pero éstos no han sido señalados en el Repertorio; únicamente se ha indicado la afiliación a otras organizaciones cooperativas (salvo raras excepciones que se mencionan en notas separadas).
 4. **Sociedades afiliadas:** La abreviatura «aff. soc.», delante de otras abreviaturas, significa que la cifra indicada se refiere a las sociedades afiliadas a la organización de que se trate.
 5. Las abreviaturas «Inc.», «SA», «Ltda.», «GmbH», etc., que figuran en el título de numerosas organizaciones, no se han citado en las traducciones de dichos títulos en razón de las diferencias que existen entre los distintos sistemas legales en uso en los diversos países y por la carencia consiguiente de equivalencias exactas.

The Regional Offices of the Alliance work for co-operative development in the Third World. The ICA has three regional offices:

ICA Regional Office and Education Centre for South-East Asia

"Bonow House", 43 Friends Colony,
New Delhi 110 014, India

ICA Office for East and Central Africa

PO Box 946, Moshi, United Republic of Tanzania

ICA Office for West Africa

Maison de la Mutualité/AMCI (12th Floor),
15, avenue Joseph-Anoma, 01 BP 3969,
Abidjan 01, Côte d'Ivoire

In Latin America the ICA works closely with the Co-operative Organisation of America.

In order that the problems inherent in each economic sector are studied and solved by professionals, the co-operatives in each field have created specialised organisations: agricultural, fisheries, housing, workers' insurance, banking, consumers, etc. A special committee has been created to deal with matters relating to women in co-operatives, while research and studies on the social aspects of co-operation, such as education and communications, are entrusted to special commissions and working groups.

L'alliance s'est dotée de trois bureaux régionaux qui travaillent au développement coopératif dans les pays du tiers monde:

Bureau régional et centre d'éducation pour le Sud-Est asiatique

"Bonow House", 43 Friends Colony,
New Delhi 110 014, India

Bureau pour l'Afrique orientale et centrale

PO Box 946, Moshi, United Republic of Tanzania

Bureau pour l'Afrique occidentale

Maison de la Mutualité/AMCI (12th Floor),
15, avenue Joseph-Anoma, 01 BP 3969,
Abidjan 01, Côte d'Ivoire

En Amérique latine, elle collabore étroitement avec l'Organisation des coopératives d'Amérique.

Afin que les problèmes inhérents à chaque domaine économique soient étudiés et résolus par des professionnels, les coopératives de chaque branche ont créé des organes spécialisés dans les domaines suivants: agriculture, pêche, production ouvrière, habitation, assurances, banques, consommation, approvisionnement, etc. Un comité particulier s'occupe également des questions féminines, tandis que l'étude des aspects sociaux de la coopération tels que la recherche, l'enseignement et la communication est confiée à des commissions spécialisées ou à des groupes de travail.

Tres oficinas regionales de la Alianza trabajan para el desarrollo cooperativo en el tercer mundo.

Oficina Regional y Centro Educativo para el Sudeste Asiático

Con el fin de que los problemas inherentes a cada sector económico sean resueltos por profesionales, las cooperativas han creado organismos especializados en

cada uno de ellos: agrícola, pesquero, de vivienda, de trabajadores, de seguros, bancario, de consumo, etc. Un comité especial ha sido creado para que se ocupe de cuestiones relacionadas con la mujer en las cooperativas, mientras que los estudios e investigaciones sobre los aspectos sociales de la cooperación tales como la educación y la comunicación han sido confiados a comisiones especiales y a grupos de trabajo.

O: *Annual Report of the Farm Credit Administration* (a; 5,000)

The Farm Credit Administration is the Federal agency responsible for the regulation and examination of the banks and associations that comprise the co-operative Farm Credit System. The 50 states and Puerto Rico are divided among 12 Farm Credit Districts with each district having a co-operatively owned Federal Bank, a Federal Intermediate Credit and a Bank for Co-operatives. In addition, there is a Central Bank for Co-operatives in Denver, Colorado, which participates in loans that exceed the lending capacities of District Banks for Co-operatives. Intermediate and long-term loans made by the Federal Land Banks are administered by 306 Federal Land Banks Associations (number as of 31 December 1985).

The Federal Intermediate Credit Banks provide short and intermediate loan funds to 216 Production Credit Associations (number as of 31 December 1985), which are the direct lenders that make operating and intermediate term loans to agricultural producers and farm-related businesses. As of 30 September 1985, the Farm Credit System had a total of \$72.7 billion in loans outstanding to agricultural producers and their co-operatives.

L'administration chargée du crédit agricole est l'agence fédérale pour la régulation et l'inspection des banques et des associations qui font partie du système du crédit agricole. Les 50 Etats et Porto Rico sont divisés en 12 districts de crédit agricole. Chacun des districts possède une banque fédérale agricole organisée en coopérative, une banque de crédit à moyen terme et une banque pour les coopératives. Il existe aussi, à Denver, Colorado, une banque centrale pour coopératives qui complète les prêts à moyen et à long terme quand ceux-ci dépassent le montant maximal octroyé par les banques fédérales agricoles. Les fonds des prêts à moyen et à long terme sont gérés par les 306 associations des banques fédérales agricoles (31 décembre 1985). Les banques de crédit accordent des prêts à court terme et à moyen terme aux 216 associations de crédit de production. Ce sont les sources directes des prêts à moyen terme et des prêts d'exploitation pour les producteurs agricoles et les entreprises du domaine agricole. Le système de crédit

agricole a accordé 72,7 milliards de dollars de prêts (30 septembre 1985) aux producteurs agricoles et à leurs coopératives.

La Administración del Crédito Agrícola es la agencia federal encargada de la regulación y el examen de los bancos y asociaciones que comprenden el sistema de crédito agrícola. Los 50 estados y Puerto Rico están divididos en 12 distritos de crédito agrícola. Cada distrito posee un Banco Federal Agrícola en cooperativa, un Banco de Crédito a mediano plazo y un Banco para Cooperativas. Además, existe un Banco Central para Cooperativas en Denver, Colorado, el cual participa en préstamos que superan el crédito disponible de los Bancos para Cooperativas del distrito. Los préstamos a mediano y largo plazo concedidos por los Bancos Federales Agrícolas son administrados por 306 asociaciones de bancos federales agrícolas (31 diciembre 1985). Los Bancos de Crédito otorgan recursos de corto y mediano plazo a 216 asociaciones de crédito de producción, que a su vez los adjudican en préstamos a mediano plazo y préstamos de operación a productores agrícolas y a empresas con intereses agrícolas. El Sistema de Crédito Agrícola ha concedido \$72.700 millones de préstamos (30 septiembre 1985) a productores agrícolas y sus cooperativas.

SUPPLY CO-OPERATIVES

COOPERATIVES D'APPROVISIONNEMENT

COOPERATIVAS DE ABASTECIMIENTO

In the United States supply co-operatives often act as consumer co-operatives. They sometimes serve urban as well as rural consumers.

* * *

Aux Etats-Unis, les coopératives d'approvisionnement font souvent office de coopératives de consommation. Elles s'adressent aux consommateurs urbains aussi bien qu'aux consommateurs ruraux.
