Effective Implementation of National Occupational Safety and Health (OSH) Programme for Improving Safety and Health at the Workplace in Vietnam

Partners: MOLISA, MOH, VGCL, VCA and other concerned agencies and organizations.

Donor: Japanese Government

Duration: 2009- 2011

Target Beneficiaries: are OSH officials, inspectors and practitioners of the governments of Vietnam and ultimate beneficiaries will be workers and employers in small and medium-sized enterprises and informal and rural workplaces.

Regional Focus: 4 Provinces-Thai Nguyen, Thanh Hoa, Thua Thien-Hue, Dong Nai

Project Objective

The project will contribute to implementing Decent Work Country Programmes (DWCP) and National OSH Programme through: (1) realization of safe and healthy workplaces and communities, and (2) productive workplace environment in small and medium-sized enterprises (SMEs) and poverty reduction in the community level. The project is implemented in cooperation with WHO to promote One-UN Policy.

Main Activities

- Provide technical support to strengthen national OSH policy frameworks through developing National OSH Profile and OSH Programme, participatory training materials, and national guidelines on OSH.
- Train workers and employers in small and medium enterprises, farmers and home workers in the target provinces by using ILO participatory, action-oriented training materials such as WISE, WIND, and WISH training programme.

Project Outcomes

- Tripartite, inter-ministerial system developed and strengthened to develop and implement National OSH Policy and Programme;
- Sustained OSH training mechanisms developed at provincial level to assist small enterprises, informal economy workplaces and agriculture;
- Large-scale enterprises that established in-company systems to prevent life-habit diseases and reduce work-related stress;
- Collaborative networks with ASEAN countries strengthened to promote OSH in small and medium-sized enterprises.
