Care and Protection for youth by the Department of Social Welfare

- establish (10) Youth training Schools in States and Regions
- accept and take care street children
- reintegration their parents/ guardians and job-placement programme
- recognized (217) Youth development Centers in States and Regions
- provides technical supports as well as rice, expenditure for foods and clothes, salary for administrator
Challenges

• support youth employment
• advance technologies
• collect the correct statistics regarding employment
• establish vocational training
• assistance of International Organization
Challenges

• Cannot have work match with their skills and education

• holding temporary jobs and hence, job insecurity

• Weaknesses on availability of reliable data

• Weaknesses of advanced technologies

• Could not meet the skill needs of industries
To Overcome Challenges

- conducting awareness raising workshop
- establishing information network for employment
- establishing vocational training more than present
- Conducting on-job training
- set up necessary measures and support to create employment opportunities
- set up national policy and necessary system for monitoring
Conclusion

• Important of both Government and Private Sectors

• balance and harmonious cooperation among the Government, employers and employees will bring fruitful results on decent work for youth
Thank you for your kind attention!
