## ILO SCORE (Sustaining Competitive and Responsible Enterprises)

SCORE Indonesia, a training programme of the International Labour Organisation, invites proposals from organizations, institutions, public and private consultancies or training bodies, interested in adopting and delivering *SCORE Training* as part of their business training portfolio for Small and Medium Enterprises (SME – SMI).

SCORE is a global training product which is currently being used in 7 countries around the world. It enables enterprises to increase productivity and boost their competitiveness through the application of low-cost, modern and responsible workplace practices.

SCORE Training was developed in 2010, with the assistance of the Swiss Secretariat for Economic Affairs (SECO) and the Norwegian Agency for Development Cooperation (NORAD). Since then, the Ministry of Manpower and Transmigration, the Indonesian Employers Association (APINDO), and national Trade Unions, have trialed the training in more than 80 Indonesian SMEs and fully adapted it to the Indonesian market. It is now ready for national rollout.
