What is the Local Development and Decent Work Resource Kit?

A set of practical and easy-to-use tools, used since 2006, designed to enable local planners, decision-makers and development practitioners to integrate Decent Work themes in decisions and actions

For whom?

- **Direct Beneficiaries:** Local development planners, practitioners, and other actors who help design and shape the development priorities and directions of the locality.
- Local Government Unit staff: Mayors, Local Government Unit Councilors, Local Development Councils and Committees, Local Economic and Development Officers, Local Poverty Reduction Action Officers, Local Planning Officers, and other development workers
- Departmental staff located in regional and provincial offices working at the municipal and village or district level (Barangay level in the Philippines)
- Professional staff located in public, private, labour and community organizations
- Other actors, such as:
 - Planning Officials located at provincial, regional and national levels
 - Non-governmental organizations;
 - Regional and Provincial Development Committees
 - Academic and training institutions
- **Ultimate Beneficiaries:** Local communities, local stakeholders, families and households

For what purpose?

- Add value to current planning frameworks in the country, particularly at local levels, by addressing two key challenges that confront local decision-makers and communities:
 - Poverty, social exclusion, the quantity and quality of jobs in local development strategies
 - Make local, regional and national planning frameworks coherent so as to ensure close linkages among priorities, strategies and programmes across policy areas and on different levels

How is it delivered?

- Orientation workshops
- Mentoring and coaching

What are its components?

A collection of tools for each of the **five themes**:

- 1: Local Development and Decentralisation in the Philippines and the Decent Work framework
- 2: Territorial Diagnosis and Analysis
- 3: Broad-based Participation through Social Dialogue
- 4: Designing Programmes for Local Development and Decent Work
- 5: Technical Issues in Implementation, Monitoring and Evaluation

Which technical areas are covered?

- Strengthening local economic growth
- Creating more jobs (employment opportunities)
- Making local development benefit the poor
- Improving the quality and conditions of work and life
- Promoting equality, rights and voice

Can it cover more technical areas?

Yes

Where has it been used?

In 1 country: the Philippines (see map)

Which languages?

Available in 1 language: English

Is it suitable for rural areas?

Yes

What are its strengths?

- Practical
- Easy to use tools
- Based on ILO experience and expertise
- Benefited from inputs from local partners and stakeholders
- Pilot-tested
