Seventh item on the agenda

Scale of assessments of contributions to the budget for 2022

1. Since 1977, the scales of assessment for determining the contributions of Member States of the ILO have been based on the United Nations (UN) scales of assessment, adjusted for differences in membership between the two organizations. The UN fixes its scales on a triennial basis, and thus the last scale adopted by the General Assembly at its 73rd Session in December 2018 covered the years 2019–21.¹ In June 2019, on the recommendation of the Governing Body, the Conference, at its 108th Session, approved the scale for 2020 and 2021. The situation whereby the UN scale for a particular year is not available in time to be applied in the ILO for that year, arises every three years, and this will be the case for 2022.
2. The Government group has considered the established practice whereby the ILO scale would continue to be based on the latest available UN scale, subject only to arithmetical differences resulting from the different membership of the two organizations, and recommends to the Governing Body a draft ILO scale of assessments for 2022 based on the UN scale for 2019–21.
3. The ILO draft scale of assessments for 2022 would therefore be the same as in 2020 and 2021, as shown in the appendix.

¹ A/RES/73/271.

► Draft decision

4. **The Governing Body, in accordance with the established practice of harmonizing the rates of assessment of ILO Member States with their rates of assessment in the United Nations, and on the recommendation of the Government group, decided by correspondence:**
 - (a) **to base the ILO scale of assessment for 2022 on the UN scale for 2019–21; and**
 - (b) **to propose to the International Labour Conference the adoption of the draft scale of assessment for 2022 as set out in the appendix to document GB.341/PFA/7, subject to such adjustments as might be necessary following any further change in the membership of the Organization before the Conference is called upon to adopt the recommended scale.**

▶ **Appendix****Scale of assessments**

State	Draft ILO scale of assessments 2022 (%)	
1	Afghanistan	0.007
