Albania

Serious failure to submit first reports on the application of ratified Conventions and urgent appeal

The Government has provided the following written information.

The Albanian Government, pursuant to article 22 of the Constitution of the International Labour Organization (ILO) has taken measures to implement the Maritime Labour Convention, 2006 (MLC, 2006). According to the requirements and observations by the Committee of Experts, one of the reasons for the delay of the MLC, 2006 regards the lack of a legal framework. It has provided another training course for "Reporting on the MLC, 2006" provided by the International Training Centre of the ILO for the Maritime Expert in the Ministry of Infrastructure and Energy of the Republic of Albania. We are aware that the MLC, 2006, has shortcomings, but we are at the end of our work process, to provide a final report. Also, the Albanian Government is providing information for most of the Conventions required for 2022. The reports will be sent according to the deadline set between 1 June and 1 September 2022.
