Zero new HIV infections. Zero discrimination. Zero AIDS-related deaths.
Implement the ILO Recommendation on HIV and AIDS (No. 200)

“ The number of AIDS-related deaths is far lower than deaths due to other critical diseases, thanks to the treatment that enables people to live longer. So, it makes sense for **insurance companies to cover HIV**. I did it in my company. The fact that there **were no claims in the past 20 years** shows that I was right. I hope **other insurance companies will do the same.** ”
