Information Passports for Migrant Domestic Workers (Ukraine-Poland)

Information Passport is a tool developed as part of the EU funded Global Action Programme for Migrant Domestic Workers and Their Families (GAP-MDW). The passport size brochures were designed on request of workers' organizations in Ukraine-Poland migration corridor.

The tool intends to guide Ukrainian domestic workers employed in Poland through the legal procedures of employment and labour rights of migrant domestic workers in the countries of destination. The *Passport* contains essential information for potential and actual migrant domestic workers and covers legal issues, employment procedures, labour standards, social security, rights and responsibilities of workers and employers, prevention measures of human trafficking in and exploitation as well as contact information of existing services, NGOs and representative country offices.

The *Information Passport* was validated by stakeholders and its dissemination strategy includes diffusion of the tool to potential migrants through the channels of the Trade Union Confederations.
