Other limitations:

TERMS AND DEFINITIONS

Term used to denote 'disability': ‘Longstanding health condition(s) or disease(s) or basic activity difficulty(ies)’
**Definition of this term:** Longstanding health condition or disease is a health problem or illness lasting or expected to last for 6 months or longer. Longstanding health condition may be diagnosed by the doctor or unspecified by the doctor. Longstanding health condition is characterised by its permanence and long-term treatment, rehabilitation or care period. To explain the term ‘longstanding health condition’ a word ‘chronic’ may be used instead of ‘longstanding’. Permanent/longstanding difficulties with basic activities are difficulties lasting or expected to last for 6 months or longer.

**Source of this definition:** Explanatory notes for the variables of the 2011 LFS ad hoc module according with Commission Regulation (EU) No 317/2010 of April 16, 2010

**Questions used to identify persons with disabilities:** ‘Do you suffer from any of these longstanding health conditions or diseases lasting or expected to last for 6 months or longer?’
‘Do you have permanent/longstanding difficulties with any of the following basic activities (listing of activities)?’ Possible answers: yes, no, don’t know, refuse to answer.
‘Do(es) your longstanding health condition(s) or disease(s) or permanent/longstanding activity difficulty(ies) cause(s) limitation in the number of hours that you can work in a week?’
‘Would your longstanding health condition(s) or disease(s) or permanent/longstanding activity difficulty(ies) cause(s) limitation in the number of hours that you can work in a week?’
‘Do(es) your longstanding health condition(s) or disease(s) or permanent/longstanding activity difficulty(ies) cause(s) limitation: in the type of work (such us, having problems in carrying heavy loads, working outdoors, sitting for a long time) that you can do; in getting to and from work?’
‘Because of the longstanding health condition(s) or disease(s) or permanent/longstanding activity difficulty(ies) cause(s) do(es) you: use personal assistance to enable you to work; use special equipment or have workplace adaptations to enable you to work; have special working arrangements to enable you to work (such as, sedentary jobs, teleworking, flexible hours or less strenuous work)?’ Possible answers: yes, no.
‘What causes limitation in the number of hours that you can work in a week?’
‘What causes limitation in the number of hours that you could work in a week?’ Possible answers: longstanding health condition(s) or disease(s); permanent/longstanding activity difficulty(ies); both, longstanding health condition(s) or disease(s) and permanent/longstanding activity difficulty(ies); don’t know; refuse to answer.
‘What is the main reason for any other limitations in work you can/could do: lack of qualifications/experience; lack of appropriate job opportunities; lack or poor transportation to and from workplace; employers’ lack of flexibility; affects receipt of benefits; family/caring responsibilities; personal reasons; other?’ Possible answers: yes, no, don’t know, refuse to answer.

**Minimum duration to be considered as a person with disability:** 6 months

**CLASSIFICATION**

**Classifications:** Sex, age, level of education, other personal characteristics (e.g. marital status), status in employment, occupation, economic activity.

**Cross-classifications:** People aged 15-64 reporting a longstanding health condition or a basic activity difficulty, by sex and age. Early leavers from education and training are classified by sex, disability status, and labour status. Tertiary educational attainment (age group 30-34) by sex and disability status.

**REFERENCE PERIOD:** Week
DISSEMINATION
