Anguilla

A: Identification

Title of the CPI: Consumer Price Index

Organisation responsible: Anguilla Statistics Department

Periodicity: Quarterly

Index reference period: December 2000 = 100

Main uses of CPI: Indexation of wages, pensions and/or social security payment, indexation of rents, contracts and/or other payments and main inflation indicator used for monetary policy.

B: CPI Coverage

Geographical Coverage

Weights: Nation-wide

Price collection: Nation-wide

Population coverage: Resident households of nationals.

C: Concepts, definitions, classifications and weights

Definition of the CPI and its objectives: The CPI is a measure used for the general level of retail prices in the Anguilla economy. Its change from one period to another (inflation rate) indicates the general price movement. It is a composite measure of the change in average prices paid by the consumer for a representative basket of goods and services.

Sources of weights: Household expenditure surveys.

Frequency of weight updates: Above 5 years

D: Sample design

E: Data Collection

Approximate number of localities, outlets and price observations: Outlets: 30

Frequency with which prices are collected: Price surveys are conducted quarterly.

Reference period for data collection: Prices are collected on Wednesday of the first week of the last month of the quarter.
