Acknowledgements

This publication was prepared by Josephine Kuffour-Duah, Richard Ayitey, Osman Mensah and Jody Williams, consultants from JMK Consulting Ltd for IPEC; and coordinated by Stephen McClelland and Stella Dzor from IPEC Ghana Office and Alexandre Soho from IPEC Geneva Office.

The Manual development also benefited from expert supervision and review from Stephen Adu, Director, Basic Education Division, Ghana Education Service. Valuable suggestions, feedback and reviewer comments were provided by both national and regional level contributors during stakeholder's validation workshop including Emmanuel Atsu Mensah; Godwin Addo; Issah Alhassan; Joycelyn Asante Boamah and Joyce Esi Bronteng.

Contributions for this publication was provided by the Ghana National Education Campaign Coalition (GNECC) (with sponsorship from Actionaid) and the ILO-IPEC's project RAF/10/54/USA, funded by the United States Department of Labour.

This publication does not necessarily reflect the views or policies of the United States Department of Labour, nor does mention of trade names, commercial products, or organizations imply endorsement by the United States Government.

The designations employed in ILO publications, which are in conformity with United Nations practice, and the presentation of material therein do not imply the expression of any opinion whatsoever on the part of the International Labour Office concerning the legal status of any country, area or territory or of its authorities, or concerning the delimitation of its frontiers.

The responsibility for opinions expressed in signed articles, studies and other contributions rests solely with their authors, and publication does not constitute an endorsement by the International Labour Office of the opinions expressed in them. Reference to names of firms and commercial products and processes does not imply their endorsement by the International Labour Office, and any failure to mention a particular firm, commercial product or process is not a sign of disapproval.

ILO publications and electronic products can be obtained through major booksellers or ILO local offices in many countries, or direct from ILO Publications, International Labour Office, CH-1211 Geneva 22, Switzerland. Catalogues or lists of new publications are available free of charge from the above address, or by email: pubvente@ilo.org or visit our website: www.ilo.org/publns.

FOREWORD

Education is a social enterprise demanding efforts and contributions from all stakeholders, especially if education is to benefit the whole society. In Ghana, communities have played a vital role in the development and provision of education. Many of the basic schools in Ghana were originally initiated by communities, which willingly recruited teachers and provided places of learning for their children. As the schools progressed, they were absorbed into the public school system.

The management and control of the schools then shifted to central government authorities and communities tended to be less involved. This centralised control and management of the education delivery system over a long period has had a reverse effect on local community commitment and involvement in the quality, management and access/participation of education in our country.

The Ministry of Education (MOE) and Ghana Education Service (GES) recognize the importance of reciprocal partnership of school-community leaders and local school authorities in effecting changes in the schools. The MOE and GES have committed themselves to building a systematic approach to assisting community organisations, School Management Committees (SMCs) and Parent Teacher Association (PTA), to play a major role in the regeneration of their schools. It is the belief of the MOE and GES that communities have an important role to play in enforcing standards, developing and maintaining school infrastructure, and creating partnership between teachers, pupils and district authorities to bring about needed changes and reforms.

This SMC Manual Training Manual seeks to provide basic guide for the training of School Management Committees. It seeks to help facilitators and SMCs understand what is already in the SMC Resource Manual. This Training Manual particularly focuses on issues of Child Labour and Education and has therefore expanded on topics under Child Rights in the Resource Manual. This is as a result of the greater recognition that the Ministry of Education and the Ghana Education Service and its development partners give to the issue of child labour and education.

One key challenge to achieving the FCUBE objective and goals 1, 2 and 3 of the Millennium Development Goals (MDGs) are the engagement of children of school age in child labour. The fact that child labour interferes with education has significant implications for social and economic development at the individual, household and societal levels. The single most important result is that the elimination of child labour and enforcement of universal basic education is estimated to yield enormous economic benefits. Efforts to eliminate child

labour are therefore an indispensable element for the achievement of national educational targets.

When children are in school, they are kept and prevented from engagement at work. Thus children benefit more if they choose school over work in the course of their lifetime. Nevertheless, millions of poor children in Ghana continue to work instead of going to school. It is estimated that about 23.3 per cent of children in cocoa growing regions in Ghana are engaged in at least one hazardous activity with a further 10.1 per cent of children engaged in one hazardous cocoa-specific activity in the cocoa growing regions.

The MOE and GES do support and promote the use of this Training Manual as it seeks to guide facilitators in clarifying the roles and responsibilities of SMCs and to some extent PTAs. In using this Training Manual, SMCs will be equipped to provide the leadership for community support to ensure school effectiveness. It is one of the most prudent ways that quality education can be ensured in our basic schools.

In the long term, the MOE and GES and its development partners would like to see a strengthened school community partnership, which emphasizes the provision of quality education. If this happens, we will have established an efficient school governing system.

Mrs. Benedicta Naana Biney
(Director General, Ghana Education Service)

The President
Ghana National Education Campaign Coalition (GNECC)

The Director / Chief Technical Advisor
ILO
Abuja / Ghana

PREFACE

This document is a Training Manual to guide facilitators in training School Management Committee (SMC) in Ghanaian Basic Schools.

The Training Manual is intended for facilitators and trainers, who are involved in the training of SMC based on the Ghana Education Service Resource Handbook. The Training Manual is arranged in accordance with the 38 topics contained in the revised SMC Resource Handbook, 2010 with an additional 3 modules on 'child labour', 'Leadership' and 'Governance'. Corresponding to each topic area are the objectives and methodologies, suggested time duration and learning points.

While the Resource Handbook captured child labour as an aspect of child rights, it was not comprehensive enough. Child labour has therefore been expanded in this Manual in response to its growing importance and the commitment of GES to addressing the problem in basic schools.

The Training Manual has been developed as a guide to all facilitators and trainers of SMC members who are to be conversant with the revised SMC Resource Handbook. Further reference materials on the 3 additional Modules have been provided as an addendum to the SMC Resource Manual.

School-based, cluster-based and district-based training workshops are appropriate for using this Training Manual, whereby SMCs participate as a team during the training.

In using this Module, you must keep in mind the fact that there are many ways to do a thing. Therefore, you are encouraged to study, argue and discuss each topic in group, internalize the contents, find out better ways of doing things, if there are any, and apply them to the objective conditions of targeted SMCs.

TRAINER'S GUIDE

OBJECTIVES OF THE MANUAL

The Manual course and materials are intended to:

- Equip SMC with skills to perform their roles and responsibilities effectively.
- Stress the importance of good leadership as a catalyst for good school governance.
- Increase the knowledge and understanding of SMC on the main areas they could support to improve school management; enhance the participation of parents in the management of community schools; improve access, retention and school attendance; build trust in the community; utilize participatory planning as well as mobilise resources and monitor school finances, etc.
- Enhance the capabilities and competencies of SMC members in record keeping, bookkeeping, planning, implementation, and monitoring of school programmes.
- Outline the approaches that SMCs could adopt to improve the quality of teaching and learning in basic schools.
- Promote basic understanding of child labour and needed interventions to address the problem of child labour in their communities.
- Equip SMCs to improve pupil's access to and participation in education delivery.

HOW TO USE THE MANUAL

It is strongly suggested that trainers and facilitators read the entire manual prior to the training session. Trainers/facilitators should also prepare the handout and further reading in advance of each training session. This information has been provided at the reference section at the end of each unit.

Remember always to do an appraisal of the existing structures before any training session. This useful exercise will assist trainers to determine trainees' level of understanding of their roles and responsibilities. It will therefore make it easier for trainer to select relevant but useful topics for a particular training session. Remember also that participants are adults and you should encourage them to contribute freely, introduce team work mostly since team training is recommended for adult learning.

Do not forget to use the language most participants would understand in the training session. It enhances participatory approach with fairly opportunities for great impact. Group work is very essential. It will increase and strengthen teamwork.

Each of the unit contains the following subtitles:

Unit title – identifies the main topic of the session.

Session – indicates the sub-units that will be included.

Objectives – describes what the participant will be able to know and do by the end of the session. The trainers or facilitators should ensure that the objectives are met by the end of each respective unit. It is recommended that all activities should be used during training. However, time constraints and context may mean that some activities may not be carried out/or adapted at the trainer’s or facilitator’s discretion.

Time – indicates the approximate amount of time allowed to each session will take.

Materials – lists the materials that will be required for the session.

Key messages – these are at the beginning of each unit and give details of the key messages participants should understand by the end of that particular unit.

Steps – provide “step-by-step” instructions to the trainers on how to conduct each session. The sessions are designed to allow participants to share experience and knowledge, through responses. Gain new information, reflect and apply new knowledge with understanding through discussions and full participation.

Activities – these are included in each session, with instructional steps for trainers and participants to carry out a task.

Additional readings – The GES Resource Manual contains handouts for each session, followed by additional documents and further information to the sessions. Trainers are therefore advised to use the Resource Handbook together with this Guide.

CONDUCTING THE TRAINING

- i. **Rehearse Instructions:** Clear instructions are critical. Giving step-by-step instructions is preferable to a list of instructions at once. It is important not to overload the participants with instructions; give the directions as needed, soliciting responses from participation.
- ii. **Arrange the Room:** For the training to proceed smoothly, it is important to have the room arranged effectively. Easels, flipcharts, etc., should be placed where all the participants can see them easily. Chairs, tables, etc., should be arranged in a manner that allows for easy interaction among the participants, and good eye contact with the trainer/other group members. Formal seating arrangements, with the chairs and tables in rows, should be avoided as it tends to encourage a lecture environment with little interaction with the participants. If possible, separate tables with a small

number of participants at each. If this cannot be done, arrange the tables in a horse shoe design so that the participants can see each other and the trainer.

- iii. **Keep the Session Moving:** There is a natural pace to training sessions. How quickly or slowly it proceeds depends on the participants, the task, the material being covered, and the trainer. Although the first two elements will probably influence the trainer's judgment on such things as timing and the sequencing of events, the trainer alone will know what can be most comfortably done.
- iv. **Give Time Clues:** Remain in charge of starting, stopping, or interrupting the exercises. Clues (such as, "When I give the signal...."; or, "Take five more minutes....") should keep the exercise well-paced and focused.
- v. **Insist on Attention:** The trainer needs the group's full attention when giving instructions and directions. Focus on the group's attention by waiting for quiet, using charts, and writing out directions when necessary.
- vi. **Review Regularly:** Review the material learnt from each activity when it is appropriate and practical. This helps the participants to be clear about their learning progress and skill development. Also, it gives the time to discuss what they have learned and integrate it into their own behavior.
- vii. **Closure:** This is a very important part of the experiential training process. It provides for the following:
 - Review of all of the experiences of the session or the workshop up to that point.
 - An opportunity to sum up what has been learned thus far.
 - An application of the session content to the regular work setting to which the participants will return.
 - A linkage of the session to previous material covered, and to that which will be addressed in future sessions.
- viii. **Apply facilitation skills, listening much and using the eye contact.**

UNITE 1. EDUCATION REFORMS AND POLICIES

1.1 CONTENTS

- (1) Education Acts and Policy Initiatives,
- (2) Education Interventions and Initiatives,
- (3) The School Management Committee,
- (4) Parent/Teacher Associations.

1.2 INTRODUCTION

A number of legislative frameworks and policies guide the development of education in Ghana dating back to 1951. This section introduces SMCs to the education legislations, policies and initiatives including international, national and local structures that support working children and education, together with the barriers that decrease their effectiveness. As SMC members, you should realize the importance of adhering to all laws governing the schools including national policies, regulations and by-laws of the District Assemblies. If you do not understand the law, you cannot hold head teachers and teachers liable for breach of such laws or policies. As SMC member you cannot expect your Head teachers and teachers to follow the school rules and regulations, if you in turn are not willing to follow the rules and regulations set for you to follow. You can only trust that there is good reason for a specific law or policy to be put in place, but realize that you must follow it accordingly. However, if you believe that a policy is detrimental to the students, then work to do anything in your power to have the policy rewritten or thrown out. You will still adhere to that policy until that happens. It is also important to check before reacting in order not to overstep your boundaries in relation to the powers given to SMCs under the Law.

1.3 OBJECTIVES

In this unit, participants will become familiar with educational policies and initiatives. These will be compared with international policies and commitments. In the unit, participants will also discuss international, national and local structures that support working children and education, together with the barriers that decrease their effectiveness. By the end of the unit, participants will be able to:

- Discuss the relevant national legislation related to educational policies and outline the importance of Educational Acts and policy initiatives.
- Identify the role of SMCs in the implementation of the Acts.
- Discuss the importance of educational interventions and initiatives in the country.
- Explain their roles and responsibilities in the implementation of the interventions and initiatives.
- State the importance of SMCs to the development of education in this country.
- Identify the responsibilities and roles of SMCs as well as the limitations.
- Explain the criteria for selection/endorsement of SMC members.
- Explain the tenure of office of the SMC chairman and members as well.
- Explain the meaning of PTA and the purpose for establishing PTAs.
- Explain the membership of PTA/Executive members and describe the duties and responsibilities of PTAs.
- Differentiate the role of the PTAs from the SMCs.

1.4 SESSIONS

- A. Education Acts and Policy Initiatives: 45 minutes
- B. Education interventions and Initiatives: 45 minutes
- C. School Management Committee: 2hours.
- D. Parent/Teacher Associations: 1hours

1.5 MATERIALS

- Flipcharts,
- Marker pens,
- Masking tape.

1.6 HANDOUTS

- No. 1 What is SMC,
- No. 2 Who qualifies to be an SMC member,
- No. 3 Membership of the SMC,
- No. 4 Criteria for selecting an SMC member.

1.7 SESSION A. EDUCATION ACTS AND POLICY INITIATIVES 45 MIN

STEP 1

Brainstorm with participants on what they know about Ghana's Education Act and Policies

STEP 2

List responses of participants on flip chart or chalkboard Go through participants' responses and add up to them:

- The Accelerated Development Plan for Education in 1951,
- The 1961 Education Act (Act 87),
- The 2008 Education Act (Act 778).

STEP 3

Emphasize on the system of Education as espoused under the Education Act 2008 (Act 778) especially basic education (2 years of Kindergarten (KG) education, 6 years of Primary education and 3 years of Junior High School Education (JHS)

STEP 4

Ask participants in pairs to write two important aspects of the Educational Acts.

- List responses and deliberate on them,
- Summarize responses.

STEP 5

Lead participants to discuss the roles and responsibilities of communities, especially the SMCs as stated in the Education Act 2008. Based on the discussions, lead participants to develop action plans on how best they could participate in the implementation of the Education Act.

1.8 SESSION B. EDUCATION INTERVENTIONS AND INITIATIVES

45 MIN

STEP 1

Ask participants to mention some interventions that they are aware of e.g. Capitation Grant, School Feeding Programme and Free School Uniform and Exercise Books Programme, Free Compulsory Universal Basic Education (fCUBE), National Literacy Accelerated Programme (NALAP), School Report Card (SRC), School Performance Improvement Plan (SPIP), and School Performance Appraisal Meeting (SPAM).

STEP 2

List responses, discuss and add up to the list. Let participants know that they are catch-up policies. Explain the policies.

STEP 3

Explain to participants, the existing interventions and initiatives currently driving basic education delivery in the country.

STEP 4

Put participants into groups to discuss the interventions and initiatives and how they affect the SMCs. They should also discuss the importance of these initiatives and interventions to the development of education in the country. Discuss the challenges in the implementation of these interventions and initiatives at the school/community level.

STEP 5

Ask participants to list the importance of the initiatives and interventions, and the challenges during implementation on a flip chart.

STEP 6

Facilitate the presentation of group work at a plenary session. Summarize key points (these interventions/policies are there to ensure the fulfilment of the Constitution of the Republic of Ghana to achieve quality education for all Ghanaian children).

1.9 SESSION C. THE SCHOOL MANAGEMENT COMMITTEE 2 HOURS

STEP 1

Ask if participants know what SMC stands for. List responses on flip chart and discuss.

STEP 2

Explain to participants the legal backing to the establishment of SMC stemming from the 1995 Education Act (Act 506).

STEP 3

Discuss with participants the membership of the SMCs. Put them in small groups of 4-5 to identify the composition of SMCs. List participants' responses on flip chart; clarify responses with inputs from other participants.

A circuit supervisor calls on the headteacher of the school to advice on the need to form an SMC. The official composition is presented to the Head. He knows and proposes his friends, wife and close associates to occupy various positions. Is this form of composition acceptable under the Law? Explain your answer.

STEP 4

Put participants into their school communities to identify the roles and responsibilities of SMCs.

Facilitate group presentation at plenary session and explain the criteria for selection /endorsement of membership.

STEP 5

- Introduce the topic 'Tenure of office' of SMC for participants to explain if they are aware.
- Clarify for the understanding of participants that SMC members have 3 years term to serve and can serve for two terms only.
- Chairpersons elected for a one three-year term only; not to be re-appointed.
- Discuss the importance of tenure of office for SMC members.

1.10 SESSION D. THE PARENT /TEACHER ASSOCIATION (PTA)

1 HOUR

STEP 1

- Introduce the topic and the objectives to participants and brainstorm to find out from participants what PTA stands for.
- Record responses of participants and read through the responses of participants. Add further information if any.

STEP 2

- In a buzz group, let participants identify the differences between the PTA and SMC,
- Record responses, read through and discuss.

STEP 3

- Brainstorm to find out the membership of PTA and discuss the executive members of PTA.
- Put participants into groups to discuss the duties and responsibilities of the PTAs.
- Facilitate the plenary discussions and summarize the key points.

STEP 4

- Explain to participants the differential roles and responsibilities of the PTAs and SMCs emphasizing the common goal of the two bodies towards improving education delivery in their communities.

UNITE 2. IMPROVING ACCESS AND PARTICIPATION

2.1 CONTENTS

(1) Child Labour.

- Understanding the Meaning of Child and Child Labour,
- The Type of Work Children Perform that Constitute Child Labour,
- Forms of Child Labour Targeted for Elimination in Ghana,
- Interventions to Eliminate the Worst Forms of Child Labour in Ghana,
- Child Labour, a Barrier to Education,
- The Role of SMCs and other Stakeholders in the Elimination of Child Labour and the Promotion of Education.

(2) Maintenance and Safety of School Infrastructure.

(3) Enrolment and Retention Drives.

(4) Career Guidance.

2.2 INTRODUCTION

Access to basic education lies at the heart of development. Lack of education is both a part of the definition of poverty and a means for its reduction. Sustained and meaningful access to education is critical to long term improvements in productivity, the reduction of inter-generational cycles of poverty, demographic transition, preventive health care, the empowerment of women, and reductions in inequality. The basic propositions that underlie these observations are well established in the research literature and widely believed. Fairly universal poverty reduction is seen as unlikely unless knowledge, skill and capabilities are extended to those who are marginalised from value-added economic activity by illiteracy, lack of numeracy, and higher level reasoning that links causes and effects rationally. SMCs therefore need to implore on households and individuals to value participation in education and invest substantially in pursuing the benefits it can confer.

Child labour has been identified as one of the main obstacles to education; at the same time, education is a key element in the prevention of child labour. How does this happen?

Child labour harms children's ability to enter and survive in the school system, and makes it more difficult for children to derive educational benefit from schooling. Work tends to delay school entry (or prevent it altogether), reducing the probability of the child completing basic

education. Children are "pushed" into work by a number of factors including poor quality, irrelevant or inaccessible schools, poor surveillance/monitoring of children in communities and weak capacity of key partners to address the problem at the community level.

Children engaged in child labour are generally at a cost to their ability to attend and perform in school. One report by UNESCO notes that at the turn of the millennium (i.e. year 2000), there were 104 million children of primary school age not enrolled in school. Majority of these children were found to be working. Child labour also adversely affects the academic achievement of considerable number of children who combine Work and School, often resulting in these children leaving school prematurely and entering into work. High levels of child labour therefore translate into large numbers of out-of-school children which in turn means lower overall attendance rates and slower progress towards achieving universal access to basic education.

Providing children with accessible and quality education has long been recognized as an antidote to child labour. Therefore SMC need to understand the interplay between education and child labour if Ghana is to achieve its goal of universal access to basic education.

2.3 OBJECTIVES

In this unit, participants will become familiar with working children's lives, and what constitute child labour, prevalent forms of child labour targeted for elimination in Ghana, international and national laws that prohibit child labour and how child labour affects pupils' education. The unit will introduce participants to the distinction between 'child work', 'child labour', 'hazardous work' or 'unconditional worst forms of child labour'

In this unit, we will also focus on how you can improve pupil's access to and participation in education delivery. This is in fulfilment of the fCUBE, Education for All, and the Millennium Development Goals.

By the end of this unit, participants will be able to:

- Understand the meaning of child labour.
- Identify the difference categorise of child labour.
- Identify the various forms of child labour prevalent and targeted for elimination in Ghana.
- Appreciate why child labour is seen as an obstacle to children's education.
- Identify and appreciate the national legal framework on child labour.
- Be abreast with interventions to address the problem.

- Know what can be done by SMCs and other community level partners to address the problem in their communities.
- Explain how school infrastructure and facilities could be maintained and kept safely.
- Explain the importance of maintaining and keeping safely all infrastructure and facilities in the schools.
- Formulate practical ways of maintaining school infrastructure and facilities.
- Explain the meaning of enrolment and retention drives.
- State the importance of enrolment and retention drives.
- Identify ways of promoting enrolment and retention drives in schools.
- Identify indicators in enrolment and retention in schools.
- Explain what career guidance is and mention factors of career guidance.
- Outline reasons for career guidance and formulate practical ways and methods used in assisting career counselling in schools and communities.

2.4 SESSIONS

- | | |
|--|--------|
| • A: Understanding the meaning of a ‘child’ and ‘child labour’ | 40 min |
| • B: The types of work children do that constitute child labour | 40 min |
| • C: Forms of child labour prevalent and targeted for elimination in Ghana | 40 min |
| • D: National laws that prohibit child labour | 40 min |
| • E: Child labour as an obstacle to education | 40 min |
| • F: The Role of SMCs in the elimination of child labour | 30 min |
| • G: Maintenance and safety of school infrastructure | 1 hour |
| • H: Enrolment and retention drives | 1 hour |
| • I: Career guidance | 1 hour |

2.5 MATERIALS

- Flipcharts,
- Marker pens,
- Scissors,
- Masking tape.

2.6 KEY MESSAGES

- Child labour continues to pose a significant problem in several parts of the world in terms of its detrimental effect on human capital development, including Ghana.

- Child labour infringes on the right of the child, including protection from exploitative and hazardous work; as well as the right to education and defeats the fCUBE Policy.
- Education for all children is a constitutional right.
- Child Labour is illegal and contravenes national laws.
- Child Labour may result in injury and in the extreme cases, death if the child is not properly equipped and supervised by an adult.
- Child labour prevents, interferes with, or negatively affects education, including interference with the quality of learning, concentration at school and school performance; as well as the level of interest.
- Child labour may lead to school dropout.
- Child labour leaves irreparable damage, including moral, physical, psychological and emotional damage’.
- Child labour prevents children from developing their full potentials to contribute significantly to the development of its community, district and nation.
- Child labour is an obstacle to the achievement of the relevant MDGs on achieving Universal Basic Education.
- Education of good quality up to the minimum age for entering into employment is a key element in the prevention of child labour.
- Child labour is one of the main obstacles to EFA, as involvement in child labour is generally at a cost to children’s ability to attend and perform in school or benefit fully from school work.
- Understanding the interplay between education and child labour is therefore critical to achieving both EFA and child labour elimination goals.
- Child labour contravenes the international instruments to which Ghana is party e.g. ILO Conventions 138 and 183, UNCRC, etc.
- Communities, including SMCs have a key role to play in eliminating child labour and promoting education for children in their communities.

2.7 SESSION A. UNDERSTANDING THE MEANING OF ‘CHILD’ AND CHILD LABOUR’ 40 MIN

STEP 1

Ask participants to explain what they understand by a ‘child’. Write all responses on the flip chart. Match the responses on definition of a child with those in the national laws.

STEP 2

Children in all societies are expected to do some forms of work; most of us in this room probably did some form of work when we were children or expect our own children to perform certain tasks to help the family. However, in your opinions, what make some of these forms of work acceptable, or beneficial, and what make others unacceptable 'child labour'? Split participants into smaller groups of 4-5 and distribute a worksheet that lists 10 child labour scenarios. At the bottom of the work sheet is a spectrum on child labour, child work, worst forms of child labour, intolerable labour, and hazardous work.

STEP 3

Assign five scenarios to each group and give them 10 minutes to discuss where each scenario falls in a spectrum. Ask the group to record the results once they reach consensus. You may assign the same scenarios to several groups to stimulate discussion and debate as they report their responses. Facilitator notes: Conclude that child labour often involves conditions that violate both the rights of workers and the rights of children.

STEP 4

Ask participants to brainstorm on some rights of children. Write all responses on the flip chart and match the responses with information on children's rights in the Resource Manual.

2.8 SESSION B. THE TYPES OF WORK CHILDREN DO THAT CONSTITUTE CHILD LABOUR 40 MIN

STEP 1

Draw a table on the flipchart with two columns (See the example below). Write 'work children do that are considered acceptable' at the top of the first column. Ask participants to offer suggestions. Write these clearly on the flipchart, one under the other. Refer to table 1, first column, for an example.

STEP 2

Ask participants to come out with the differences in the types of work children do in the urban and rural areas. Put a different colour symbol against the items considered 'urban work' and those considered 'rural work' on the list.

STEP 3

In the second column of the table, write 'work that children do that is considered unacceptable'. Ask participants to offer suggestions. Write these clearly on the flipchart, one under the other. Refer to table 1, first column, for an example.

TABLE 1 (EXAMPLE)

Work considered acceptable	Work considered unacceptable

2.9 SESSION C. CAUSES, CONSEQUENCES AND FORMS OF CHILD LABOUR PREVALENT AND TARGETED FOR ELIMINATION IN GHANA 40 MIN

STEP 1

Ask participants to brainstorm on child labour prevalent in their areas. Make sure that participants consider both 'light work', 'child labour' and the "worst forms of child labour" (hazardous and unconditional worst forms) and differentiate them.

STEP 2

Write all responses on the board and discuss

STEP 3

Lead the group in a discussion on why children work and also highlight the different forms of child labour targeted for elimination in Ghana.

STEP 4

After the groups have discussed their lists, present some additional information from the Addendum of the Resource Manual that they did not mention. Remind them that they are numerous forms of child labour.

STEP 5

At plenary, lead participants to discuss the consequence of child labour on the wellbeing of the children particularly issues relating to the education of the children.

2.10 SESSION D. INTERVENTIONS FOR ELIMINATING THE WORST FORMS OF CHILD LABOUR IN GHANA 40 MIN

STEP 1

Ask participants to list national regulations/laws that prohibit child labour that they are familiar with. Write participant's responses on the flip chart and briefly go through the key ones mentioned

STEP 2

Ask participants to expand or give details on each one.

STEP 3

Clarify their points and make additions/corrections to those mentioned.

STEP 4

Go through the list of the main legislative frameworks in the Resource Manual and select those that participants did not mention in Step 1.

2.11 SESSION E. CHILD LABOUR AS AN OBSTACLE TO EDUCATION 40 MIN

STEP 1

Ask participants why it is essential that children receive education.

STEP 2

Ask participants to brainstorm 'why child labour serves as an obstacle to children's education'. Guide participants to consider different age groups, girls, and boys.

STEP 3

Write all responses on the flip chart.

STEP 4

Lead the group in a discussion to highlight the main negative influences work has on children and categorize these accordingly:

- a) For girls,
- b) For boys,
- c) For different age groups.

STEP 5

Present some additional negative effect of child labour on children's education. Remind them that the attendance and learning achievement consequences of child labour are numerous and terribly damaging to the children's minds and bodies, which can affect their learning outcomes.

2.12 SESSION F. ROLE OF SMCs AND OTHER STAKEHOLDERS IN THE ELIMINATION OF CHILD LABOUR AND THE PROMOTION OF EDUCATION 30 MIN

STEP 1

Lead a general discussion on the roles and responsibilities of SMCs in fighting child labour and the promotion of education.

STEP 2

Put participants in smaller groups of 4-5 to brainstorm on the specific role they could play to eliminate child labour in their communities.

STEP 3

Lead a brief plenary discussion on the groups' findings

STEP 4

Compile the inputs from all groups and add up from the Resource Manual, the key roles of SMCs in eliminating child labour.

2.13 SESSION G. MAINTENANCE AND SAFETY OF SCHOOL INFRASTRUCTURE 40 MIN

STEP 1

Ask participants to explain what they know about maintenance as a culture.

- a) List responses on flip chart and discuss,
- b) Relate their responses to the maintenance and safety of school infrastructure.

STEP 2

Ask participants to come out with the importance of maintaining school infrastructure and facilities. List responses, review and add to the discussions.

STEP 3

Let participants deliberate on maintenance and safety of infrastructure and facilities as a factor to promote quality education. List responses, review, clarify and add up to the discussions.

STEP 4

Put participants into groups of communities/schools to discuss the following:

- a) What SMC should know about maintenance and safety of school infrastructure?
- b) What they should do to maintain school infrastructure?
- c) What they will need to enable them maintain and safe guard school infrastructure?
- d) How they could obtain the necessary resources for maintaining school infrastructure?

Facilitate group presentations in a plenary session. Review responses with clarification, comments and additions.

2.14 SESSION H. ENROLMENT AND RETENTION DRIVES 40 MIN

STEP 1

Brainstorm with participants on the meaning of enrolment and retention. Capture participants' responses on the flip chart. Go through responses, seek clarification and make inputs.

STEP 2

Explain what enrolment and retention drives are i.e. measures or policies put in place to ensure that children of school age go to school and remain in school until completion.

STEP 3

Lead participants to discuss the two key words 'enrolment' & 'retention'. Ask participants to digest on the words enrolment and retention. Review participants' responses with clarifications and additions from the participants. Invite comments.

STEP 4

Put participants into their community/school groups to discuss the following:

- a) Importance of school enrolment and retention drives.
- b) How SMCs could ensure that enrolment and retention drives are carried out in schools to attract children of school going age and out of school children?
- c) Having been introduced to enrolment and retention drives, what could you do now?

Facilitate group presentation. Review responses with the necessary questions and comments from participants. Add to the discussions as and when necessary.

2.15 SESSION I CAREER GUIDANCE 30 MIN

STEP 1

In a brainstorming session, ask participants 'what career guidance' is. List responses on flip a chart and discuss, adding inputs from participants.

STEP 2

Explain to participants what career guidance means.

Guidance counselling refers to services and activities intended to assist individuals of any age and at any point throughout their lives.

STEP 3

Put participants into their school/community groups to work on the following:

- a) Why is career counselling and guidance important?
- b) As an SMC member, what will you need to do to promote career guidance in your school?
- c) How can you set up an effective guidance and counselling unit in your school/community?

STEP 4

Facilitate group presentations in a plenary session.

UNITE 3. MANAGEMENT EFFICIENCY

3.1 CONTENT

(1) Governance.

- Understanding Good Governance and School Governance,
- Principles of Good Governance/Characteristics of Well Governed School,
- Challenges and Strategies to Promoting to Effective Governance.

(2) Leadership.

- Understanding the Basic Concept of Leadership,
- Type of a Good Leader,
- Characteristics of a Good Leader,
- Barriers and Strategies for Effective Leadership.

(3) Strengthen School Management Structures.

- Training of SMC Members,
- Planning SMC Meetings,
- Conducting SMC Meetings.

(4) Build Trust in the Community.

- SMC Relationship with Headteacher,
- SMC Relationship with Parents/Teacher/Community,
- Developing Good Relationship with Unit Committees,
- Ensuring Cooperation between SMC and PTA,
- Conflict Management Roles of SMC,
- Developing and Monitoring SPIP,
- SMC Accountability to community.

(5) Mobilisation of Resources and Monitoring of School Finance and Assets.

- Generating Income to Support School Project,
- Mobilizing of Local Resources,
- Record-Keeping of School Property,
- Functions of SMC in school budgeting,
- Financial Management and Book-keeping,
- Auditing Roles and Functions of SMCs,
- Transparency in Management of School Finances.

(6) Develop Productive Links with Education/Government Authorities.

- Developing Closer Links with Institutions,
- Recognition of SMC by the MMDEOC.

(7) Develop Productive Links with External Agencies.

- Developing Linkages with External Development Organization,
- Creating linkages with other Communities.

3.2 INTRODUCTION

Improving efficiency of schools is a growing concern to educational planners and managers in Ghana. The shift of attention towards strategies which focuses on school functioning rather than the overall education system is inspired by several considerations. Firstly, reform very often focused mainly on the provision of inputs in the system (facilities, textbooks) and far less on the process of teaching and decision-making, in particular at the school level. Now it is increasingly realized that it is precisely those process variables (variables relating to school management and practice) which is crucial in explaining differences in quality. Secondly, many reforms in the past tried to focus on isolated component of the system, for instance the teacher or text book. However, improving the efficiency of individual component does not automatically lead to improving an organization. With focused attention on the school, SMCs need to understand the processes in which it could provide support to improve management efficiency at the school level.

In improving management efficiency, SMCs carry out this responsibility within relevant statutes and regulations. Exercising their governance function, SMCs play a leading role in preparing School Improvement Action Plans (SIPS), direct policy-making and approve allocation of school resources. The governance role of SMC thus sets the conditions that enable the provision of high quality education for every student to meet high standards of achievement and to succeed in school and in life. Effective governance therefore ensures that the education system is of high quality and remains accountable to the community.

Also, to be able to improve management efficiency, SMCs as a governing body need to influence other stakeholders to accomplish the objective of the school and to direct the school in a way that makes it more cohesive and coherent. Leadership is an important function of management which helps to maximize efficiency and to achieve goals of improving teaching and learning in schools. SMCs members therefore need to influence head teachers, teachers and pupil in achieving a common goal of improving quality teaching and learning. This can be achieved if SMC apply leadership knowledge and skills.

3.3 OBJECTIVES

In this Unit, participants will increase their knowledge and understanding of the main areas by which the SMC could support to improve management structures; build trust in the community; utilize participatory planning; mobilise resources and monitor school finances and assets; develop productive links with education/government authorities, and develop

links to external agencies. The Unit will also help to enhance the capabilities and competencies of SMC members in record keeping, bookkeeping, planning, implementation and monitoring of school programmes. By the end of this unit, participants will be able to:

- Understand the elements of good governance and the characteristics of well governed schools.
- Identify the challenges to effective governance in schools.
- Devise strategies to addressing governance issues in basic schools.
- Introduce and lay the foundation for understanding the basic concepts of leadership.
- Have clear understanding of why leadership within the SMCs is important for ensuring good school governance and what types of leadership can help achieve these.
- Analyse leadership styles and how they impact on school performance.
- Explore the kinds of circumstances or events that inspire leadership.
- Examine the ethics of good leadership and the qualities that demonstrate a leader's integrity.
- Share when and how the workshop participants have exercised leadership themselves.
- Explain the relevance of planning a meeting, identify what goes into planning a meeting and plan an agenda for a meeting.
- Identify features that promote good meeting and state the role of the chairperson and the secretary in conducting meetings.
- Discuss the importance of good relationship with the unit committee and design practical ways of collaborating with the Unit Committee in the locality.
- Analyse the benefits of co-operation among SMC/PTA members and state the roles the individual members play in promoting co-operation among SMC/PTA members.
- Identify types of conflicts and their sources and list ways of handling conflicts.
- State the purpose of the SPIP and appreciate the importance of developing or drawing a SPIP.
- List the benefits the SMC will gain for being accountable to the community and formulate practical ways by which SMC can be accountable to the community.
- Outline sources of school income and how to generate income for school projects.
- Identify local resources and develop strategies for mobilizing local resources.
- State the importance of proper record keeping and inventory and develop guidelines needed for ensuring proper record keeping of school property.
- Explain the essence of developing a school budget and learn how to draft school budget that conforms to acceptable standards.

- Learn how to carry out day-to-day book-keeping routines and activities using a manual book-keeping system.
- Explain the importance of school auditing and acquire knowledge and skills to monitor school auditing.
- Mention the benefits of ensuring transparency and accountability in the management of school finances.
- Explain the reasons why SMCs should develop closer links with Metropolitan/Municipal/District Assemblies (MMDAs) and formulate practical ways to develop such links.
- State the importance why SMCs should be recognized and respected by the MMDEOC and explain what to do to obtain respect and recognition from the MMDEOCs.
- Identify external organizations that support education and formulate practical ways of linking with such organizations.
- State the importance for SMCs to create linkages with other communities and mention the ways by which such linkages with other communities could be created.

3.4 SESSIONS

- | | |
|--|----------|
| • A. Understanding good governance and school governance | 40 min |
| • B. Principles of good governance/characteristics of well governed school | 45 min |
| • C. Challenges and strategies for promoting effective school governance | 1 hr |
| • D. Understanding leadership | 30 min |
| • E. Type of a good leader | 45 min |
| • F. Characteristics of a good leader | 1:30 min |
| • G. Barriers and strategies for effective leadership | 1 hr |
| • H. Strengthen school management structures | 2 hrs. |
| • I. Building trust in the community | 2:30 min |
| • J. Mobilisation of local resources and monitoring of school finance and assets | 2:30 min |
| • K. Productive links to education/government authorities | 1:30 min |
| • L. Productive links with external agencies | 1 hr. |

3.5 MATERIALS

- Flipcharts,
- Marker pens,
- Masking tape,
- Case study scenarios.

3.6 KEY MESSAGES

- Governance provides a framework and a process for the allocation of decision-making powers. Good governance is the exercise of these powers through ethical leadership. School management committees are the embodiment of local governance in action. Through their decisions and policies they demonstrate to their communities' affective stewardship of the school's resources in the interests of students and the community as whole.
- Ultimately, governance is the exercise of authority, direction, and accountability to serve the higher moral purpose of public basic schools. A governance structure defines the roles, relationships, and behavioural parameters for the SMC and the school staff.
- The true test of any school governance structure is its effectiveness in promoting and sustaining the schools' achievement standards, accomplishing goals designed to bring positive results to communities, and demonstrating accountability.
- Effective governance relies on a clear understanding of roles and responsibilities.
- Leadership of the school is key to improving school performance.
- Leader's role includes achieving tasks, developing individuals and building the team. Leadership comes through from power and/or authority. The process of leadership is the use of non-coercing influence to direct and coordinate the activities of the members of an organized group towards the accomplishment of group objectives.
- The SMC chairman's own personality and self-management will influence the style and success of school management. In order to perform work efficiently and effectively, the SMC leader will have to apply different management styles depending on specific tasks and circumstances that occur in the day to day running of the school.
- It is therefore important that the school requires good leaders to perform academically well.

3.7 SESSION A. UNDERSTANDING GOOD GOVERNANCE & SCHOOL GOVERNANCE 40 MIN

STEP 1

Ask participants in a plenary discussion to explain what they understand by governance and school governance (inform participants that there is no right or wrong answer and encourage everyone to participate) Take note of their responses on a flipchart Underline all the key words

STEP 2

Compare participants' responses with notes in the Resource Manual and add on to it.

3.8 SESSION B. PRINCIPLES OF GOOD GOVERNANCE 45 MIN

STEP 1

Put participants in groups of 4-5 and ask them to list and discuss the key principles of good governance. Also, ask them to list the key characteristics of a well governed school.

STEP 2

At plenary ask each group to present their findings (on the Principles of good governance and characteristics of a well governed school). Compare the results and add on with relevant information from the Resource Manual.

3.9 SESSION C. CHALLENGES & STRATEGIES FOR EFFECTIVE GOVERNANCE IN SCHOOLS 1 HOUR

STEP 1

In a plenary discussion, ask participants to mention some of the key challenges they face in governing their respective schools. Write their responses on a flip chart Ask participants to mention some of the measures strategies that could be used to address the identified challenges

STEP 2

Refer from the Resource Manual additional challenges to effective governance and seek their agreements whether it can be considered as one of the challenges. Once they agree to the challenges ask them to brainstorm how such challenge should be addressed by SMCs.

3.10 SESSION D. UNDERSTANDING LEADERSHIP 30 MIN

STEP 1

Working with the whole group, ask participants to brainstorm what they understand by leadership and why leadership is important for improved governance of schools. For the initial brainstorm – make sure that the participants focus on leadership rather than on one individual as a leader. Encourage the participants to use their own experience and share practical examples.

STEP 2

List the responses of participants on a flip chart, clarify the responses and add on using information in the reference section

3.11 SESSION E. TYPE OF LEADERSHIP 45 MIN

STEP 1

Working with the whole group, brainstorm with participants to describe different types of leadership existing in the community which could help improve school performance.

STEP 2

Capture their responses on a flip chart and refine insight using information in the reference section.

STEP 3

Using examples from their communities, ask participants to share their experiences on the leadership style of people in their communities. Encourage participants to balance thinking how to build on an existing leadership system, with being creative and looking beyond traditional roles and barriers in the community.

3.12 SESSION F. CHARACTERISTICS OF A GOOD LEADER 45 MIN

STEPS 1

Divide participants into smaller groups of 4-5 and ask each participant to share their story about the leader they admire. The leaders may be conventional leaders such as political officials or someone in everyday life—family, friends, or colleagues.

STEP 2

Ask participants to focus on the challenges that this leader confronted as well as on the qualities and skills that he/she demonstrated in addressing problems. Remind participants to be conscious of time to allow enough time for discussion.

STEP 3

While participants are recounting their leadership stories, a volunteer should record on a chalk board or flip chart the qualities and skills exhibited by the leaders.

STEP 4

Ask participants to describe the types of support networks (e.g., family, friends, neighbours, colleagues) that may have influenced or assisted the leaders to carry out their objectives.

STEP 5

After each participant has shared his/her story about a leader they admire, consider the following questions:

- Are there similar themes, conditions, or situations that re-occurred in many of the stories? What kinds of events led the women to take action?
- What leadership qualities or skills did many of the participants have in common?
- Did the leadership characteristics manifest themselves because of the challenges they faced?
- Or, did the leaders already have the leadership characteristics?
- What role did the support of networks, organizations, institutions and/or individuals play in assisting the leaders to accomplish their objectives?
- Do you recall how you tackled a challenge in your life? What qualities and skills did you use to overcome that challenge?

- What role did support networks play in meeting your challenge?
- What steps did you take?
- Do all steps you take to solve a problem, personal or social, need to be justified?
- Should the steps a leader takes reflect a set of “higher values,” or is the problem being addressed justification enough?
- Which leadership characteristics do you feel you have? Which additional leadership characteristics do you wish you had?

3.13 SESSION G. BARRIERS AND STRATEGIES FOR EFFECTIVE LEADERSHIP 1 HOUR

STEP 1

In a brainstorming exercise, ask participants to list barriers to effective leadership for improved school governance.

STEP 2

List the response on a flip chart and refine insight with information in the reference section of this unit.

STEP 3

Divide participants into three groups to discuss:

- What school leaders need to do to succeed in school management,
- The indicators of a well-managed school,
- Impact of good school leadership on school performance.

3.14 SESSION H. STRENGTHEN SCHOOL MANAGEMENT STRUCTURES 2 HRS

STEP 1

Let participants know that once they have been appointed as SMC members, they need to be trained. Emphasize on the need for capacity building to enable them carry out their responsibilities with diligence. Ask participants whether they have had training as SMC members since their appointment. Encourage participants to share their experiences with the others who are yet to experience such training.

STEP 2

Explain to participants the norms regarding the training of participants emphasizing the need for each of them to respect the views of others, learn to participate and contribute during the discussions.

STEP 3

Discuss with participants the resources that would be required for such training and how the resources could be acquired.

STEP 4

Discuss with participants the need for identifying areas where SMC members would need training through a structured appraisal system.

STEP 5

Ask participants to explain the importance of having a meeting. Discuss with participants points to consider in planning a meeting emphasizing the need for:

- a) Careful planning,
- b) Adequate publicity,
- c) Convenient time and place for meeting,
- d) Drawing up an agenda,
- e) Discussion points.

STEP 6

Let participants try to come up with what makes a good meeting. Capture and discuss participants' responses and then introduce them to the features of a good meeting. Facilitate the plenary discussion emphasizing the role of the chairman, secretary and the entire membership of the SMC.

STEP 7

Discuss with participants the guidelines for conducting an effective meeting and also for chairing a meeting.

3.15 SESSION I. BUILDING TRUST IN THE COMMUNITY 2HRS. 30 MIN

STEP 1

Brainstorm with participants to identify the role of the head teacher. Let participants come up with some expected role of the SMC in the school. Facilitate the plenary discussion and emphasize the need for a strong relationship between the head teacher and SMC.

STEP 2

Let participants know that good relationship deeply depends to a large extent upon adequate understanding of people involved in the relationship. Therefore, SMC has the responsibility to establish good relationship with stakeholders in education. Ask participants to mention ways in which the SMCs could promote good relationship with parent, teachers and the community.

STEP 3

Let participants brainstorm on the functions of the Unit Committee in the locality. Clarify responses and add to the list. Ask participants to list the need to collaborate with Unit Committees. Put participants into their community/school groups to discuss practical ways of collaborating with Unit Committees.

STEP 4

Let participants come out with the need for co-operation among SMC and PTA members. Explain to participants the different roles played by the SMCs to promoting equality education in schools and the need therefore for them to co-operate fully.

STEP 5

Explain to participants that in human institutions conflicts and grievances are bound to occur and when they happen, there is the need to immediately solve them once and for all. In smaller groups of 4-5, ask participants to identify types of conflicts.

- a. Put the responses on a flip chart and discuss,
- b. Participants should go further to identify sources of such conflicts mentioned,
- c. Write responses on a flip chart,
- d. Allow participants to explain their points if necessary,
- e. Go through what have been recorded and add up to the list.

STEP 6

Put participants into smaller groups of 4-5 to come out with some of the ways in which conflicts could be managed:

- a. Record responses on a flip chart,
- b. Discuss with participants,
- c. Ask some participants to share their experiences in conflict management,
- d. Ask participants to comment on the experiences shared.

STEP 7

Put participants into smaller groups to discuss strategies they will use to plan for the SPIP. Let participants report their findings. Record responses on flip chart Go through the responses with participants and add up to their points.

STEP 8

In a brainstorming exercise, list stakeholders who should be involved in planning school improvement plans. List responses on the flip chart. Go through responses with participants and add on to it.

STEP 9

Assign participants into 4-5groups to discuss what they understand by SMC being accountable to the community and why? Review responses and ensure that participants understand the issue of accountability to the community. Add on to the points and emphasize on the importance of accountability through:

- a) Keeping proper records,
- b) Visiting schools regularly,
- c) Reporting on prevailing conditions to the community,
- d) Being vigilant with organization of SPAMs.

3.16 SESSION J. RESOURCE MOBILIZATION AND MONITORING OF SCHOOL FINANCES AND ASSETS 3 HRS

STEP 1

Ask participants to outline possible sources of income in their locality. Let participants identify the need to raise income/fund for schools and ways the schools could generate additional income (funds) for the schools projects. List responses on flip chart and discuss with inputs from participants.

STEP 2

Ask participants to mention the resources a school will need to function effectively. Let participants discuss why it is important to identify and develop strategies for mobilizing local resources. List responses of participants on a flip chart

STEP 3

Let participants discuss why proper record keeping and inventory is important. Put participants into their community/school groups to discuss the following:

- a) How to obtain the necessary information for record keeping of school property?
- b) How to document and take inventory of assets?

Facilitate group presentation at a plenary session, with comments, clarifications and questions from participants.

STEP 4

In a brainstorming session ask participants what a budget is? Let participants discuss the importance of budgeting. Capture responses on a flip chart and discuss. Discuss with participants the components of good budgeting.

STEP 5

Put participants in their school/communities to discuss the following:

- a) What basic things are needed in preparing a good budget?
- b) What they need to do to enable them prepare a good budget?
- c) What resources are needed to draw up a good budget?

- d) Places where they can obtain information and what to do to maintain good budgeting practices.

STEP 6

Introduce participants to simple cashbook entries. Explain to participants why it is very necessary to keep financial records properly and also why cash book entries is the basis of good accounts. Give an exercise on cash book-keeping and let school/communities prepare a simple cash book. Exercise on simple cash book entries.

Case study

1. Kofi Owusu donates GH¢1000 to your school on 2ndMarch 2012,
2. SMC pays GH¢500 to a carpenter to repair school desks on 6thMarch, 2012,
3. School receives capitation grant of GH¢2500 on March 15, 2012,
4. PTA chairman donates GH500 to the school,
5. Kwaku Manu is paid GH1800 for the purchase of 12 bags of cement on 20thMay, 2012,
6. An amount of GH¢2000.00 is received from Nana Mensah, a citizen abroad, on 31st May, 2012.

STEP 7

Discuss how schools should use the cash book, stressing on the key features of the cash book as important things (i.e. date of receipt or payment, explanation or description of transaction, cash receipts, and cash spent and cash left) Discuss the following with the participants:

- a) Why should schools keep proper financial records?
- b) Why bank accounts and when should monies be paid into the banks accounts?
- c) The types of bank accounts and the advantages and disadvantages of each account.

STEP 8

Let participants brainstorm on 'what is auditing'? List participants' responses on flip chart. Discuss the responses and add your inputs stressing on the essence of checking the school's accounting book as SMC members.

STEP 9

Discuss the following with the participants:

- a) What skills and knowledge are needed by the SMC to prepare for auditing in schools?
- b) What structures are crucial to be in place to facilitate auditing roles?
- c) Why should SMCs be involved in school finances through auditing?

STEP 10

Let participants come out with their understanding of transparency and accountability. Brainstorm with participants on the benefits of transparency in the management of school finances. Introduce a role play.

Select a group of participants to form SMC. Let another group of participants act as school authority. At a meeting of the two groups let bring out the following characteristics while the rest of the participants observe the proceedings:

- a) The school spends money without providing proper records,
- b) The school does not consult the SMC before using the school funds,
- c) The school refuses to render accounts at the appropriate times.

Brainstorm with participants to identify what went wrong in the role play. Let participant discuss the need for being transparent. Divide participants into a group of five persons and ask them to discuss:

- a) How to ensure transparency in the management of school finances?
- b) Tools for transparency and accountability of school finances.

3.17 SESSION K. DEVELOP PRODUCTIVE LINKS TO EDUCATION OR GOVERNMENT AUTHORITIES 2 HRS.

STEP 1

In a brainstorming exercise, let participants identify institutions in the Metro, Municipal and Districts which are related to education and for that matter SMCs. Ask participants to state why the SMC should have closer links with the MMDs? List the institutions mentioned by participants on a flip chart and brainstorm with participants on the functions of such institutions and its relevance to the SMC.

STEP 2

Put participants into groups by their community/school to deliberate on the following:

- a) Steps to be taken in order to develop links.
- b) Who should be involved in the process of developing links?

STEP 3

Brainstorm with participants what MMDEOC stands for and what is it? Ask participants if they know the functions of the MMDEOCs and the members.

STEP 4

Put participants into groups of three to discuss:

- a) Why SMC should collaborate with the MMDEOCs?
- b) What to do to obtain respect and recognition from the MMDEOC?
- c) Practical ways in which SMC can obtain respect and recognition from the MMDEOCs.

3.18 SESSION L. DEVELOP PRODUCTIVE LINKS WITH EXTERNAL AGENCIES 2 HRS.

STEP 1

Explain what 'external development organizations' are on a flip chart. Encourage participants to ask questions to ensure better understanding of the concept. In a brainstorming exercise, ask participants to mention some external organizations that support education and what they know about them i.e. what they do? Put participants into groups of community/school to deliberate on the following:

- a) Why SMCs need to link with external developers?
- b) What SMCs should know in order to create and establish linkages with external organizations?
- c) What should you do to help the school to create linkages with external agencies?
- d) Who should be involved in the process of helping the schools to create linkage?

STEP 2

Let participants state the importance of SMCs creating linkages with other communities. Ask participants in pairs to write few points on what they will achieve when they create linkages with others. List responses and discuss. Ask participants to mention some of the ways by which the SMCs could create linkages with other communities. List responses and discuss. Add more to it from the reference sheet.

UNITE 4. IMPROVING THE QUALITY OF INSTRUCTION

4.1 CONTENT

(1) Support Quality Education.

- Quality of Instruction (Teaching and Learning),
- Effective Teaching and Learning Materials,
- Organisation of Open/Speech and Prize-Giving Days,
- Performance-Based Incentives Welfare,
- SMC and Teachers Welfare,
- Provision of Pupils Educational Needs.

(2) Monitor School Performance.

- Assessment of Pupils,
- Teacher and Pupils Attendance,
- School Performance Appraisal Meeting (SPAM),
- Supporting Schools to ensure Pupil Discipline.

4.2 INTRODUCTION

Understanding what is happening in the schools and the classrooms is a precondition for shaping more effective quality improvement strategies in basic schools. This is because it is at the school level where all inputs come together and interact making it imperative for SMC members to understand the factors that can promote quality teaching and learning in schools. Thus policies and programs intended to improve education quality need to focus on schools (e.g. infrastructure, teaching and learning materials, and teachers (e.g. career development and welfare) supported by strong supervision, flexible policies, efficient administration and community involvement.

4.3 OBJECTIVES

This unit focuses on how you can improve the quality of teaching and learning in basic school and ensure that children are provided with the opportunity to learn. By the end of this unit, participants will be able to:

- Assess the importance of quality of instruction and the role of SMC in ensuring quality instruction.

- Explain what constitutes teaching and learning materials, and the benefits of these materials.
- Outline the role of SMCs in the provision of teaching and learning materials.
- Learn about the importance of open and speech days.
- Outline the roles of SMCs in the organization of open and speech days.
- Explain what performance-based incentive package is and list the benefits of incentive package for teachers and pupils.
- Formulate procedures for selection and rewarding hard working pupils and teachers.
- State the importance of seeking teachers' welfare.
- Mention challenges teachers face in the schools and communities and formulate ways and means of helping teachers to resolve their challenges.
- State the various educational needs of children and identify the benefits of providing the needs of children.
- Mention challenges teachers face in the schools and communities and the ways in which SMCs could contribute to the provision of children's needs.
- Explain the term 'assessment' and outline reasons why pupils' assessment is important.
- Identify the indicators leading to good pupils' performance and explain ways of involving parents in finding out how pupils are performing.
- Identify the conditions that should prevail to improve pupils' learning and means through which parents can monitor children's performance.
- Explain what constitute pupils and teachers attendance.
- Mention the benefits of monitoring and supervising teacher and pupil attendance.
- State their roles in supervising teachers and pupils' attendance.
- Identify their roles in relation to issues in the school that affect teachers and pupils' performance.
- Discuss the importance of 'SPAM', the process of 'SPAM' and the role of the SMC in 'SPAM'.
- Mention what constitutes pupils' discipline and discuss why pupils' discipline is important.
- Apply the code of conduct in the head teachers' handbook to monitor pupils' discipline.

4.4 SESSIONS

- | | |
|---|--------|
| • A: Quality of instruction (teaching and learning) | 1 hour |
| • B: Effective teaching and learning materials | 1 hour |

- C: Organisation of open/speech and prize giving day 1 hour
- D: Performance-based incentive welfare 40 min
- E: SMC and teachers' welfare 1 hour
- F: Provision of pupils' educational needs 1 hour
- G: Assessment of pupils' 1 hour
- H: Teacher and pupil's attendance 45 min
- I: School performance appraisal meeting 1 hour
- J: How SMC can support schools to ensure pupils discipline 1 hour

4.5 MATERIALS

- Flipcharts,
- Marker pens,
- Scissors,
- Masking tape.

4.6 SESSION A. QUALITY OF INSTRUCTION (TEACHING AND LEARNING) 1 HOUR

STEP 1

Brainstorm with participants on the concept 'quality teaching and learning'.

STEP 2

Ask participants to mention the benefits of improved/ quality teaching and learning

STEP 3

Let participants come out with what they know about improving the quality of teaching and learning, e.g. setting school targets/goals. Review responses on the flip chart and let them relate it to what happens in their communities.

STEP 4

Put participants into their communities/schools to discuss the following:

- a) How to improve teaching and learning as SMC members?
- b) What SMC members need to do ensure quality teaching and learning?

4.7 SESSION B. EFFECTIVE TEACHING AND LEARNING MATERIALS 1 HOUR

STEP 1

In a brainstorming exercise, ask participants to mention what constitutes teaching and learning materials. List responses on flip chart and discuss and clarify responses, add on to the responses.

STEP 2

In a brainstorming exercise, ask participants why schools need teaching and learning materials. Capture responses, clarify points and make more inputs if necessary.

STEP 3

Put participants into groups to discuss the following:

- a) Outline specific ways SMCs could support the provision of teaching and learning materials.
- b) Why SMC should supplement the provision of teaching and learning materials.
- c) Review group responses in a plenary session, make inputs, let participants comment.

4.8 SESSION C. ORGANISATION OF OPEN/SPEECH AND PRIZE GIVING DAY 1 HOUR

STEP 1

In brainstorming exercise, let participants explain:

- a) What open days are?
- b) Why are they important?

List responses of participants on a flipchart; and clarify the difference between speech days and open days.

STEP 2

Put participants into groups and let them think about their roles as SMCs in the organization of speech days and open days. Mention key activities in organizing open and speech days. Resources needed in the organization of open and speech days.

4.9 SESSION D. PERFORMANCE-BASED INCENTIVE PACKAGE 40 MIN

STEP 1

Ask participants to explain what they understand by performance-based incentive package. List responses of participants and clarify responses through questions.

STEP 2

Explain the importance of incentives and then put participants into groups to discuss the following:

- a) Why should hard working teachers and pupils be rewarded?
- b) How will you identify hard working teachers and pupils in your school/community?
- c) What procedure should be used to reward teachers and pupils?
- d) How to mobilize resources as incentive packages for teachers and pupils?

Facilitate group presentations in a plenary session and summarize the key points.

4.10 SESSION E. SMC AND TEACHERS WELFARE 1 HOUR

STEP 1

Lead participants through brainstorming session to narrate some challenges teachers face in the communities where they teach. List responses on a flip chart and discuss.

STEP 2

Ask participants to describe how those challenges affect their attitude to work in terms of teaching and how they affect pupils in terms of learning. Review responses and add on if necessary.

STEP 3

Put participants into groups of school/community to discuss the following:

- a) What is the essence for seeking the welfare of teachers?
- b) How can SMCs assist teachers to resolve each of the challenges identified in Step 2?
- c) How to mobilize resources for incentive packages for teachers and pupils?

4.11 SESSION F. PROVISION OF PUPILS EDUCATION NEEDS 1 HOUR

STEP 1

Ask participants to list the educational needs of pupils. Encourage participants to list needs that really ensure good quality education and list responses on a flipchart.

STEP 2

Let participants come out with the benefits of these needs being mentioned in step 1 and the challenges in providing the needs.

STEP 3

Review responses of Step 2 and discuss thoroughly the benefits. Clarify and add on to the discussions.

STEP 4

Put participants into smaller groups of 4-5by communities/schools to discuss the following:

- a) What the educational needs of children are and how they can be provided?
- b) What are the ways by which SMCs can contribute to the provision of children needs?
- c) Why should the SMCs ensure the provision of children's school needs?

4.12 SESSION G. ASSESSMENT OF PUPILS 1 HOUR

STEP 1

Explain to participants what assessment is all about in finding out what pupils have learnt over a period of time.

STEP 2

In a brainstorming exercise, let participants to come out with what we can use to measure pupil performance e.g. BECE pass rate, Numeracy rate, etc, Capture participants' responses on the flip chart.

STEP 3

Ask participants to explain the ways for involving parents in the monitoring of their children's performance. List responses on a flip chart for clarification, comments and additions.

STEP 4

In a brainstorming exercise, elicit conditions that should prevail in order to improve pupils' learning. Record responses, go over and add to participants contributions.

STEP 5

Lead participants to list the ways in which parents can monitor children's performances. List responses on flip chart, review and add on.

4.13 SESSION H. TEACHER AND PUPILS' ATTENDANCE 45 MIN

STEP 1

In a brainstorming exercise, ask participants to come out with the meaning or explanation to 'good attendance in school'. List responses on flip chart and discuss.

STEP 2

Put participants into their community/school groups to discuss the following:

- a) The benefits of monitoring and supervising teacher and pupil attendance.
- b) The roles of SMCs in monitoring and supervising attendances of pupils and teachers.
- c) Issues to be considered before monitoring teacher and pupil attendance.
- d) Practical ways of monitoring and supervising these attendances.

STEP 3

Facilitate group presentation. Review responses ensuring the participation of all participants.

4.14 SESSION I. SCHOOL PERFORMANCE APPRAISAL MEETING (SPAM) 1 HOUR

STEP 1

Through brainstorming, let participants explain what SPAM stands for and what it means. Capture responses on flip chart. Discuss, clarify points and add to the discussions as and when necessary.

STEP 2

Ask participants to come out with the importance of 'SPAM' in relation to SRC, BECE results and other performance-based indicators. List responses on a flip chart, clarify the learning points and discuss.

STEP 3

Put participants in their community/school groups to discuss the following:

- a) The processes that should be adopted to conduct 'SPAM' in the community,
- b) The role of the SMCs in these processes,
- c) The features of 'SPAM'.

STEP 4

Facilitate group presentation; review their points. Invite comments, questions and additions from the other participants.

4.15 SESSION J. SUPPORTING SCHOOLS TO ENSURE PUPILS DISCIPLINE 1 HOUR

STEP 1

Explain to participants what constitute pupils' discipline.

STEP 2

Brainstorm with participants the causes of poor discipline in pupils both at school and home. Review responses which have been captured on the flip chart and discuss.

STEP 3

Let participants come out with the importance of pupils' discipline. Capture responses on flip chart and discuss.

STEP 4

Ask participants to explain how they could maintain pupils' discipline.

STEP 5

Put participants into groups to discuss the following:

- a) What to do in order to maintain discipline in schools?
- b) How can the code of conduct help them to maintain discipline in schools?
- c) How to monitor pupil's discipline?

Facilitate group presentations and summarize the key learning point.

ANNEXES

ANNEX A. FACILITATION TIPS

A. COMMON PITFALLS TO AVOID

The following list describes common problems which can be encountered during a training programme. Developing an awareness of problems that can occur is the first step in ensuring that they do not become obstacles to effective training.

- 1) Failure to distinguish processing from generalizing.

It is essential that trainers move participants from "processing the experience" -- what has happened, why and how -- to extracting conclusions which might be true for "real life experience" or to a particular theoretical construct. Without this essential "generalizing" step, the impact of a session's learning objectives on the participants' professional or personal life is likely to be minimal.

- 2) Flow.

Sequencing of activities within each session should follow the Adult Learning Cycle – the experience, processing the experience, generalizing the learning from the experience, and planning ways to apply these learning's. Each activity should build on what came before it, i.e. a case study should be referred to throughout a session (and throughout the programme).

- 3) Trainer's skill comfort level.

Trainers should not take on activities which overstretch their ability or experience level, i.e., managing a complex situation without participating in it or observing it first.

- 4) Expert versus participants' view.

To avoid becoming identified as the "expert", the trainer must keep in mind that the important learning for participants is not the strategy or action plan they develop, but rather the process of developing the strategy or action plan. It is better to let the participants come up with their own answers, even if they are not always the best ones.

- 5) Not maximizing participants' involvement.

When under time pressure, people look for short-cuts. In training programmes, talking "at" people to save time often becomes this short-cut, but it comes at great cost to participant learning. People learn best when they are active participants in the learning process.

- 6) Processing questions that do not relate to objectives.

During a training session, it is easy to get side-tracked with questions that do not relate to session objectives. When processing, trainers must keep session objectives in mind to ensure that they are being met.

B. OBTAINING PARTICIPANT EXPECTATIONS

There are a variety of questions you can ask to find out the needs, expectations, and concerns of the participants so that you can gear instruction appropriately. You can obtain answers through open discussion, a whip, response cards, fishbowls, polling, panels, games, and so on.

- Why did you choose this workshop? Why did you come?
- What questions about [subject matter of the workshop] do you come with?
- What advice, information, or skills do you want to get from this workshop?
- What advice, information or skills don't you need or don't you want?
- What do you want to take away from this workshop? Name one thing.
- What are your hopes for this workshop? What are your concerns?
- Do the workshop objectives match your needs?
- What knowledge or skills do you feel you "need" to have? What would be "nice" to have?
- What are your expectations about this workshop?
- What have you learned from previous workshops on this topic?

C. WAYS TO REGAIN CONTROL OF THE GROUP

Using active-training techniques tends to minimize the problems that often plague trainers who rely too heavily on lecture and full-group discussion. Nonetheless, difficulties such as monopolizing, distracting, and withdrawal still may occur. Below are interventions you can use; some work well with individual participants while others work with the entire group.

SIGNAL NON-VERBALLY

Make eye contact with or move closer to participant when they hold private conversations, start to fall asleep, or hide from participation. Press your fingers together to signal for a wordy participant to finish what he or she is saying. Make a "T" (for time out) sign with your fingers to stop unwanted behaviour.

LISTEN ACTIVELY

When participants monopolize discussion, go off on a tangent, or argue with you, interject with a summary of their views and then ask others to contribute. Or acknowledge the value of their viewpoints and invite them to discuss their views with you during a break.

ENCOURAGE NEW VOLUNTEERS

When a few participants repeatedly speak in class while others hold back, pose a question or problem and then ask how many people have a response to it. You should see new hands go up. Call on one of them. The same technique might work when trying to obtain volunteers for role playing.

INVOKE PARTICIPATION RULES

From time to time, tell participants that you would like to use rules such as the following:

- No one may laugh during a role play.
- Only participants who have not yet spoken can participate.
- Each new comment must build on a previous idea.
- Speak for yourself, not for others.

USE GOOD-NATURED HUMOUR

One way to deflect difficult behaviour is to use humour. Be careful, however, not to be sarcastic or patronizing. Gently protest the inappropriate behaviour ("Enough, enough for one day!") or humorously put yourself down instead of the participant ("I guess I'm being stubborn, but...").

CONNECT ON A PERSONAL LEVEL

Even if participants are hostile or withdrawn, make a point of getting to know them during breaks or lunch. It is unlikely that people will continue to give you a hard time or remain distant if you have taken an interest in them.

CHANGE THE METHOD OF PARTICIPATION

Sometimes, you can control the damage done by difficult participant by inserting new formats, such as using pairs or small groups rather than full-class activities.

IGNORE MILDLY NEGATIVE BEHAVIOURS

Try to pay little or no attention to behaviours that are small nuisances. These behaviours may disappear if you simply continue the session.

DISCUSS VERY NEGATIVE BEHAVIOURS IN PRIVATE

You must call a stop to behaviours that you find detrimental to the training session. Arrange a break and firmly request, in private, a change in behaviour of those participants who are disruptive. Or create small-group activities and call aside the problem participants. If the entire group is involved, stop the session and explain clearly what you need from participants to conduct the training effectively.

DO NOT TAKE PERSONALLY THE DIFFICULTIES YOU ENCOUNTER

Remember that many problem behaviours have nothing to do with you. Instead, they are due to personal fears and needs or displaced anger. Try to determine if this is the case and ask whether participants can put aside the conditions affecting their positive involvement in the training session.

D. WAYS TO REVIEW WHAT HAS BEEN TAUGHT

DEFINITION MATCH

On one set of index cards, write relevant terms/techniques from the training session and on another set of cards, the definitions or examples of the terms. Combine the two sets of cards and shuffle them. Give one card to each participant. Direct participants to find their matching cards. When found have them sit together. After everyone is found and seated,

have pair members quiz the rest of the group on their concept. Good for training sessions of a day or less.

FLIPCHART

At the end of your training, flip back to the beginning flipcharts. Ask participants to recall what the flipchart is about. Probe with questions such as:

- What does this refer to?
- Why is it important?
- Who can give me an example of this?
- What value does it have for you?

Proceed through the content and make final remarks.

GETTING QUESTIONS AND GIVING ANSWERS

Hand out two index cards to each participant. Ask each participant to complete the following sentences.

- Card 1: I still have a question about -----.
- Card 2: I can answer a question about-----. In subgroups, ask participants to select the most interesting questions and answers. They in turn can ask/relate that information to the whole group for discussion. The trainer can fill in any information gaps.

SMALL GROUP REVIEW

Divide the group into subgroups and ask them to summarize the training. Encourage creativity. Each group reports out in the large group and trainer fills in the blank spaces.

CROSSWORD PUZZLES

Crossword puzzles can be created and used for review purposes. Some freeware and shareware are available for very simple puzzles. Software is also available for a variety of puzzle activities.

GAME SHOW QUIZ

As is appropriate to the participant's culture, a review activity can be designed to mimic any known (or invented) game show. Of popular recent use is a take on the international - "Who

wants to be a millionaire?” Trainer can make up the questions or ask participants to write them for use in the game. Adapt rules as the environment, time and resources allow.

E. WAYS TO KEEP THE TRAINING ON TRACK

The best training takes place when participants regularly evaluate what they experienced. It forces participants to think about what they have learned and how it can be applied to their jobs. It gives the trainer feedback so that he/she knows how well the training is being given/received –what is deemed valuable, what is not, and thereby permits adjustments to the extent practical. The alternative is to wait until the programme’s end for the feedback. By then it obviously is too late to improve things.

Facilitators should assess both participant learning and programme effectiveness. The following methods of gathering feedback are quick, painless and efficient. Use them often and use the resulting feedback to make adjustments that over time will make a big difference to workshop success.

Based on the participants’ feedback, contract with the group for adjustments in outcomes, process, content or style. Report back to the group with the changes you are prepared to make. You will also need to explain why the other changes cannot be made at this time. Soliciting feedback can be written or oral. The advantages of written feedback are that it is concrete, anonymous and can be quantitative and saved for further analysis and comparison. Oral responses take less time, promote informality and are best used later in the course when some rapport has been built.

Information offered can also be a starting point for further discussions. A participant may have felt a given piece of learning material wasn’t all that relevant, until he hears another participant talking about how she has used it successfully on the job! Ask your co-facilitator to provide Feedback during breaks. Have your co-facilitator pay close attention to the learning climate, participant nonverbal clues, and the effectiveness of your facilitation and leadership. Debrief with each other at breaks or between sessions.

FIVE POINT CONTINUUM

Draw a five-point continuum on a flipchart, (labelled strongly agree, Agree, Neutral, Disagree, Strongly Disagree) and ask participants to respond to it by a show of hands. Alternatively place flipcharts around the room (representing the five points) and have participants physically position themselves in relation to the five degrees to indicate their reaction or feeling to a given evaluation question. Such questions/statements might be:

- How many feel there was ‘too much stuff’ today?
- How many feel the day went too fast?
- The food at lunch today was great!
- The material is too easy (too hard)

F. WAYS TO MAKE CLOSURE

PHYSICAL SELF-ASSESSMENT

Create two signs that represent two extremes end of a continuum (for example competent and clueless). Post them on opposite ends of a wall. Ask participants to think about where they were at the beginning of the session and to go and stand on the continuum at that point. After everyone is in place ask a few participants why they placed themselves at that particular point.

Next ask them to think of where they would place themselves now, at the end of the training, and to place themselves accordingly. Once again ask a few participants to explain their positioning. In most cases you will see participants have moved in varying degrees from clueless to competent. This activity is a graphic way for everyone to see how they have benefited from the training session.

GROUP PHOTO WITH A TWIST

Have the entire group pose for a photo. Have each person come and take the photo. As each person comes to take a photo, ask them to share their final thoughts with the group. It is more effective after a longer and intense training course, where groups may have formed strong bonds through the experience.

ANNEX B. OPENING ACTIVITIES

1. NAME OF THE ACTIVITY: PARTNER INTRODUCTION

OBJECTIVES

Accumulating more information about the co-participants and to open up oneself to others
Enabling participants to communicate with each other

TIME

45 minutes (can also be made much quicker)

SETTINGS

Participants are randomly organised in pairs.

STEPS

- (1) Ask participants to stand in pairs and in 2-5 minutes, introduce themselves to each other.
- (2) Give the rules: The pairs - still together - stand in a circle. A of each pair introduces B, and B introduces A to the whole group recalling as much as possible what he has been told during the pair wise introduction. Turn by turn all pairs introduce themselves to the class.

HINTS

Pairing could be done by:

- Taking your partner to the right (left),
- Walking across to choose your partner (if participants were standing in a circle at the end of the previous game!),
- Using energiser: Boat is sinking,
- Cutting playing cards into two and placing them upside down in the centre of the participants in a semicircle; everybody takes one half and finds out the respective partner who possesses the second half of the same playing card.

Prior to the pair wise interrogation period, give some hints about what the mutual introduction should centre (age, marital status, number of children, schooling, professional career and the like). You should take part yourself in this introduction game; make funny remarks during the pair introduction in order to set a relaxed mood. Even if some participants tend to talk lengthily, don't interrupt them!

PROCESSING

- Ask the participants how they feel at present!
- Inquire if they feel like having learnt something about their co-participants with whom they are going to co-operate during the next four weeks? If yes, what? Let them specify!
- Make them aware of the difference: all were unknown to each other some hours ago, and now they have already developed certain contacts! Ask them to "give a big hand" to themselves! (Applause!)

2. SAY "HELLO"

OBJECTIVE

- Reinforcing contacts among participants,
- Establishing warm relationship,
- Questioning and interpreting forms of greeting others.

TIME

10 minutes

SETTINGS

Chairs for all participants and facilitators arranged in a circle

STEPS

- (1) Demonstrate with the co-facilitator the first round of saying "Hello", i.e., either shaking hands or greeting each other without any body contact. Both forms are accompanied by usual phrases such as "How are you?", "How do you do?" etc.
- (2) Instruct all participants to follow the given example making sure that everybody has greeted any other co-participant eventually memorising their names.

- (3) Introduce the second round with your co-facilitator of saying "Hello" consisting of a warm welcome usually performed among friends who have not seen each other for a long time such as embracing, squeezing or kissing the cheeks. This action is accompanied by "sweet words" expressing the enthusiasm and delight to see each other.
- (4) Let participants perform the action making sure again that every co-participant is welcomed this way.
- (5) Tell them that the last round of saying "hello" is performed solely with the eyes. Demonstrate with the co-facilitator in absolute silence and without touching each other how partners can meet in a friendly manner just by looking friendly into one's eyes. Emphasise that no hectic movements should be undertaken and that everybody remains on one's seat during this round.
- (6) Let the participants perform the activity, making sure again that every co-participant is greeted in the prescribed manner.

HINT

- Do not attempt to process after each round because all different forms of saying "Hello" to each other should be experienced first.
- Make all facilitators and host personnel participate in this exercise.

PROCESSING

- (1) How do you feel after the activity?
- (2) Let's share our impressions - how did you feel about this exercise (delighted, shocked, satisfied, etc.); refer to the different forms of saying "Hello" to each other.
- (3) Which form was liked most (least) by the participants? Why?
- (4) Was it easy or difficult to communicate with each other regarding the different forms?
- (5) Which factors actually influenced the greeting "ceremonies"? (Elicit a discussion that the presence of others or feeling obeyed contributed negatively to the feelings during the second round; that fixing the partner with the eyes was difficult due to many "competitors", etc.)

- (6) Point out that participant as SMC members will very often be in situations in which they will have to utilise different forms of saying "Hello", and that the most situation-appropriate form will have to be figured out instantly.
- (7) Make them aware of the fact that among the participants some could easily embrace each other, whereas others had a lot of difficulties because a mutual positive feeling has not yet been established. How can these feelings be developed? Explain to them that the approach to establish a warm atmosphere first before actual learning points can be delivered. Openness and positive feedback are basic necessities to render the training a success for everyone.

ANNEX C. ENERGIZERS

INTRODUCTION

As the name explains, these short exercises are used to energise the participants, i.e., to invigorate them, make them physically and mentally alert. During a training course, despite the application of group dynamics and experiential learning approach, there are times when participants feel tired, exhausted or even sleepy which is quite a normal reaction in view of the participatory and ambitious daily programme?

During the various steps of a course, energisers can be used for warming-up at the very beginning of the programme, as ice-breakers to stimulate interaction at the beginning of an exercise, as openers to introduce a new topic and to prepare the group for the following tasks.

Energisers are mood setters and tuners. The use of an energiser helps to create or maintain a positive learning atmosphere, as they provide fun and laughter, warmth and closeness. Their charming and humorous ways help to activate the participants mentally while movements during execution of an energiser activate them physically.

Energisers can be employed not only in the morning, after lunch or tea/coffee breaks, when level of attention has to be risen, but also in other moments of a working day as they draw the participants' attention back to the subject matter and, thus, contribute a lot to the success of the training. Energisers are used as openers to introduce a new topic, to prepare for a long exercise or to overcome tiredness during this exercise before starting the next round.

On the other hand, some energisers can help to relax the participants after having finished a demanding exercise with several rounds or after an emotional and intellectual effort or involvement in a certain exercise.

Energisers can be wild as well as mild and introspective. Make your choice according to the requirements of the moment (energise or relax) or the following session. If the next exercise is a very dynamic one, you do not need a wild energiser because a misdirection of energy might be caused. Below are some lists of energizers:

YESTERDAY WITH A DANCE

- Three different traditional dances are written on a paper.
- Participants take the paper and dance according to what is written on it to form groups.

- Groups write as many points as possible on what they remember from the previous day and paste them on the board.
- The points are then clustered under the main learning points of the day and the points summarized.

The following are a few examples of energizers. An energizer is something the facilitator, trainer or teacher can use in a number of ways:

- To motivate the learners at the start of a session or lesson,
- As a break during the session if it has been intensive with everyone concentrating for a long period of time,
- As a break between sessions or lessons.

An energizer is a short activity and should be used appropriately to motivate, re-energize or regain energy to continue with a task, or to move on to a new activity.

Note: Over-use of energizers should be avoided as this will have the opposite effect and distract learners from the task at hand.

COLOURS

- Everyone sits in a circle.
- The facilitator asks “What colour would you use to describe the person on your left?” and begins the game him/herself – i.e. “I call you yellow because you are always so sunny and cheerful.”
- Each person goes in turn around the circle.

STORY ENERGIZER

The facilitator/teacher tells a story to participants/learners. Before beginning, the class is divided into three groups (for example, one group is the community, one group is the teachers, one group are children).

The story needs to mention these three groups of people starting at regular spaces in the story and then building up so that the community, teachers and children are mentioned very closely together in the story.

Each time the particular group hears their “name” when the story is being told; they must stand up then sit down together (quickly). This is a short, fun activity to get people listening and moving.

ANIMAL ASSOCIATION

- Present a grid with different pictures of animals (i.e. 6),
- Each person chooses the one which best describes him/her,
- Share with a partner and explain why you are like that animal,
- In the larger group, each person gives feedback about their partner –their chosen animal and why they are like that particular animal.

FOLDING PAPER

- Give everyone a piece of paper – A4 size works well,
- Tell everyone there are two rules – each person must close their eyes– they must not ask questions,
- Give the participants the following instructions
 - Fold paper in half and tear off the bottom right corner.
 - Again fold paper in half and tear off the top right hand corner.
 - Again fold in half and tear off the bottom left corner.
 - Again fold in half and tear off the top left corner.
 - Ask everyone to open their eyes and display their unfolded paper.
 - Discuss with participants what has happened – i.e. clear communication, thinking, understanding, etc.

YOU'RE OK

- Everyone sits in a circle,
- Each person has a card and writes his/her name on top of it,
- Pass cards from right to left around the circle – ask everyone to write down one positive comment about the individual whose name is on top of the card (this can be a word/phrase/sentence, etc.),
- Return the filled cards to each person named on the top of the card.

ANNEX D. BRAINTEASERS

INTRODUCTION

USES

Making the participants go beyond their self-imposed boundaries of imagination. To limit possible solutions of a given task to logical thinking and subtlety.

As the name expresses, brainteasers aim at teasing the brain. They are problems, puzzles or quizzes to which unusual or unconventional solutions are needed to solve them. Sometimes more than one solution is possible depending on the creativity of the participants. Brainteasers are meant to support the participants in thinking beyond their self-imposed mental boundaries. Creative imagination is the key factor here, not necessarily logical thinking. Creative entrepreneurs differ from non-creative ones when they confront problems. Thus, the brainteaser sub-module is located at the crossroads of personal and business competencies to be acquired for a successful business career

Brainteasers make the participants leave their normal patterns of approaching problems, force them to step outside their set mental boundaries and self-imposed limitations within which problems are usually dealt with. The participants learn not to accept the first workable solution but rather search for more possible and better solutions. To broaden the participants' mental horizon is an important prerequisite to successfully apply brainstorming techniques in the succeeding sub-module.

Brain tease sessions are often wild and crazy to induce creative thinking. More so in a group, participants tend to attain a high level of innovativeness, creativity and idea generation. Trainers should support this atmosphere through affirmative attitudes prohibiting any remarks which may have a negative impact on the participants. On the contrary, the wilder, the "zanier" and "crazier" the ideas, the better for the respective session's objectives

Brainteaser starts with individual problem solving exercises which could either be done in public, i.e., open to all but everyone solves them independently, or secretly in a "quiet" corner where only the individual results are communicated in public. To experience the overwhelming creative power of groups, individual brainteasers are followed by group brainteasers

Participants should be left without any solution, if they can't find one within a certain time limit so that this very problem keeps on teasing them during a subsequent tea break or even during the following day. Often participants feel challenged to find a solution on their own;

this is an attitude which should be reinforced as it stands for persistence in their future business life. Below are some helpful brainteasers.

1. NAME OF TEASERS: CHILD STORY

Individual Brainteaser

TIME

5 - 20 minutes

REQUIREMENTS

Text of the story given below (see Steps)

SETTING

Participants seated in U-shaped formation

STEPS

- (1) Read out the following story: "Kwaku Ananse (or any other name of either a male or female participant or a well-known person in the respective country) lies in his bed". It is 2:00 a.m. in the morning, but Kwaku cannot sleep because the full moon shines brightly through the window and also the light is on. Suddenly, Kwaku hears a sound outside the window. He opens his eyes and sees a stranger entering the room through the window and walking through the room to a table where some jewellery is glittering in the moonlight. Kwaku sees that the man puts all the jewellery into the pocket of his trousers and then leaves the room through the same window. The next morning, it is detected that all the jewellery has been stolen by a thief and the police is called. The police want to know from Kwaku what happened but he is neither in the position to tell, although he is neither dumb nor an idiot. Why?" Narrate this story exactly with the same words to the participants.
- (2) Ask them to find the clue why Kwaku (or any other well-known personality's name in the location) is not able to tell the police what happened. The participants may ask questions. The trainer, however, can only answer with "Yes" or "No".

Solution: Kwaku is only a three-month old baby!

TYPICAL SITUATIONS AND PROBLEMS

The participants still feel perplexed after you have finished reading out the story and may ask to narrate it once again.

Participants come up with wild (sometimes even funny) explanations for Kwaku's behaviour.

They will try to elicit from you more background details.

The name of the baby is taken from an existing but grown-up individual (either a participant or a commonly known personality) who leads the participants to the assumption that the story deals with a grown-up and not with a baby!

HINTS

Narrate the story a second time, if needed. Confine yourself to "Yes" and "No" as possible answers but...Support their imaginative thinking of possible answers through remarks like "Not bad!", "Good idea, but not applicable in this case!", "This is a new solution which has never been found before, but it is not the answer looked for!"

PROCESSING

- (1) Ask the participant who found the solution how he got it? (Elicit that a word or a contribution of another participant may have brought the correct idea!).
- (2) Why did we assume wrongly? (Elicit that normally full names including first and family name are not attributed to children but rather short forms or nicknames!).
- (3) Discuss the fact that even an easy, obvious and logical solution may be hidden behind a curtain of misconceived assumptions which actually did not expressly exist.
- (4) Reiterate that it is easier to find solutions in a group where one idea leads to another, where wild thinking of even unthinkable solutions contributes to success.

2. NAME OF TEASER: MATCHES BRAINTEASERS COLLECTION

USE

- Inducing creativity,
- Making the participants go beyond their self-imposed boundaries of imagination.

TIME

10 minutes each

REQUIREMENTS

- (1) White board,
- (2) Marker pen,
- (3) Maximum of 12 matchsticks for each participant.

STEPS

- (1) Explain the problems stated below, one by one, with the use of the white board and a marker pen.
- (2) Ask the groups in their respective places to solve them.
- (3) Ask those who think they have found a solution to come to the board.

PROBLEM A. MATCH MANOEUVRE

"Place six matchsticks in such a way that each one touches every other one firmly!"

Place three match heads together as shown, touching snugly. Then pile the remaining three matchsticks on top of these with their heads similarly meshed. Thus, each of the six matchsticks touches every other match firmly. Remember: in presenting the problem, no restriction was stated that the matches must all rest on a flat surface.

PROBLEM B. RUN-AROUND

"Arrange ten matchsticks such that they form the following equation in Roman numerals:

$$XI + I = X$$

This equation is, of course, incorrect. Make the equation read correctly without touching anything!"

$$X = I + IX$$

Solution: Go to the other side of the table and look.

Place three match heads together as shown, touching snugly. Then pile the remaining three matchsticks on top of these with their heads similarly meshed. Thus, each of the six matchsticks touches every other match firmly. Remember: in presenting the problem, no restriction was stated that the matches must all rest on a flat surface.

TYPICAL SITUATIONS AND PROBLEMS

- A. Participants will try to place all matchsticks on the surface touching each other at the corners.
- B. Participants may feel perplexed for a certain time that things can be changed without moving anything.

HINTS

- A. After a certain time you may give the following hint: do not think only in a two-dimensional way!
- B. A hint may be in case they do not approach any solution: "It was not said that the two squares will have to be of equal size!"

Depending on time availability and need of the participants, you may either write the wrong equation on ZOPP card (which normally is easier for the participants) or you may ask them to form the equation with their matchsticks in hand. The latter one is more difficult, if preceded by other matchsticks brainteasers where matchsticks had to be moved. Participants are already conditioned to that.

- (1) The same for all; to be done after each individual exercise:

PROCESSING

What hindered them to find a solution straightaway? Elicit that we are conditioned in certain ways like:

- A. A matchstick is not thought to be a three-dimensional body but rather a two-dimensional "object" because of its flat appearance,
- B. We have been used to move matchsticks in many exercises so that we could not imagine that none had to be moved in this exercise, although a different equation was expected to be the result.

What had helped the discoverer of the solution? Was it a word or a contribution from a neighbour? Is it an advantage to brain tease in groups? Or is it better to do it quietly on one's own?
