

SCREAM in Indonesia

- The EAST project in Indonesia organized the "SCREAM and 3Rs" Workshop in Bandung, on the 18-24th of February 2008. 18 provincial master trainers from the six provinces under ILO-EAST project (three master trainers per province), 5 Master Trainers from the Ministry of National Education (SMP Directorate and Directorate of Training Development) and one representative from PGRI were trained on the 3Rs and the SCREAM packages. They will conduct trainings in their six respective provinces for educational stakeholders (for 5 days) and coach in-service training for teachers in the schools and children's centers.
- SCREAM and 3Rs packages were already translated and adapted into Bahasa Indonesia by IPEC. EAST and IPEC are jointly producing and using tools on child labour and education as well as complimenting each other activities.
