cis@inspektorat.vladars.net
Republic of Srpska Inspectorate

• Member of the IALI – International Association of Labour Inspection from September 2007
• The CIS Collaborating Centre (CIS - worldwide network of occupational, health and safety information centres with headquarters in Geneva) from 2008
• Signatory of the Declaration on Regional Cooperation of Labour Inspectorates in Southeast Europe, Azerbaijan and Ukraine, October 2008
• Signatory of the Cooperation Agreement with the Authority for Working Conditions of Portugal, June 2009
Position and functions of inspection system

Republic level – suggestions for changes in regulations

Inspection system level – inspection surveillance over implementation of regulations

Inspector level – efficient application of experience and standardization
Strategic goal and planning concept

Strategic goal - increased discipline in implementation of regulations

Inspection plans – based on assessment of risk of irregularities

Analogy with system theory

- Regulator
- Management object
- Measuring devices
- Inspection plan
- Subject/object of inspection
- Inspection
Inspection Management System (IMS)

• Expert information management system that fully supports all work processes of inspection bodies in the Republic of Srpska
• Realized with the support of three integrated international projects
  – USAID SPIRA
  – USAID ELMO
  – World Bank ARDP
• WAN computer network (6 Inspectorate regional departments and Inspectorate headquarters, Inspectorate border crossing and customs branch offices, Municipal/Civic Inspection Departments)
• Software Application (risk assessment, planning, recording, reporting)
• Computer Hardware (11 servers, 256 notebook computers and mobile printers, desktop computers and other peripherals)
• ECDL (*European Computer Driving License*) training for 300 employees
• Automated Complaints System - CTI (*Computer-Telephony Integration System*) – integrated with the Inspectorate web site and the IMS
# Results of inspection checks

## No violation of regulations, but there is risk
- Correct – low risk
- Correct – medium risk
- Correct – high risk

## Violation of regulations exists
- Partially incorrect
- Significantly incorrect
IMS Risk Assessment Module

Knowledge database – inspection checks results

Correct – low risk (um)
Correct – medium risk (us)
Correct – high risk (uv)
Partially incorrect (nd)
Significantly incorrect (nz)

Fuzzy Inference System

Rule 1  If number (um) is high and (us), (uv) (nd) and (nz) are low, then (rp) is low
Rule 2  If number (um), (us), (uv), (nd) is low and (nz) is high then (rp) is high

Σ  Inspection check risk (rp)
Inspection surveillance plan

Resource – effective inspector time

Priority of surveillance area (op)

Proposal of inspection plan

Priority types of objects (vp) in surveillance area (op)

Number of checklist realizations (lp)

Resulting risk (rp)

Number of realizations of check p in planning period, s_{t+1}(s_t,rp)
Generating plan
Blanko Subotic, General Director of the Republic of Srpska Inspectorate, opened on 12th of October 2009 new offices of the Inspectorate's Doboj Regional Department. Moving into the new offices located in town centre in Sveti Ivan Street asked the accommodation for inspectors of this Department, who so far have been working in rented offices.

In accordance with Item 4 of the Guidelines for Republic Administrative Authorities for Participation of the Public and Consultations in Drafts of Laws “Republic of Srpska Official Gazette” issue N°173 (2008), the Inspectorate for Inspection Activities of the
IMS Effects – prerequisites for ..

Effective and efficient management of inspections

Quality and standardization of inspection surveillance

Information and knowledge management

Suggestions for improvement of regulations

Decreased “inspection burden”

- Familiarization with the ISO/IEC 17020 (9001;27001) standard requirements
- Quality system development
  - Identifying and documenting procedures and processes, preparing quality manual
  - Testing in practice, internal audits and necessary adjustments
- Certification
Media campaign “LET’S WORK, BUT SAFELY” (2008)

- The aim of the campaign was
  - To inform the public on the new approach to safety and health at work introduced with the new Law on Occupational Health and Safety in the Republic of Srpska
  - To raise awareness of employers and employees that a safe workplace is not an issue concerning individual persons, authorities or organizations, but the issue concerning all persons, authorities and organizations
