SIYB Training Intervention Brief

► Intervention Overview

Implemented by the International Labour Organization (ILO) and funded by the European Union, the ENABLE programme focuses on providing livelihood opportunities to enhance the economic capacity and small income-generating opportunities for refugees and host communities.

In order to enhance entrepreneurship development, ENABLE is currently providing training programs targeting vulnerable potential entrepreneurs to generate and start their businesses. In partnership with the LEE experience, the trainings are implemented by a network of competent individual trainers, who were previously capacitated to support vulnerable potential and existing entrepreneurs, using ILO Global tools, specifically "Start and Improve Your Business/SIYB" training packages.
