

Key challenges

- National priorities
- Minimal statistical infrastructure
- Capacity to adjust existing data collection tools and procedures
- Efficient communication with relevant stakeholders
- Availability of resources

Key opportunities

- 2030 Agenda for Sustainable Development

“Governments and public institutions will also work closely on implementation with regional and local authorities, sub-regional institutions, international institutions, academia, philanthropic organisations, volunteer groups and others.”
- Implementation of the latest standards on statistics of work (19th ICLS resolution)
- Comprehensive measurement of unpaid care work
