Injuries Caused by Agricultural Machinery

Risks:

01

Hands/feet
trapped or
crushed

Cuts or
amputations
from blades
& belts

02

Run-over
accidents on
steep/wet
ground

03

04
Flying debris
(rocks, branches,
metal) hitting
eyes or body

Burns from
hot engines

05

Stay Safe:

Check safety covers/shields

Switch off & unplug before
maintenance

Use tractors with Rollover
Protection Structures + **seatbelt**

Avoid wet/unstable ground

Never reach into moving parts

No riding on tractors/
trailers without seats

Tie back long hair & avoid
loose clothing

Wear strong shoes, gloves
& eye protection

Extra Risk:

- Youth near machines → play without awareness
- Loose clothes, scarves, or jewelry → caught in moving parts
