Injuries Resulting from Transport (Commuting)

Risks:

01

Rollovers & crashes on hills/slopes

Overloaded trailers/truck beds

02

Poor visibility (dust, big loads, obstacles)

03

04
No helmets, seatbelts, or safe seating

How to Stay Safe:

For All Drivers

Hold a valid license

Drive slowly, especially on hills or wet ground

Don't drive tired, sick, or under influence

Check brakes, tires, and steering regularly

Carry a first aid kit & know emergency contact

Tractors / Pickups / Trailers

Don't overload people or tools

Spread loads evenly

Keep workers separate from animals/cargo

Never let youth drive or ride in unsafe trailers

Motorcycles / ATVs

Always wear helmet, gloves, boots, and long sleeves

Use goggles for dust and flying debris

Drive slowly on narrow/rough roads (Never do stunts or speed on farm paths)
