Knowledge Hub Webinar Series:

From Bangladesh to Qatar: Lessons from a pilot in the construction sector

Background:

In 2018, the ILO signed a Public Private Partnership with QDVC, a major construction company, to pilot fair recruitment practices from Bangladesh to Qatar, and assess the benefits for both workers and employers.

The pilot demonstrated that companies can achieve fair recruitment in a relatively short time span. It took only a few months to deeply reform company policies and practices, reach a massive drop in recruitment fees and related costs paid by workers, as well as reduce deceptive practices.

Join a discussion with the partners involved in the pilot, and hear about the lessons and the replicability for other industries and countries.
