

## **Overview on project activities in this area**

---

One of the strategies applied by The Project of Support to the Implementation of the Indonesian Time Bound Program for the Elimination of the Worst Forms of Child Labor, Phase II is to promote enabling policy environment to tackle the issue of child labour and its worst forms in Indonesia and to advocate effective programming in tackling the problem. This will include works on promoting policies and programs to tackle child labour at national and local level.

The following activities will be implemented by the Project of Support to pursue positive policies and enabling environment and effective programming for child labour and its worst forms elimination in Indonesia:

- Conduct review of existing plans and programs at national and local levels
- Conduct study on child labor policy options and good practice
- Conduct high-level policy dialogue on child labor issue
- Advocacy to mainstream child labor into relevant policies and programs to tackle child labor in Indonesia
- Review existing legislation and policies on child labor and their enforcement at central level and in target areas
- Assist Government of Indonesia at central and local levels in strengthening framework for enforcement of existing/new legislation and drafting new legislation and/or policies, including those addressing child trafficking
- Assist stakeholders at national level in promoting legal protection for sectors of child labor that are not yet covered
