Challenges and Opportunities in Maritime Skills Development:

Aligning the Skills System with National Vision and International Standards

Mary Kent Chief Technical Advisor
ILO/UK Skills for Prosperity Programme Indonesia

12 August 2021

Indonesia: A Maritime Nation...

- ▶ 17,000 islands
- ▶ 6.4 million square kilometers of seas
- ▶ 65% population lives in coastal areas
- ▶ 10% global maritime commodities

▶ \$75bn

▶ \$1.3trillion

Indonesia: A Maritime Nation...

...A Sector Constrained by Skills

▶ **33%** not attended junior high school

▶ **4%** female workforce

|

▶ **7%** qualified at Bachelor degree level

Skills for Prosperity Programme in Indonesia

PROJECT AIMS:

Indonesia's skills development policies and system are improved to respond effectively to changing skills demand of the growing maritime job opportunities;

Targeted action is taken in promoting skills for employment and decent jobs for young women and men, including disadvantaged groups.

Developing Polytechnic Centers of Excellence...

- ▶ New D4 Curriculum in each polytechnic partner
- ▶ International Technical Support and Capacity Building
- ▶ Local Sectoral Industry Advisory Boards
- ▶ Establishing Centers of Excellence

Key Objectives of Skills for Prosperity Programme in Indonesia

PROJECT AIMS:

Indonesia's skills development policies and system are improved to respond effectively to changing skills demand of the growing maritime job opportunities;

Targeted action is taken in promoting skills for employment and decent jobs for young women and men, including disadvantaged groups.

...leading to National Level Impact

- ▶ Skills System Policy Sharing
- ▶ Promote gender equality and greater inclusion within the maritime skills sector.
- ▶ Establishing Sectoral Skills Committees
