Study visits – City of Glassgow Collage (Oktober 2022)

The capacity building study tour to the UK allows the participated lecturers to observe and engage with the international partners (COGC) in several aspect related to Equity, Quality and Relevance for vocational study.

Individual impact

- Motivate lecturers to improve their English skills so they can **teach the international classes, prepare for doctoral studies abroad, as well as participate in international research programs**. Some lecturers take English Courses(IELTS) to improve their English Skills.

Teaching and Learning Process Impact

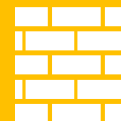

- Enrich the learning approach to be more participative (with online application such as padlet and mentimeter)
 - Add references for PBL learning assessment

GEDSI

- Increase lecturers' awareness and inclusiveness for students with disabilities
- Increase the participation of lecturers to join the PPKS task force.

Institutional Impact

- The Complete learning facilities, flexible classrooms between conventional and PBL classrooms models have begun to be imitated by the Business Management Department
- Initiation to establish academic services that include wellbeing and mental health aspec under the Career Development Center (CDC) unit (institutional)

GOOD PRACTICES AND LESSONS LEARNED

MyInternship

MyInternship bridges communication between the Polibatam apprenticeship management unit (CDC), lecturer as the student supervisors, and supervisors at the apprenticeship site to monitor Polibatam student internship activities for two semesters.

TalentHub

TalentHub record students portfolio of activities and academic and non-academic achievements. This application is also connected to industry partners who have offered various job positions for Polibatam students and alumni.

Industrial Advrsory Board (IAB)

The formation of the IAB through the SfP programme is a breakthrough step to increase the level of industry partnership with the LPI study programme.

Video and real-industry case studies for training materials

Videos and case studies from practitioners provide students with an overview of real cases in the industry. These videos provide a more interesting learning approach for the current generation so that the videos can encourage a higher interest in learning
