

STEP 4 - TEMPLATE NO. 14 - Conclusions of Consultations

Conclusions of the consultations

Instructions: This template is made to summarize the results of consultations with stakeholders. It is not made for publishing, rather it is a way of recording the results before they are integrated in the report (see STEP 3 - TEMPLATE NO. 5 - Step 3 Analysis Report – last section on “opportunities for OSH improvement”). Complete this template to showcase the process of designing the intervention models with stakeholders. Include all relevant information and adapt each section to your needs. When completed, erase the instructions.

1. Overview

Provide an overview of the steps taken during the interventions design process.

2. Objectives of the consultation and participants

Recap of the objectives here.

3. Feedback on the research results

Lay out any feedback received that would require modifying the report.

4. Proposed interventions

Lay out proposed interventions in order of priority.

Value chain production stage	Expected impact on OSH	Possible interventions	Stakeholders involved	Priority
<i>Production stage and type of actor</i>	<i>Hazard or vulnerability pattern you want to address</i>	<i>What needs to be done and how</i>	<i>Who will implement the intervention?</i>	<i>Rank</i>

5. Stakeholders

Fill in the table as per consultation results.

Intervention	Stakeholder(s) Will	Stakeholder(s) Capacities
<i>As per the priority matrix</i>	<i>High / Low</i>	<i>High / Low</i>
