Deadline 15 August 2021

SDG 8.7 Innovation Challenge

Ending Child Labour, Forced Labour, Modern Slavery and Human Trafficking in Pathfinder Countries

*Two challenges will be launched,
one global and one regional for Africa.*

Click here

Digital Information Systems for collaborative work to end child labour, forced labour and human trafficking

Building effective information systems to prevent and tackle child labour, forced labour and human trafficking that allow cross-reference between relevant institutions and prevention and protection programmes and provide the necessary information for decision-making at all levels

Apply now

More information & eligibility criteria

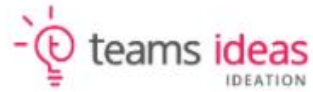

Preventing forced labour through skills and lifelong learning in Africa

Providing vulnerable workers with adequate skills and raising awareness about forms and risks of forced labour to prevent and protect them from situations of forced labour, enhance their employability and thus reduce their vulnerability to income shocks

2.

Sign in using your Microsoft, Facebook or Google account.

You can also create a new account by clicking on **Sign up now**.

3.

Once logged in successfully, you can **edit your profile settings** by clicking on **your name** (top right of the page).

The screenshot shows the ILO Skills Innovation Facility website. At the top, there is a dark header with the site name, a search bar, and a user profile section for 'Lazo Castro, Milagros'. A red arrow points to the user profile icon. Below the header, the main content area features a 'FEATURED CHALLENGES' section with a large card for the 'SDG 8.7 Innovation Challenge' about preventing forced labour in Africa. To the right of this card is a sidebar for the '3rd ILO Skills Challenge Innovation Call', showing details like '65d 10h Remaining', 'Type: Preventing forced labour in Africa through skills and lifelong learning', 'Program: Skills and Employability Branch (SKILLS)', and an 'Awards' section with '30,000 USD'. Below the featured challenge card, there are two columns: 'MOST LIKED IDEAS' and 'MOST COMMENTED IDEAS', each listing several ideas with their respective like and comment counts.
