Young people are on the move in search of work more than ever before. Today, about 30 per cent of the world's international migrants are young women and men between the ages of 15-24. Yet, very little is known about the opportunities and struggles facing young migrants in a globalized world. Together, let's put the spotlight on the plight of young women and men on the move!

About the Contest

To enter the video contest, send us your video (of maximum five minutes) showing how you make a difference in the lives of young migrants.
