

Decent Jobs for Egypt's Young People, Phase 2 (2016 - 2020), Logframe

Ultimate outcome

Increased decent employment opportunities for young men and women, especially groups that find it particularly hard to get access to such opportunities (such as women headed households, people with disabilities, poor people in rural areas and unemployed graduates)

Intermediate outcomes

- | | | |
|--|---|--|
| 1. Improved performance of the Government of Egypt and key ministries in the design and implementation of youth employment related programmes and policies | 2. Improved performance of governorate, community stakeholders and other partners (public, private and civil society at large) in delivering relevant services linked to youth employment promotion in the four selected governorates | 3. More young people (especially from vulnerable groups) in the four selected regions gain employable skills |
|--|---|--|
