

Rwanda: Projects

PROJECT TITLE	START DATE	END DATE	DONOR
Prevention and reintegration of children involved in armed conflict	30 September 2003	31 May 2007	United States
Objective: The project intends to contribute to the reduction of the incidence of children serving in armies and/or in armed groups. This expected outcome will be reached through three objectives, by the end of the project (1) there will be an enabling environment in each country, facilitating the prevention, withdrawal and subsequent reintegration into society of children involved in armed conflict, (2) former child soldiers above the minimum working age will be assisted to acquire decent work and achieve a sustainable income and (3) fewer children will be recruited in armed conflict in targeted countries.			
Enhancing national capacity in child labour data collection, analysis and dissemination through technical assistance to surveys and training	30 September 2006	30 September 2011	United States
Objective: This project will contribute to the elimination of child labour, particularly through better statistical estimates, quantifiable information and research for improved policy and programme formulation. To this end the project will work to (1) strengthen national knowledge bases on child labour through the establishment or extension of nationally-representative statistical information on child labour, with a particular emphasis on hazardous forms and specific studies on bonded child labour, (2) build national capacity through training for selected national counterparts on child labour concepts, data analysis, rapid assessments and baseline surveys and (3) improve access to and usage of child labour statistics through the establishment of web-enabled mechanisms for accessing child labour statistics and micro datasets at the country, regional and global levels.			
Project development, awareness raising and support for the implementation of the global action plan to eliminate the worst forms of child labour by 2016	01 May 2008	30 September 2013	United States
Objective: This project will enable IPEC to improve the quality of new projects which will receive direct beneficiary monitoring support. Through World Day Against Child Labour, awareness on child labour will be enhanced and the mobilization of key individuals and communities will consequently be increased. Finally, specific capacity will have been strengthened at the national, regional and global level in support of targets set forth in the Global Action Plan. In Rwanda, this project will support the development of the National Plan of Action (NAP).
