International Labour Conference, 107th Session, 2018

Report IV

Towards 2030: Effective development cooperation in support of the Sustainable Development Goals

Corrigendum

Paragraph 148 should read as follows:

Innovative means of action offer new opportunities to involve private sector participants and to expand South–South cooperation and policy dialogue across regions, with a view to pursuing the realization of fundamental principles and rights at work under the 2030 Agenda. In addition to multi-stakeholder groups, new partnerships with the private sector have been forged with companies and business networks (the Child Labour Platform, the Global Business Network for Social Protection Floors, the Disability Network, and the Forced Labour Network). The continued success of new and traditional means of action requires the sustained engagement of all parties and strong political will. Thus, international commitment to the eradication of child labour was reconfirmed at the IV Global Conference on the Sustained Eradication of Child Labour, held in Buenos Aires in November 2017, which concluded with the adoption of the Buenos Aires Declaration, spelling out the principles and action to be taken, including nearly 100 pledges of tangible steps towards the eradication of child labour and forced labour and the generation of quality employment for young people.

The third paragraph in box 6 should read as follows:

Alliance 8.7 supports the work of governments, workers' and employers' organizations, UN agencies, civil society organizations and other stakeholders in achieving SDG target 8.7 on eradicating forced labour, ending modern slavery, human trafficking and child labour in all its forms (see http://www.alliance87.org/).

The third row, fourth column of table 2 in Appendix I should read as follows:

The presentation of survey results in the text is based on the frequency that a particular response was selected respectively by constituents and development partner survey respondents, relative to all responses. Results for constituents are also discussed by constituent type.

The seven measures out of which survey respondents selected three measures are:
