Contents

- ▶ Coronavirus: a public health, OSH and food safety issue!
- ▶ Main applicable International and EU Labour Standards and Guidelines
- ▶ What to do at workplaces? Implement OSH services and manage risk
- ▶ Employers and workers main responsibilities
- ▶ The role of labour inspectors
- ▶ Conclusions
- ▶ Additional resources

► Coronavirus ...

► Public health issue:

- Endangers the health and life of citizens;
- Stresses the response capacity of the public health systems.

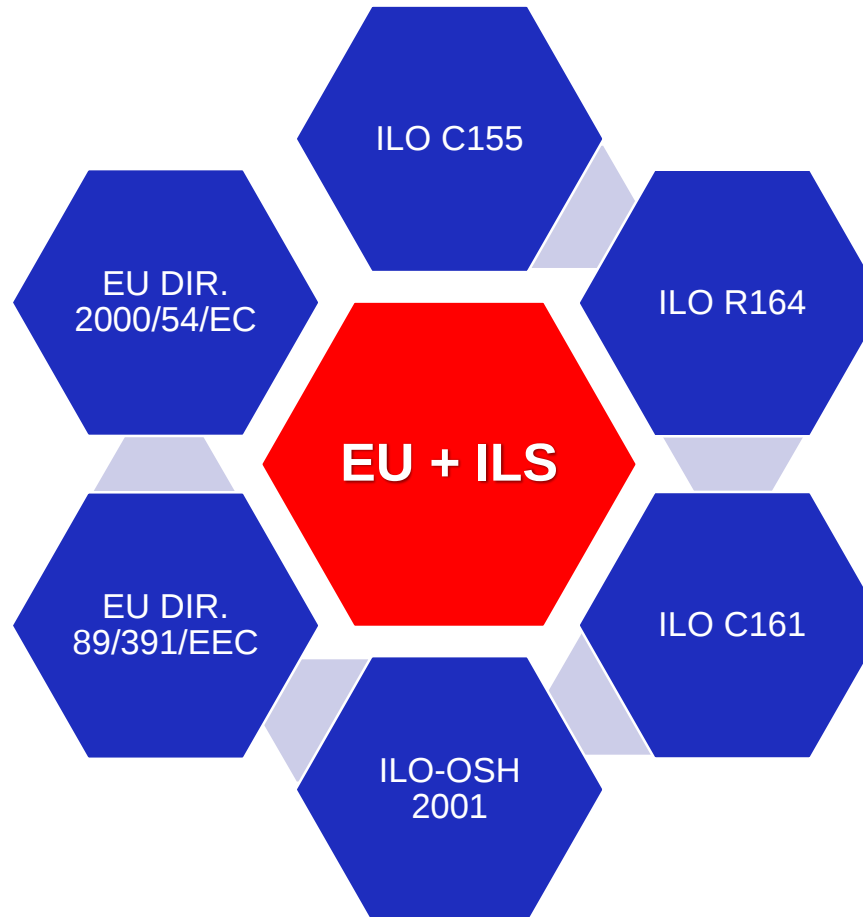

► Occupational safety and health issue:

- Biological agent that can be introduced, transmitted within and to outside workplaces, with potential damage to workers' health – being therefore an occupational hazard;
- Its contagion at work - is an occupational risk;

► Food safety issue:

- It can be transmitted within and across all food value chain (within and through its phases, from producers to consumers);
- It can disrupt the food supply system and compromise the safety and nutritiousness of food.

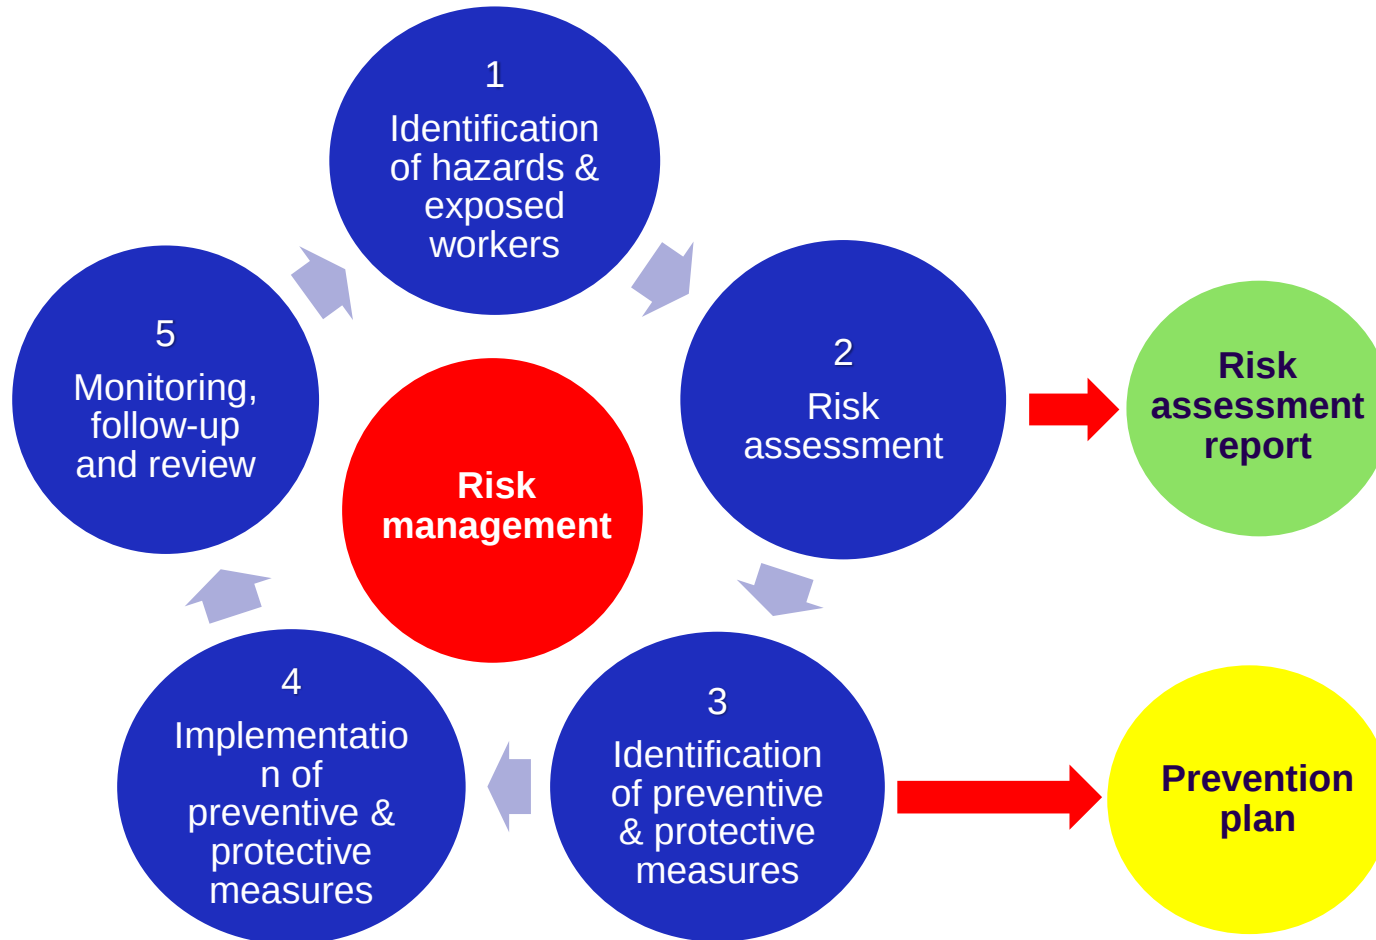

► Main applicable International and EU Labour Standards and Guidelines

What to do at workplaces? → **Ensure OSH services at workplaces**

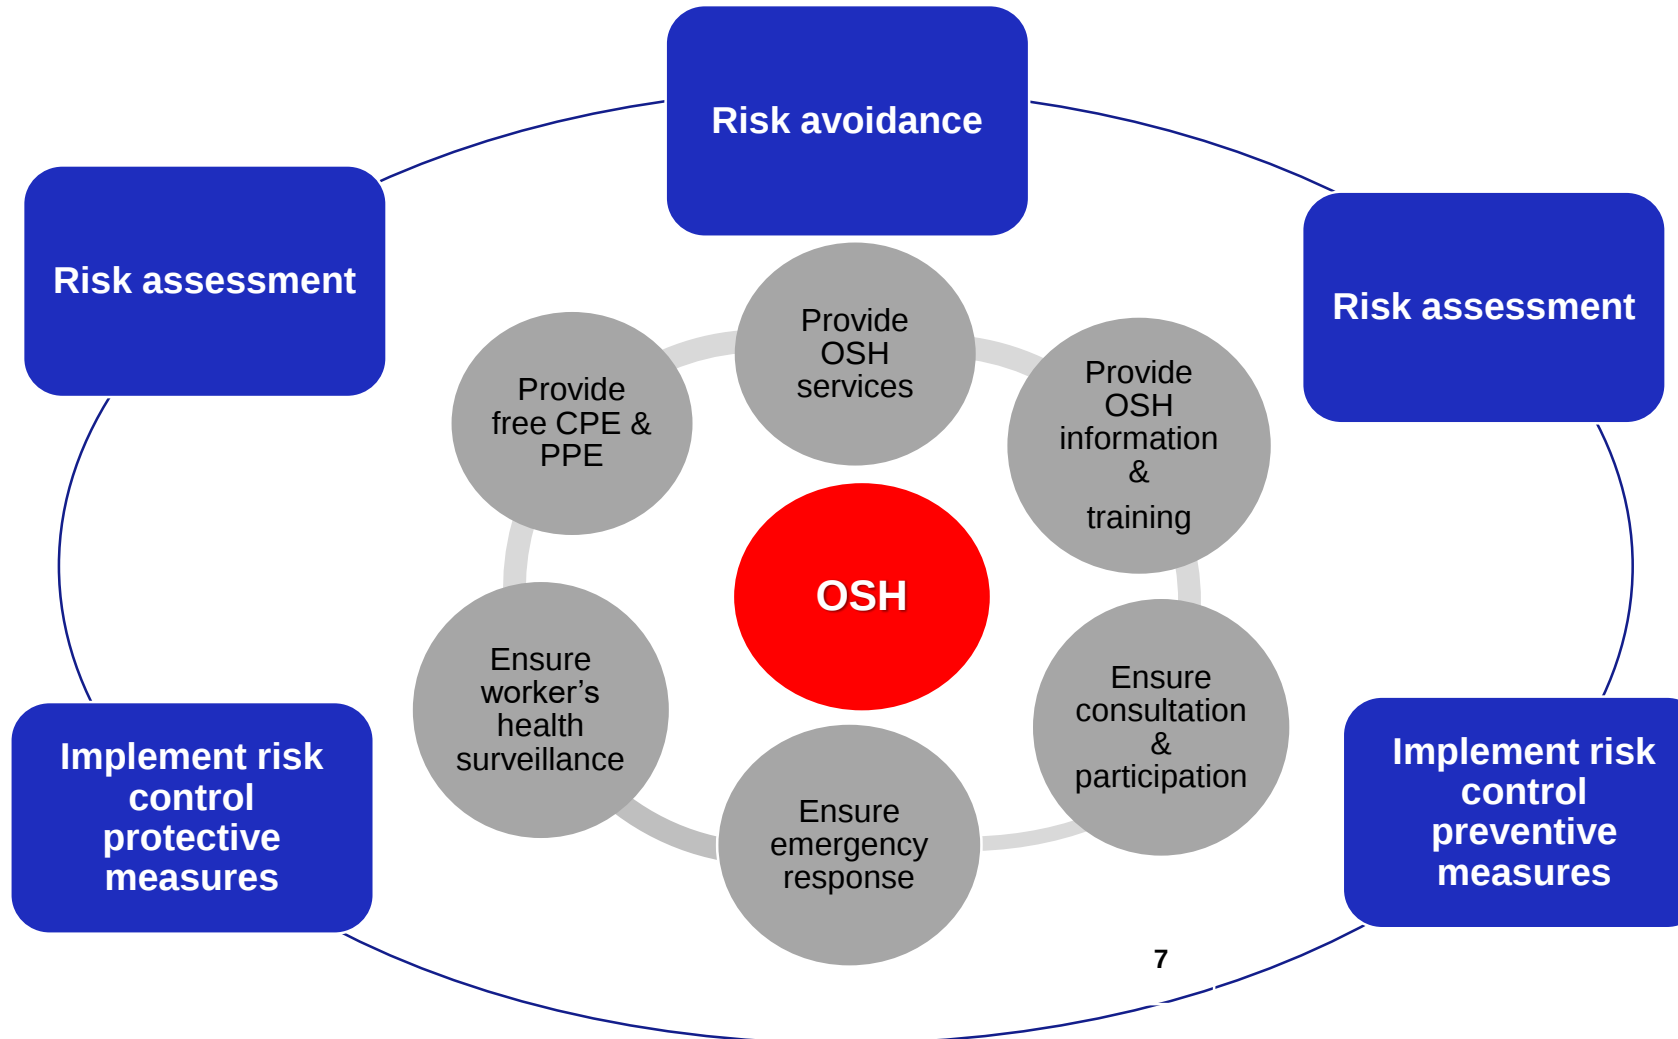

What to do at workplaces? → Implement a risk management system

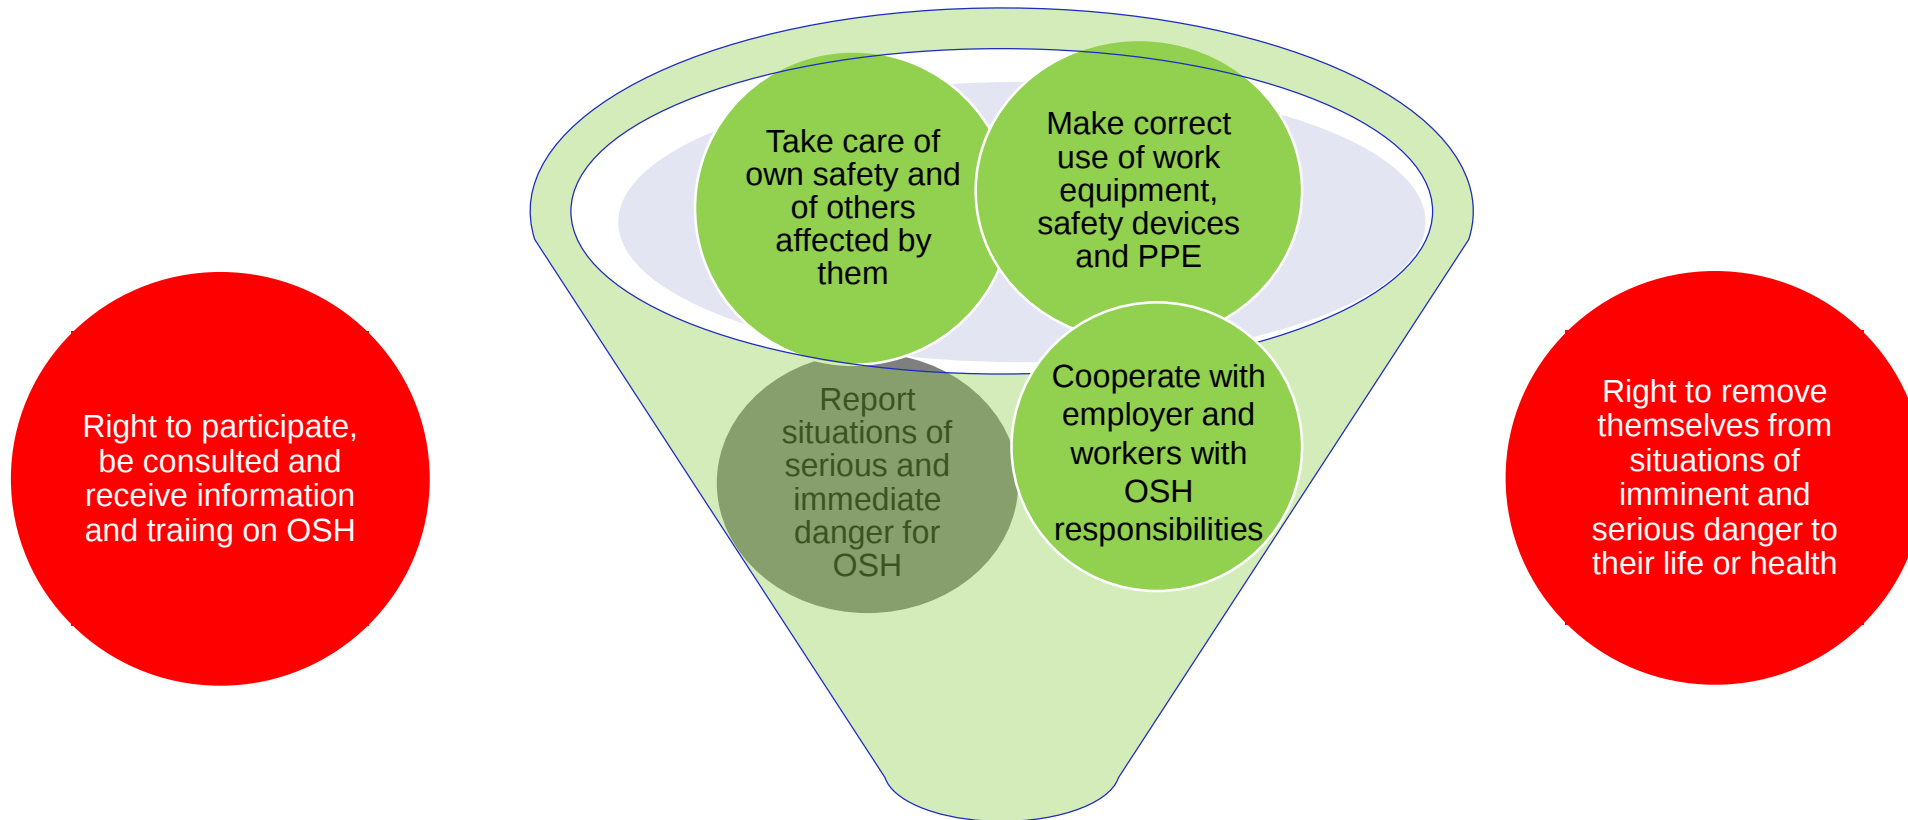

Measures:

- Physical distancing
- Hygiene
- Cleaning
- Information & training
- Communication
