

Important notes on the dataset *CRI_LFS_2014Q3_ILO*

Labour Force Status (ilo_lfs)

Individuals being only temporarily unavailable (i.e. answering that they are not available at the moment for personal reasons (studies, planned trip), or that they would be available in another moment), are being directly sent to the section of the questionnaire dedicated to people outside the labour force

Occupation (ilo_ocu)

No relevant occupational classification being considered by the original dataset

Institutional sector of economic activities (ilo_ins_sector)

All types of persons in employment are being taken into account

Working time arrangement (ilo_job_time)

Threshold used for full-time work: 40 h per week

Degree of labour market attachment (ilo_olf_dlma)

Only “available potential jobseekers” can be identified

Informal/Formal economy (ilo_ife)

Social security coverage: questions regarding paid sick leave and paid vacations only being asked to wage employees. Therefore, only question regarding social security coverage (in general) can be considered for self-employed, while all three can be considered for wage employees
