Overview

ABSTRACT

The Labour Force Survey is a survey that collects data on the main characteristics of labour force, which are used to estimate the total labour force in our country. The main aim of the survey is estimating the labour force volume, i.e. employed and unemployed population, where employment relates to work in both formal and informal section. LFS also aimed at increasing preciseness of labour force contingents estimations, the statistical Office of the republic of Serbia (SORS), has started, since the beginning of 2016, applying the new methodology of estimating, i.e. weights calculations, by which sample is expanded on the level of populaton. The mentioned change has disabled comparisons of data series, and SORS has performed revision of 2014 and 2015 data, thus providing comparability, starting with 2014. Additionally, LFS deals with characteristics of employment (professional status of the employed persons, their activity, occupation, rights realized at work...) and unemployment (acquired education, duration of job seeking, previous working experience...), as well as characteristics of inactive population - their education, age, income source and readiness for involvement in labour market.

KIND OF DATA

Sample survey data [ssd]

UNITS OF ANALYSIS

- Households
- Individuals

Scope

NOTES

The scope of this study includes:

- Employment
- Unemployment
- Activity
- Occupation
- Education
- Duration of job seeking
- Previous work experience
- Sex
- Regions

TOPICS

Topic	Vocabulary	URI
Education	ILO	
Household Income	ILO	
Employment	ILO	
Unemployment	ILO	
Time Related Underemployment	ILO	
Other Work Activities	ILO	
Informal Work	ILO

Environment	ILO	

KEYWORDS

Wholesale, Labour trends

Coverage

GEOGRAPHIC COVERAGE

National

UNIVERSE

The Labour Force Survey covers all persons in individual, (non)institutional households on the territory of the Republic of Serbia, without the Region Kosovo i Metohija, which represent usual population.

Sampling

Sampling Procedure

Target population - Households and persons referring to the "usual population" that reside in the territory of the Republic of Serbia without the Region of Kosovo and Metohia. Excluded are persons in collective households (students' and pupils' dormitories, homes for children and youth with disabilities, homes for socially vulnerable children, homes for pensioners, retirement nursing homes care, homes for adult disabled persons, monasteries.

Sampling frame - The 2011 Serbian Population Census frame was used for the selection of the enumeration areas and households. It was formed by excluding all enumeration areas with 19 or less households. In this way frame was reduced by about 1.5%.

Sample size - The target sample size is 68640 households in 6864 enumeration areas. The sample was increased from 2016 due to the transition to the continuous periodicity of the survey in 2015 and the requirement that the estimate precision for the quarter should be in accordance with the EU regulations. Sample allocation - Proportional allocation based on the number of persons aged 15 and over, within the type of settlement and territory, was slightly corrected in order to ensure better precision of estimates at the level of area and uniform distribution of the sample in the time. Due to the transition to the continuous periodicity of the survey, sample distribution in time was necessary. Each subsample allocated for the quarter was randomly and uniformly distributed to 13 weeks for all four quarters in 2016. In 2016 observed are 52 weeks.

Sample selection - The sample for 2016 consists of 9 independent subsamples, selected according to the same sample scheme. The first stage units (enumeration areas) are selected systematically with probability proportional to the number of population aged 15 and over. Within each stratum enumeration areas were sorted according to the municipality they belong to and the order number within the municipality. This systematic selection provided high level of implicit geographic stratification and ensured effective sample distribution. The second stage units (households) were selected with equal probabilities (simple random selection).

Rotation scheme - Labour Force Survey is based on the rotating panel design, by which each household participate in the sample for four times. The rotating scheme 2-2-2 was applied. For each quarter four subsamples (rotating groups) are allocated. Each quarter (Q) in the sample is included: one new rotating group, two rotating groups from the previous quarter (Q-1) and one rotating group from Q-3 quarter. Based on the applied rotating scheme, each household and person selected in the sample will be interviewed 4 times within 18 months, i.e. each household and person is in the sample for two consecutive quarters, then for two quarters out of the sample and again for two consecutive quarters in the sample.

Sample realization - The total of 133704 persons were interviewed, and data on working activity were collected for 116394 persons, which makes 1.9% of the total number of population aged 15 and over.

Deviations from Sample Design

Type of sample - Two-stage, stratified sampling approach. The first stage units are enumeration areas and the second stage units are households.

Stratification - Enumeration areas, as primary sampling units, are stratified by the type of settlement (urban and other) and by territory at the NUTS 3 level (25 areas: Beogradska, Zapadnobačka, Južnobańska, Južnobačka, Severnobańska, Severnobačka, Srednjobańska, Sremska, Zlatiborska, Kolubarska, Macvanska, Moravicka, Pomoravska, Rasinska, Raška, Šumadijska, Borska, Branicevska, Zajecarska, Jablanicka, Nišavska, Pirotska, Podunavska, Pcinjska and Toplicka oblast).

Response Rate

The co-operation of households with the interviewer, i.e. the percentage of response is a very important element of the Survey and has a direct impact on data quality. In case of a greater percentage of non-response one obtains a false picture of the labour force market. This is due to unequal representation of certain population categories.

In order to secure co-operation between households and interviewers visiting the former, all selected households receive a letter of information mentioning the: objective and purpose of the survey, timeframe of interviewer's visit, protection, i.e. secrecy of data, way of handling information collected by the interviewer. This is how an interviewer's visit is announced.

Weighting

The estimation was based on two-stage stratified sampling design, assuming that the selection procedure for the first stage is proportional to the size with replacement, and for the second stage it is simple random sampling without replacement. The initial weights are results from the applied sampling design that was corrected for non-response. In order to reduce the effect of non-response and to obtain estimates for population that correspond to current demographic projections, the procedure of post-stratification was applied. By the end of 2014 the post-stratification was provided by area level (NUTS 3 level) and by age groups (0-14 and 15+). From the beginning of 2015 the post-stratification was provided by area level (NUTS 3 level), by five-years age groups (14 groups) and by sex (two groups).

Estimation - In order to obtain representative results of the observed general population, sample weights were appended for each household and person in the sample. The major component of the weight is the reciprocal value of the product of the probabilities of selection at every stage in each sampling stratum and represents base weight (design weight). The second component of the weight takes into account the level of non-response for the household. After the completion of fieldwork, response rates were calculated. These were used to adjust the design weights calculated for each enumeration area. In 2016 the system of estimation was changed by introducing more conditions that need to be met when calculating final weights. The final weight for a person and household is calculated on the basis of the corrected weight for a household by calibration.

Questionnaires

Overview

The questionnaire is the main tool for obtaining responses. In 2015, laptops are used in field work and telephones in the call centre. The source of data is the responses provided to interviewers. The survey is based on reporting method by means of the questionnaire ITR, which is to be filled in by every enterprise in the sample. The questionnaire is to be filled in for the enterprise as a whole, i.e. as total for all organisational parts, whether located on the same or another address.

Computer Assisted Telephone Interview [cati]

Data Collection Notes

Starting from 1999 the Statistical Office of the Republic of Serbia has not at disposal and may not provide available certain data relative to AP Kosovo and Metohia and therefore these data are not included in the coverage for the Republic of Serbia (total). The survey is carried out every four year, and the accounting period is the previous financial year. The main source for data collection is accounting records of enterprises about paid earnings and other labour costs as well as other human resources and hours worked records. Each quarter more than 1.7 million interviews are conducted throughout the participating countries to obtain statistical information for some 100 variables. The sampling rates in the various countries vary between 0.2 % and 2.1 %. For the third quarter the period of observation included 13 referent weeks - from 4 July to 2 October 2016, while the period of interviews for the whole quarter extended from 11 July to 16 October 2016.

Questionnaires

The questionnaire is the main tool for obtaining responses. In 2015, laptops are used in field work and telephones in the call centre. The source of data is the responses provided to interviewers. The survey is based on reporting method by means of the questionnaire ITR, which is to be filled in by every enterprise in the sample. The questionnaire is to be filled in for the enterprise as a whole, i.e. as total for all organisational parts, whether located on the same or another address.

Supervision

Supervisors and trainers, who play an important role, oversee interviewers work. Supervisors are the primary link between the survey management team (trainers) in the Statistical Office of the Republic of Serbia and the interviewers themselves; they are responsible for the field work, call centre and work quality. All the participants have clearly defined tasks and duties within a timetable. Every one of them should do their best and secure the realization of quality field work, in the scope of their duties.

Supervisors should oversee and control interviewers' work, inform the trainers about potential problems on the field and in the call-centre, as well as report regularly about each interviewer's work. Supervisors are under trainers' supervision. To do additional control of conducted surveys supervisors re-call at a later date the households. This way a certain percentage of interviewed households of each interviewer are checked, incorrect data are corrected and the work of each interviewer is evaluated.

Supervisors and trainers, who oversee interviewers' work and the materials, are provided with a web application that is up-dated every three hours, and which allows controlling the reception of field materials, interviewers' output and other data that can be indicative of potential problems during the conduction of this Survey.

Data Processing

Data Editing

Data can be modified and edited in the course of the survey/interview. If an interviewer wants to modify the initial respondent's answer when she/he sees there has been an error, she/he can do it on site. Upon the arrival of data in the head office, additional control is to be done, as well as the coding of occupations, economic activities and fields of education. Editing and processing phases refer to detecting logically incompatible information, as well as to their modification. Logical control in data entry is incorporated in the application, thus disabling the interviewer to enter illogical data and as such limiting such cases to the minimum. Logical control recognizes obvious incompatibilities (e.g. a respondent aged 15 who worked for the last time in 1940). If the value is suspicious but reasonable, the programme will alert the interviewer to check the entered data and confirm them if they are correct. This way error in data entry is prevented.

Other Processing

The tool for data collection in LFS is the electronic questionnaire, which is both used by interviewers doing the telephone interview (CATI) and those working on the field (CAPI). Utilising the electronic questionnaire saves time and money needed for data entry and processing. All the interviewers use the same questionnaire, but logical control (implemented to reduce as much as possible the number of errors in data entry) is not the same for telephone interview and field work.

Logical control for CAPI is lighter because it is reckoned that an interviewer should stay on in the household as little time as possible, thus they do not enter the codes of occupations, economic activities and field of education, but only describe the requested information. Coding and complete logical control of field work materials are performed after data entry in the central database located on the server of the Statistical Office of the Republic of Serbia in the Computer Centre. The data collected by telephone interview are directly registered in the central database, and then coded. Full logical control is applied for them during data entry. The data collected by interviewers on the field are to be entered locally in the portable computer during the interviews as there is no equally good Internet access on the whole territory of the Republic of Serbia. Field interviewers, upon completed interview, send as soon as they can have stable connection to the Internet through a supporting application the gathered data to the unique database for data reception from the field, which is also located in the Computing Centre of the Statistical Office of the Republic of Serbia.

Once the time for data entry for the reference week elapsed, one checks whether all the materials for that reference week have arrived from the field, and if need be, one contacts the interviewers whose materials are missing. Upon gathering the materials for the reference week, those are transferred to the central database for coding and additional checking. Before the implementation of the electronic questionnaire the interviewer collected information on a paper questionnaire. The data from the latter were entered by regional offices and head office in Belgrade, directly in the central database. The application that was used for the input of those data is the old version of the electronic questionnaire now being in use for telephone interviews.

The Statistical Office of the Republic of Serbia and the Institute of Statistics and Informatics of Belgrade is in charge of the preparation, organisation and carrying out of this survey, as well as of data processing. The persons directly involved in the survey are: interviewers, supervisors and trainers. In coding and processing the data of this Survey, used are the following classifications:

1. Classification of Activities, which is comparable with the UN classification of activities (ISIC - rev. 4) and EU classification (NACE, rev. 2),
2. Classification of occupations, which is comparable with the International Standard Classification of Occupations (ISCO 08),
3. List of schools, which is comparable with international levels of education and training (ISCED 2011), and
4. Classification employees' employment status, which is comparable with the International Classification in Employment (ICSE).

Data Appraisal

Estimates of Sampling Error

Sampling errors are published for the main population features only (tables A and B). Along with coefficient of variation (CV), as relative measures of estimation reliability (%), provided are also 95% intervals of confidence for the parameters. Sampling errors are a measure of the variability between the estimates from all possible samples. The extent of variability is not known exactly, but can be estimated statistically from the survey data. To estimate sampling errors calculated are standard errors, coefficients of variation and confidence intervals for parameters, as a precision measures.

Other forms of Data Appraisal

In the dissemination phase it is not possible to publish each estimate with its sampling error. In order to provide users to evaluate the precision of the estimates, approximate values of sampling errors have been calculated based on regression model (Generalized Variance Function method), which parameters are obtained through ReGenesees software. Tables with approximate values of sampling errors for totals and means, method of using the tables and calculation of the CVs for rate and change was prepared according to the "Guide to the Labour Force Survey" of Statistics Canada.

V48	count0	Country of residence of the respondent one year ago - text	discrete	character	
V49	CILJPOP	Does the respondent belong to the target population?	discrete	numeric	
V50	PREKO15G	Does the respondent have 15 years of age or more?	discrete	numeric	
V51	PROXY	Who provides the information	discrete	numeric	
V52	POSPLATA	During the reference week did you perform any work for pay or profit for at least 1 hour, even if you have not actually received the mentioned payment yet?	discrete	numeric	
V53	POPOC	Did you spend any time during the reference week in the process of setting-up your own business from which your household could earn a profit (in cash or in kind), or in the process of building a house which you plan to sell or rent?	discrete	numeric	
V54	POSNEPL	During the reference week did you perform any unpaid work for the entrepreneur who is also your household member or worked on a farm owned by a member of your family, and on which the owner earns profit?	discrete	numeric	
V55	POSPOLJ	Were you engaged in an agricultural production (on your own or someone else farm) during the reference week or/and were you involved in fishing, hunting, gathering of products such as snails, mushrooms, firewood, herbs, etc.?	discrete	numeric	
V56	PRODAJA	Are the mentioned products (in which production or gathering you were engaged) mainly or at least partially sold?	discrete	numeric	
V57	ODSUTVL	Do you have your own business, farm or a professional practice, from which you were absent during the reference week, but to which you plan to return at later date?	discrete	numeric	
V58	MASINE	In your work do you use any machinery or equipment of significant value in which you yourself have invested money?	discrete	numeric	
V59	KANCEL	In your work do you use an office, shop, farm or any other working place where you could perform your work?	discrete	numeric	

ID	Name	Label	Type	Format	Question
V60	REKLAMA	In your work do you use advertising or publishing services?	discrete	numeric	
V61	ODSRADNIK	Do you have a job at which you earn a salary but from which you were absent during the reference week?	discrete	numeric	
V62	GARANCIJAR	Is there an assurance that you could resume work after the end of the absence period (you have a contract or agreement on the matter)?	discrete	numeric	
V63	ODSPOMCL	Do you have a unpaid job (for the entrepreneur who is also your household member) but from which you were absent during the reference week?	discrete	numeric	
V64	POVRATAK	Does the member of your household for whom you work is obligated to accept your returning to work?	discrete	numeric	
V65	RAZLNERAD	Why didn't you work during the reference week?	discrete	numeric	
V66	NOWKREAS	Reason for absence from work	discrete	numeric	
V67	UKTRAJODS	Total duration of absence (from the the last day you worked till the day you plan to resume work)	discrete	numeric	
V68	ZARADA50	What is the amount of your monthly net salary you received during your work absence?	discrete	numeric	
V69	EXIST2J	Did you have an another (additional) job during the reference week	discrete	numeric	
V70	DRZRADA	The country in which the respondent works	discrete	numeric	
V71	NAZDRZRADA	The country in which the respondent works	discrete	character	
V72	nazdr0	The country in which the respondent works	discrete	character	
V73	OPSTINAWTXT	Municipality in which the respondent works - text	discrete	character	
V74	OPSTINAW	Municipality in which the respondent works - code	discrete	character	
V75	REGIONW_NUTS2	REGIONW_NUTS2	discrete	character	
V76	ISCO4D	Occupation - code	discrete	numeric	
V77	ISCO4DTXT	Occupation - text	discrete	character	
V78	isco40	Occupation - text	discrete	character	
V79	NACE3D	Economic activity (local units) - code	discrete	numeric	
V80	NACE3DTXT	Economic activity (local units) - text	discrete	character	
V81	nace30	Economic activity (local units) - text	discrete	character	
V82	PRAVAPRIH	What rights are you entitled to at your work - Revenue, wages, profit, etc	discrete	numeric	
V83	PRAVAPENZ	What rights are you entitled to at your work - Pension insurance	discrete	numeric	
V84	PRAVAZDRAV	What rights are you entitled to at your work - Health insurance	discrete	numeric	
V85	PRAVABOL	What rights are you entitled to at your work - Sick leave	discrete	numeric	
V86	PRAVAODMOR	What rights are you entitled to at your work - Vacation	discrete	numeric	
V87	YSTARTWK	When did you started working on the current job - Year	discrete	character	
V88	MSTARTWK	When did you started working on the current job - Month (its filled in only if the respondent started working in 2012, 2013 or 2014)	discrete	character	
V89	UKUPANRAD1	How many years in total have you worked (if its less than 1 year write 0)	contin	numeric	
V90	SVOJINA	In what kind of ownership do you work in	discrete	numeric	
V91	STAPRO	What is your professional status at work?	discrete	numeric	
V92	ZAPDRRAD	Do you employ other employees?	discrete	numeric	

ID	Name	Label	Type	Format	Question
V93	BRZAPRAD	How many employees do you employ?	contin	numeric	
V94	SUPVISOR	During work are you obliged to supervise the work of at least one employee (excluding apprentices/trainees)?	discrete	numeric	
V95	PREDRAD	In what kind of institution do you work and do you have a written contract	discrete	numeric	
V96	TEMPAGCY	Do you have a contract with a temporary employment agency?	discrete	numeric	
V97	TEMP	What is the permanency of the job?	discrete	numeric	
V98	TEMPREAS	Why do you work for limited duration, seasonally or temporarily?	discrete	numeric	
V99	TEMPDUR	What is the total duration of your work that is of limited duration, seasonal job or temporary job?	discrete	numeric	
V100	INCDECIL_TACNO	What was your net salary in the previous month - exact amount	contin	numeric	
V101	INCDECIL	What was your net salary in the previous month - intervals	discrete	numeric	
V102	SHIFTWK	Do you do shift work?	discrete	numeric	
V103	WAYJFOUN	How did you hear of this job? (only those that were employed in the last 12 months respond to this question)	discrete	numeric	
V104	PREKOV	Did you work overtime during the reference week?	discrete	numeric	
V105	HWOVERPU	How many unpaid overtime hours did you work during the reference week?	contin	numeric	
V106	HWOVERP	How many paid overtime hours did you work during the reference week?	contin	numeric	
V107	HWUSUAL	How many hours do you usually work at this job?	contin	numeric	
V108	HWACTUAL	How many hours did you work during the reference week?	contin	numeric	
V109	HOURREAS	Reason why your actual and usual working hours are different	discrete	numeric	
V110	EVENWK	In the last 4 weeks did you work - in the evening (18-22h)	discrete	numeric	
V111	NIGHTWK	In the last 4 weeks did you work - at night (22-06h)	discrete	numeric	
V112	SATWK	In the last 4 weeks did you work - on Saturdays	discrete	numeric	
V113	SUNWK	In the last 4 weeks did you work - on Sundays	discrete	numeric	
V114	HOMEWK	In the last 4 weeks did you work - at home	discrete	numeric	
V115	GDERADITE	Where do you work?	discrete	numeric	
V116	SIZEFIRM	Number of persons working with you in the local unit (the respondent must include himself in the sum)	discrete	numeric	
V117	FTPT	Do you work full-time or part-time	discrete	numeric	
V118	FTP TREAS	Reason for working part-time	discrete	numeric	
V119	NEEDCARE1	Reason for personally looking after children or incapacitated adults	discrete	numeric	
V120	WISHMORE	Would you be willing to work more hours weekly than you do now (with corresponding salary increase)?	discrete	numeric	
V121	WAYMORE	In what way would you wish to work more hours?	discrete	numeric	
V122	RADVISSATI	If offered an opportunity, could you start working more hours within the next 2 weeks?	discrete	numeric	
V123	AVAI REASEMP	Reason why you could not start working more hours within the next 2 weeks	discrete	numeric	
V124	HWWISH	How many hours would you like to work weekly?	contin	numeric	
V125	EXIST2JPROV	Did you have another (additional) job during the reference week - it is filled automatically based on EXIST2J	discrete	numeric	
V126	STAPRO2J	What is your professional status at your additional job?	discrete	numeric	

ID	Name	Label	Type	Format	Question
V127	HWACTUA2	How many hours did you work at the additional job during the reference week?	contin	numeric	
V128	NACE2J2D	Economic activity (local units) at additional job - code	discrete	numeric	
V129	NACE2J2DTXT	Economic activity (local units) at additional job - text	discrete	character	
V130	NACE2J2D_tekst	Economic activity (local units) at additional job - manual entry of text	discrete	character	
V131	nace20	Economic activity (local units) at additional job - manual entry of text	discrete	character	
V132	nace21	Economic activity (local units) at additional job - manual entry of text	discrete	character	
V133	nace22	Economic activity (local units) at additional job - manual entry of text	discrete	character	
V134	LOOKOJ	Did you look for additional job during the previous 4 weeks?	discrete	numeric	
V135	LOOKREAS	Reason for looking for additional job	discrete	numeric	
V136	EXISTPR	Have you ever worked before?	discrete	numeric	
V137	UKUPANRAD2	How many years in total have you worked (if its less than 1 year write 0)	contin	numeric	
V138	YEARPR	When did you stop working on your last job (including military and community service) - Year	discrete	character	
V139	MONTHPR	When did you stop working on your last job (including military and community service) - Month (its filled in only if the respondent started working in 2012, 2013 or 2014)	discrete	character	
V140	LEAVREAS	Main reason for leaving work	discrete	numeric	
V141	STAPROPR	What was your professional status at the last job you worked?	discrete	numeric	
V142	ISCOPR3D	Occupation at the last job you worked - code	discrete	numeric	
V143	ISCOPR3DTXT	Occupation at the last job you worked - text	discrete	character	
V144	iscop1	Occupation at the last job you worked - text	discrete	character	
V145	ISCOPR3D_tekst	Occupation at the last job you worked - manual entry of text	discrete	character	
V146	iscop0	Occupation at the last job you worked - manual entry of text	discrete	character	
V147	NACEPR2D	Economic activity (local units) at the last job you worked - code	discrete	numeric	
V148	NACEPR2DTXT	Economic activity (local units) at the last job you worked - text	discrete	character	
V149	NACEPR2D_tekst	Economic activity (local units) at the last job you worked - manual entry of text	discrete	character	
V150	nacep0	Economic activity (local units) at the last job you worked - manual entry of text	discrete	character

V185	NACE1Y2D_tekst	Economic activity (local units) at the job you worked 1 year ago - manual entry of text	discrete	character	

ID	Name	Label	Type	Format	Question
V186	REGISTER	Are you registered at the National Employment Office?	discrete	numeric	
V187	HATLEVEL	Highest educational attainment/training	discrete	numeric	
V188	HATYEAR	Year when the highest education/training was completed	discrete	character	
V189	HATFIELD_tekst	Field of the highest educational attainment /completed training - manual entered text	discrete	character	
V190	hatfi1	Field of the highest educational attainment /completed training - manual entered text	discrete	character	
V191	HATFIELD	Field of the highest educational attainment /completed training - code	discrete	character	
V192	HATFIELDTXT	Field of the highest educational attainment /completed training - text	discrete	character	
V193	hatfi0	Field of the highest educational attainment /completed training - text	discrete	character	
V194	PISMENOST	Can you read and write	discrete	numeric	
V195	EDUCSTAT	Did you attend a school belonging to the system of regular education in the previous 4 weeks?	discrete	numeric	
V196	EDUCLEVEL	What education level did you attain?	discrete	numeric	
V197	COURATT	Did you attend training outside the regular education system (course, seminar, conference, private lessons, etc.) during the previous 4 weeks?	discrete	numeric	
V198	COURFIELD_tekst	Field of education/training outside the regular education system respondent attended - manual entered text	discrete	character	
V199	courf1	Field of education/training outside the regular education system respondent attended - manual entered text	discrete	character	
V200	courf2	Field of education/training outside the regular education system respondent attended - manual entered text	discrete	character	
V201	courf3	Field of education/training outside the regular education system respondent attended - manual entered text	discrete	character	
V202	COURFIELD	Field of education/training outside the regular education system respondent attended - code	discrete	character	
V203	COURFIELDTXT	Field of education/training outside the regular education system respondent attended - text	discrete	character	
V204	courf0	Field of education/training outside the regular education system respondent attended - text	discrete	character	
V205	COURLEN	How many hours did you spend at this training (course, seminar, conference, private lessons, etc.) during the previous 4 weeks ?	contin	numeric	
V206	COURPURP	Does this training relate to business or pleasure?	discrete	numeric	
V207	COURWORH	When did this training take place?	discrete	numeric	
V208	FINANSITU	What is the financial situation of your household, in your opinion?	discrete	numeric	
V209	PRIHOD	How much is your household income - approximately (sum from all household members income)	contin	numeric	
V210	SARADNJA	Cooperation of the household	discrete	numeric	
V211	WSTATOR1	WSTATOR	discrete	numeric	
V212	PSTATUS1	PSTATUS	discrete	numeric	
V213	Lica_15_i_vise	Persons aged 15 or more	discrete	numeric	
V214	Region	Region	discrete	numeric	
V215	Total	Total	discrete	numeric	
V216	Zanimanje	Occupation classified - on main job	discrete	numeric	

ID	Name	Label	Type	Format	Question
V217	ZanimanjePP	Occupation classified - on previous job	discrete	numeric	
V218	Sektor1	Economic activity classified - on main job	discrete	numeric	
V219	Sektor1DP	Economic activity classified - on additional job	discrete	numeric	
V220	Sektor1PP	Economic activity classified - on previous job	discrete	numeric	
V221	Sektor1PRG	Economic activity classified - on a job 1 year ago	discrete	numeric	
V222	pon_lica	Weight - person	discrete	numeric	
V223	HatLevel1	Highest educational attainment/training	discrete	numeric	
V224	Rano_napustanje_skole	Early school leavers	discrete	numeric	
V225	NEET	NEETs (not in education nor in employment)	discrete	numeric	
V226	Starosne_grupe	Age groups	discrete	numeric	
V227	Grupe_starosti	Groups of age	discrete	numeric	
V228	Aktivni	Active	discrete	numeric	
V229	Zaposleni	Employed	discrete	numeric	
V230	Nezaposleni	Unemployed	discrete	numeric	
V231	Neaktivni	Inactive	discrete	numeric	
V232	Obrazovni_nivo	Educational level	discrete	numeric	

Person ID (PNUM)

Type: Discrete	Valid cases: 12837
Format: numeric	Invalid: 20462
Width: 8	
Decimals: 2	
Range: 0-21	

Economic activity classified - on additional job (Sektor1DP)

File: SRB_2016_LFS_Q3_v01_M_SPSS

Overview

Type: Discrete	Valid cases: 1006
Format: numeric	Invalid: 32293
Width: 8	
Decimals: 2	
Range: 1-21	

Economic activity classified - on previous job (Sektor1PP)

File: SRB_2016_LFS_Q3_v01_M_SPSS

Overview

Type: Discrete	Valid cases: 5018
Format: numeric	Invalid: 28281
Width: 8	
Decimals: 2	
Range: 1-21	

Economic activity classified - on a job 1 year ago (Sektor1PRG)

File: SRB_2016_LFS_Q3_v01_M_SPSS

Overview

Type: Discrete	Valid cases: 9433
Format: numeric	Invalid: 23866
Width: 8	
Decimals: 2	
Range: 1-21	

Weight - person (pon_lica)

File: SRB_2016_LFS_Q3_v01_M_SPSS

Weight - person (pon_lica)

File: SRB_2016_LFS_Q3_v01_M_SPSS

Overview

Type: Discrete
 Format: numeric
 Width: 8
 Decimals: 2
 Range: 1-2971.11566290593

Valid cases: 33299
 Invalid: 0

Highest educational attainment/training (HatLevel1)

File: SRB_2016_LFS_Q3_v01_M_SPSS

Overview

Type: Discrete
 Format: numeric
 Width: 8
 Decimals: 2
 Range: 1-6

Valid cases: 29006
 Invalid: 4293

Early school leavers (Rano_napustanje_skole)

File: SRB_2016_LFS_Q3_v01_M_SPSS

Overview

Type: Discrete
 Format: numeric
 Width: 8
 Decimals: 2
 Range: 1-1

Valid cases: 8637
 Invalid: 24662

NEETs (not in education nor in employment) (NEET)

File: SRB_2016_LFS_Q3_v01_M_SPSS

Overview

Type: Discrete
 Format: numeric
 Width: 8
 Decimals: 2
 Range: 1-1

Valid cases: 13841
 Invalid: 19458

Age groups (Starosne_grupe)

File: SRB_2016_LFS_Q3_v01_M_SPSS

Overview

Type: Discrete
 Format: numeric
 Width: 8
 Decimals: 2
 Range: 1-13

Valid cases: 29006
 Invalid: 4293

Groups of age (Grupe_starosti)

File: SRB_2016_LFS_Q3_v01_M_SPSS

Groups of age (Grupe_starosti)

File: SRB_2016_LFS_Q3_v01_M_SPSS

Overview

Type: Discrete	Valid cases: 29006
Format: numeric	Invalid: 4293
Width: 8	
Decimals: 2	
Range: 1-6	

Active (Aktivni)

File: SRB_2016_LFS_Q3_v01_M_SPSS

Overview

Type: Discrete	Valid cases: 14784
Format: numeric	Invalid: 18515
Width: 8	
Decimals: 2	
Range: 1-1	

Employed (Zaposleni)

File: SRB_2016_LFS_Q3_v01_M_SPSS

Overview

Type: Discrete	Valid cases: 12837
Format: numeric	Invalid: 20462
Width: 8	
Decimals: 2	
Range: 1-1	

Unemployed (Nezaposleni)

File: SRB_2016_LFS_Q3_v01_M_SPSS

Overview

Type: Discrete	Valid cases: 1947
Format: numeric	Invalid: 31352
Width: 8	
Decimals: 2	
Range: 1-1	

Inactive (Neaktivni)

File: SRB_2016_LFS_Q3_v01_M_SPSS

Overview

Type: Discrete	Valid cases: 14222
Format: numeric	Invalid: 19077
Width: 8	
Decimals: 2	
Range: 1-1	

Educational level (Obrazovni_nivo)

File: SRB_2016_LFS_Q3_v01_M_SPSS

Educational level (Obrazovni_nivo)

File: SRB_2016_LFS_Q3_v01_M_SPSS

Overview

Type: Discrete
Format: numeric
Width: 8
Decimals: 2
Range: 1-4

Valid cases: 29006
Invalid: 4293
