Overview

ABSTRACT

The National Sample Survey Office (NSSO) conducts regular consumer expenditure surveys as part of its "rounds", each round being normally of a year's duration and covering more than one subject of study. The surveys are conducted through household interviews, using a random sample of households covering practically the entire geographical area of the country. Surveys on consumer expenditure are being conducted quinquennially on a large sample of households from the 27th round (October 1972 - September 1973) onwards. Apart from these quinquennial surveys, the NSSO collected information on consumer expenditure from a smaller sample of households since 42nd round (July 1986 - June 1987). Nowadays every round of NSS includes a consumer expenditure survey (CES), giving rise to an annual series of consumption data. The 63rd round survey is the eighteenth in the annual series of surveys of household consumer expenditure. It was conducted during July 2006 to June 2007. Household consumer expenditure is measured as the expenditure incurred by a household on domestic account during a specified period, called reference period. It includes the imputed values of goods and services, which are not purchased but procured otherwise for consumption. In other words, it is the sum total of monetary values of all the items (i.e. goods and services) consumed by the household on domestic account during the reference period. The imputed rent of owner-occupied houses is excluded from consumption expenditure. Any expenditure incurred towards the productive enterprises of the households is also excluded from household consumer expenditure. The schedule also collected some other household particulars including age, sex and educational level etc. of each household member.

KIND OF DATA

Sample survey data [ssd]

UNITS OF ANALYSIS

Randomly selected households based on sampling procedure and members of the household

Scope

NOTES

The NSSO surveys on consumer expenditure aim to measure the household consumer expenditure in quantitative terms disaggregated by various household characteristics.

The data for this survey is collected in the NSS Schedule 1.0 used for household consumer expenditure. For this round, the schedule had 11 blocks.

Blocks 0, 1 and 2 - are similar to the ones used in usual NSS rounds. These are used to record identification of sample households and particulars of field operations.

Block-3: Household characteristics like, household size, principal industry-occupation, social group, land possessed and cultivated, type of dwelling etc. are recorded in this block.

Block-4: In this Block the detailed demographic particulars including age, sex, educational level, marital status, number of meals usually taken in a day etc. are recorded.

Block-5: In this block cash purchase and consumption of food, pan, tobacco and intoxicants during the last 30 days are recorded.

Block-6: In this block consumption of fuel & light during the last 30 days is recorded.

Block-7: Consumption of clothing, bedding, etc. during the last 365 days is recorded in this block.

Block-8 : Consumption of footwear during the last 365 days is recorded in this block.

Block-9 : Expenditure on education and medical (institutional) goods and services during the last 365 days is recorded in Block 9.

Block-10 : Expenditure on miscellaneous goods and services including medical (non-institutional), rents and taxes during the last 30 days has been recorded in this block.

Block-11 : Expenditure for purchase and construction (including repair and maintenance) of durable goods for domestic use during the last 365 days has been recorded in this block.

Coverage

GEOGRAPHIC COVERAGE

The survey covered the whole of the Indian Union except (i) Leh (Ladakh) and Kargil districts of Jammu & Kashmir (central sample), (ii) interior villages of Nagaland situated beyond five kilometres of the bus route and (iii) villages in Andaman and Nicobar Islands which remain inaccessible throughout the year.

UNIVERSE

The survey used the interview method of data collection from a sample of randomly selected households and members of the household.

Sampling

Sampling Procedure

Sample Design

A stratified multi-stage design has been adopted for the 63rd round survey. The first stage units (FSU) will be the 2001 census villages (Panchayat wards in case of Kerala) in the rural sector and Urban Frame Survey (UFS) blocks in the urban sector. In addition, for the newly declared towns and out growths (OGs) in census 2001 for which UFS has not yet been done, a separate list has been prepared and these list has been used as a frame for such towns and OGs in urban sector. For these towns and OGs the whole town/ OG will be considered as FSU. The ultimate stage units (USU) will be households/ service sector enterprises, in both the sectors. In the case of large villages/ towns/ blocks requiring hamlet-group (hg)/ sub-block (sb) formation, one intermediate stage will be the selection of hgs/ sbs from each FSU.

Sampling frame:

The list of villages as per census 2001 has been used as frame for the rural sector.

In the urban sector, three kinds of frames have been used:

- (a) For the 27 towns with population 10 lakhs or more (as per Census 2001), EC-98 has been used as frame.
- (b) For other UFS towns, the latest available list of UFS blocks has been used as frame.
- (c) For non-UFS towns list of such towns/ OGs has been used as frame.

Stratification:

Within each district of a State/ UT, two basic strata were formed:

- (i) rural stratum comprising of all rural areas of the district and
- (ii) urban stratum comprising of all the urban areas of the district. However, if there were one or more towns with population 10 lakhs or more as per population census 2001 in a district, each of them also formed a separate basic stratum and the remaining urban areas of the district was considered as another basic stratum. There are 27 towns with population 10 lakhs or more at all-India level as per census 2001.

Formation of Second Stage Strata and allocation of households for schedule 1.0:

For rural sector in each selected village/ segments, three second stage strata (SSS) namely SSS 1, SSS 2 & SSS 3 are formed. Households with any member who worked for at least one day in any public works scheme of Govt. during last 365 days constitute SSS 1. Out of the remaining households SSS 2 and SSS 3 are formed on the basis of land possessed by household.

A cut-off point 'X' (in hectares) is determined at State/UT level from NSS 59th round data in such a way that top 20% of the rural households possessed land equal to or more than X. Out of the remaining (other than SSS 1) households all the listed households possessing land less than X will be in SSS 2 and the rest of the households will be in SSS 3.

For urban sector in each selected block/ segments, two second stage strata (SSS) namely SSS 2 & SSS 3 (there is no SSS 1 for urban sector) are formed on the basis of household MPCE.

In the urban sector, a cut-off point 'A' (in Rs.) is determined at NSS state-region level from NSS 61st round data in such a way that top 20% of the households had MPCE equal to or more than 'A'. All the listed households with MPCE less than 'A' will be in SSS 2 while the rest of the households will be in SSS 3.

From each SSS, the sample households were selected by SRSWOR.

Deviations from Sample Design

There was no deviation from the original sampling design.

Weighting

Two different weights have been provided in each file in the data set. Details are as follows:-

1. Weight for each sub sample is stored in the variable name : Wgt_SubSample
2. Combined subsample weight is stored in the variable name : Wgt_Combined

Questionnaires

Overview

Summary description of the schedule 1.0 on consumer expenditure is given below.

Blocks 0, 1 and 2 - are similar to the ones used in usual NSS rounds. These are used to record identification of sample households and particulars of field operations.

Block-3: Household characteristics like, household size, principal industry-occupation, social group, land possessed and cultivated, type of dwelling etc. are recorded in this block.

Block-4: In this Block the detailed demographic particulars including age, sex, educational level, marital status, number of meals usually taken in a day etc. are recorded.

Block-5: In this block cash purchase and consumption of food, pan, tobacco and intoxicants during the last 30 days are recorded.

Block-6: In this block consumption of fuel & light during the last 30 days is recorded.

Block-7: Consumption of clothing, bedding, etc. during the last 365 days is recorded in this block.

Block-8 : Consumption of footwear during the last 365 days is recorded in this block.

Block-9 : Expenditure on education and medical (institutional) goods and services during the last 365 days is recorded in Block 9.

Block-10 : Expenditure on miscellaneous goods and services including medical (non-institutional), rents and taxes during the last 30 days has been recorded in this block.

Block-11 : Expenditure for purchase and construction (including repair and maintenance) of durable goods for domestic use during the last 365 days has been recorded in this block.

Literal question

District

Interviewer instructions

District to which the sample village/ block belongs to will be recorded here as per the code list.

Unique identifier for a district (St_District)

File: Blocks 1,2_ Identification of Sample Household

Overview

Type: Discrete

Valid cases: 63729

Format: character

Invalid: 0

Width: 4

Stratum Number (Stratum)

File: Blocks 1,2_ Identification of Sample Household

Overview

Type: Discrete

Valid cases: 63729

Format: character

Invalid: 0

Width: 2

Description

Within each district of a State/ UT, two basic strata were formed:

(i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district. However, if there were one or more towns with population 10 lakhs or more as per population census 2001 in a district, each of them also formed a separate basic stratum and the remaining urban areas of the district was considered as another basic stratum.

Literal question

Stratum Number

Sub-Stratum (SubStratum)

File: Blocks 1,2_ Identification of Sample Household

Sub-Round (SubRound)

File: Blocks 1,2_ Identification of Sample Household

Overview

Type: Discrete
 Format: character
 Width: 1

Valid cases: 63729
 Invalid: 0

Description

The survey period of one year of this round was divided into four sub-rounds of three months duration. Equal number of sample villages and blocks were allotted for survey in each of these four sub-rounds.

Literal question

Sub-Round

Sub-Sample (SubSample)

File: Blocks 1,2_ Identification of Sample Household

Overview

Type: Discrete
 Format: character
 Width: 1

Valid cases: 63729
 Invalid: 0

Description

An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub-sample is drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate.

Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units.

The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.

Literal question

Sub-Sample

Interviewer instructions

Record 1 or 2 depending on whether the selected sample village/block is central sample or state sample

FOD Sub-Region (FODSubRegion)

File: Blocks 1,2_ Identification of Sample Household

Format: character

Invalid: 0

Width: 2

Literal question

Sl.No. of informant (Informant_Slno)

File: Blocks 1,2_ Identification of Sample Household

Sl.No. of informant

Interviewer instructions

The srl. no. of the person recorded in column 1 of block 4, Schedule 1.0 from whom the bulk of the information is collected will be entered. Information has to be collected from one of the household members. In an extreme case, information may be collected from a person other than the household member who is supposed to know all the requisite information. In such case, '99' should be recorded against this item.

Response Code (Resp_Code)

File: Blocks 1,2_ Identification of Sample Household

Overview

Type: Discrete

Format: character

Width: 1

Valid cases: 63729

Invalid: 0

Description

The entry against this item has been made after collecting all the required information for all the items in the schedule. The entry has been in code on the basis of the impression formed by the investigator regarding overall quality of response of the informant and the informant's perception about the schedule.

Literal question

Response Code

Interviewer instructions

This item is to be filled in at the end of the interview. It is meant to classify the informant according to the degree of his co-operation as well as his capability to provide the required information. The codes are:

informant: co-operative and capable..... 1 busy..... 3

co-operative but not capable..... 2 reluctant..... 4

others..... 9

Survey Code (Survey_Code)

File: Blocks 1,2_ Identification of Sample Household

Overview

Type: Discrete

Format: character

Width: 1

Valid cases: 63729

Invalid: 0

Description

The item records whether the originally selected household or a substitute household has been surveyed or no household could be surveyed. The entries have been made in terms of codes. Code 1 has been recorded when originally selected household is surveyed and code 2 has been recorded when a substitute household is surveyed. If neither the originally selected household nor a substitute household could be surveyed, i.e. if the sample household is a casualty, code 3 has been recorded.

Literal question

Survey Code

Interviewer instructions

Whether the originally selected sample household has been surveyed or a substituted household has been surveyed will be indicated against this item by recording '1', if the sample household is the one originally selected, and '2', if it is a substituted household. If neither the originally selected household nor the substituted household could be surveyed i.e., if the sample household is a casualty, code '3' will be recorded. In such cases only blocks 0, 1, 2, 14 and 15 will be filled in and on the top of the front page of the schedule the word 'CASUALTY' will be written and underlined.

Substitution Code (Substn_Code)

File: Blocks 1,2_ Identification of Sample Household

Substitution Code (Substn_Code)

File: Blocks 1,2_ Identification of Sample Household

Overview

Type: Discrete

Valid cases: 3072

Format: character

Invalid: 0

Width: 1

Description

If the originally selected household could not be surveyed, irrespective of whether a substituted household could be surveyed or not, the reason for the one originally selected becoming a casualty has been recorded against this item in terms of codes.

Literal question

Substitution Code

Interviewer instructions

In case the originally selected sample household could not be surveyed, the reason for not surveying the original household will be recorded against this item, irrespective of whether a substituted household could be surveyed or not. The codes are:

informant busy1
 members away from home2
 informant non-cooperative3
 others9

Stratum Number (Stratum)

File: Block 3_Household Characteristics

Overview

Type: Discrete

Format: character

Width: 2

Valid cases: 63729

Invalid: 0

Description

Within each district of a State/ UT, two basic strata were formed:

(i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district. However, if there were one or more towns with population 10 lakhs or more as per population census 2001 in a district, each of them also formed a separate basic stratum and the remaining urban areas of the district was considered as another basic stratum.

Description

The survey period of one year of this round was divided into four sub-rounds of three months duration. Equal number of sample villages and blocks were allotted for survey in each of these four sub-rounds.

Literal question

Sub-Round

Sub-Sample (SubSample)

File: Block 3_Household Characteristics

Overview

Type: Discrete

Format: character

Width: 1

Valid cases: 63729

Invalid: 0

Description

An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub-sample is drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate.

Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units.

The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.

Literal question

Sub-Sample

Interviewer instructions

Record 1 or 2 depending on whether the selected sample village/block is central sample or state sample

Household Size (B3_q1)

File: Block 3_Household Characteristics

Overview

Household Size (B3_q1)

File: Block 3_Household Characteristics

Type: Continuous	Valid cases: 63729
Format: numeric	Invalid: 0
Width: 2	Minimum: 1
Decimals: 0	Maximum: 38
Range: 1-38	Mean: 4.6
	Standard deviation: 2.4

Literal question

How many members are there in the household?

Interviewer instructions

The size of the sample household i.e., the total number of persons normally residing together (i.e., under the same roof) and taking food from the same kitchen (including temporary stay-aways and excluding temporary visitors) will be recorded against this item. This number will be the same as the last serial number recorded in column 1 of block 4.

NIC Code(5-digit) (B3_q2)

File: Block 3_Household Characteristics

Overview

Type: Discrete	Valid cases: 59243
Format: character	Invalid: 0
Width: 5	

Literal question

Which industry are you working in?

Interviewer instructions

The description of the principal household industry will be recorded in the space provided. The description of the principal industry should be recorded in as specific terms as possible based on the description given by the informant. In other words, the industry description should not be copied from the NIC booklet if the informant's description gives a clearer idea of the industrial activity which determines the principal industry of the household. The entry cell for item 2 has been split into five parts for recording each digit separately. The appropriate five-digit industry code of the NIC-2004 will be recorded here. For households deriving income from non-economic activities only, a dash (-) may be put against this item.

NCO Code(3-digit) (B3_q3)

File: Block 3_Household Characteristics

Overview

Type: Discrete	Valid cases: 47576
Format: character	Invalid: 0
Width: 3	

Literal question

Which occupation are you in?

Interviewer instructions

The description of the principal household occupation will be recorded in the space provided. As in case of principal household industry, the description of the principal occupation, too, should be recorded in as specific terms as possible based on the description given by the informant. In other words, the occupation description should not be copied from the NCO booklet if the informant's description gives a clearer idea of the principal occupation pursued by the household. The appropriate three-digit occupation code of the NCO-1968 is to be recorded in the entry cell, which has been trisected for recording each digit separately. For households deriving income from non-economic activities only, a dash (-) may be put against this item.

Household type (B3_q4)

File: Block 3_Household Characteristics

Overview

Household type (B3_q4)

File: Block 3_Household Characteristics

Type: Discrete

Valid cases: 63686

Format: character

Invalid: 0

Width: 1

Literal question

Household type

Interviewer instructions

The household type code based on the means of livelihood of a household will be decided on the basis of the sources of the household's income during the 365 days preceding the date of survey. For this purpose, only the household's income (net income and not gross income) from economic activities will be considered; but the incomes of servants and paying guests will not be taken into account.

For the rural areas, the selected household will be assigned the appropriate type code out of the following five different household type codes:

self-employed in non-agriculture..... 1 self-employed in agriculture 4
 agricultural labour2 others 9
 other labour 3

For urban areas, the household type codes are as follows:

self-employed - 1, regular wage/salary earning - 2, casual labour - 3, others - 9.

Household type with sector (HH_Type)

File: Block 3_Household Characteristics

Overview

Type: Discrete

Valid cases: 63729

Household type with sector

Religion (B3_q5)

File: Block 3_Household Characteristics

Overview

Type: Discrete

Valid cases: 63726

Format: character

Invalid: 0

Width: 1

Literal question

What is your religion?

Interviewer instructions

The religion of the household will be recorded against this item in code. If different members of the household claim to belong to different religions, the religion of the head of the household will be considered as the religion of the household. The codes are:

Hinduism 1 Jainism 5
 Islam 2 Buddhism 6
 Christianity 3 Zoroastrianism 7
 Sikhism 4 others 9

Social Group (B3_q6)

File: Block 3_Household Characteristics

Overview

Social Group (B3_q6)

File: Block 3_Household Characteristics

Type: Discrete

Valid cases: 63720

Format: character

Invalid: 0

Width: 1

Literal question

Which social group do you belong to?

Do you come under scheduled caste or scheduled tribe or others category?

Interviewer instructions

Whether or not the household belongs to scheduled tribe, scheduled caste or other backward class will be indicated against this item in terms of the specified codes which are:

scheduled tribe - 1, scheduled caste - 2, other backward class - 3, others - 9.

Those who do not come under any one of the first three social groups will be assigned code 9, meant to cover all other categories. In case different members belong to different social groups, the group to which the head of the household belongs will be considered as the 'social group' of the household.

Land possessed code (B3_q7)

File: Block 3_Household Characteristics

Overview

Type: Discrete

Valid cases: 63633

Format: character

Invalid: 0

Width: 2

Literal question

How much land do you own?

Interviewer instructions

The total land area possessed by the household as on the date of survey will be worked out and recorded against this item in code. The codes are:

class interval code class interval code
 less than 0.005 hectares 01 2.01 to 3.00 hectares 07
 0.005 to 0.01 " 02 3.01 to 4.00 " 08
 0.02 to 0.20 " 03 4.01 to 6.00 " 10
 0.21 to 0.40 " 04 6.01 to 8.00 " 11
 0.41 to 1.00 " 05 greater than 8.00 " 12
 1.01 to 2.00 " 06
 (1 acre » 0.4047 hectare and 1 hectare = 10,000 sq. metre)

Dwelling unit code (B3_q8)

File: Block 3_Household Characteristics

Overview

Type: Discrete

Valid cases: 63699

Format: character

Invalid: 0

Width: 1

Description

This item refers only to the dwelling unit or the actual residence of the sample household. The dwelling unit may be an entire structure or may be only a part of a structure.

Literal question

Do you own the dwelling unit? Or is it hired or otherwise occupied?

Interviewer instructions

Dwelling unit code (B3_q8)

File: Block 3_Household Characteristics

This item refers only to the dwelling unit or the actual residence of the sample household. The dwelling unit may be an entire structure or may be only a part of a structure. Accordingly, the investigator will ask the informant if it is owned, hired or otherwise occupied. If the occupant owns the dwelling unit, code 1 will be recorded against item 8. If it is taken on rent, code 2 will be entered and if it is occupied otherwise, code 9 will apply. However, if any household is found living under trees, bridges, in pipes, etc. it will not be treated as living in dwelling unit. For such households code 3 will be recorded. It may be noted that a dwelling unit constructed on a plot of land which is taken under long-term lease, usually 30 years or more, will be considered as being held in owner-like possession. Similarly, a dwelling unit itself possessed by a household under a long-term lease may be treated as in owner-like possession and code 1 will be applicable in such cases also. The codes for this item are given below:

owned 1
hired 2
no dwelling unit 3
others 9

Type of dwelling code (B3_q9)

File: Block 3_Household Characteristics

Overview

Type: Discrete	Valid cases: 63641
Format: character	Invalid: 0
Width: 1	

Literal question

What is the type of dwelling of the household? Is it an independent house or a flat or any other type of dwelling?

Interviewer instructions

The dwelling unit of the household may be an independent house, a flat, or neither of these. The appropriate code will be entered against the item. The codes are:

independent house 1
flat 2
others 9
no dwelling 3

Type of structure (B3_q10)

File: Block 3_Household Characteristics

Overview

Type: Discrete	Valid cases: 63643
Format: character	Invalid: 0
Width: 1	

Literal question

What is the type of structure of the dwelling?

Interviewer instructions

Structures have been classified into four categories, namely, pucca, semi-pucca, serviceable katcha and unserviceable katcha, on the basis of materials used for construction. This item is to be filled in code. The codes are:

pucca-1, semi-pucca-2, serviceable katcha -3, unserviceable katcha - 4, no structure-5.

Covered area (sq. m) (B3_q11)

File: Block 3_Household Characteristics

Overview

Covered area (sq. m) (B3_q11)

File: Block 3_Household Characteristics

Type: Continuous
 Format: numeric
 Width: 5
 Decimals: 0
 Range: 0-11392

Valid cases: 63635
 Invalid: 94
 Minimum: 0
 Maximum: 11392
 Mean: 53
 Standard deviation: 85.6

Literal question

How much is the covered area of the dwelling?

Interviewer instructions

This will be the sum of the floor areas of all the rooms, kitchen, etc., and verandah located in the house or inside the homestead land and occupied by the household. The covered area may be either owned (including owner-like possession) or rented. It should exclude area owned but rented out. The area will be recorded (to nearest integer) in square metre. The verandah will mean a roofed space adjacent to living/other rooms which is not walled from all sides, that is, with at least one side either open or walled to some height or protected by grille, net, etc. If entry against item 10 is 5, a dash (-) may be put against this item.

Cooking code (B3_q12)

File: Block 3_Household Characteristics

Overview

Type: Discrete
 Format: character
 Width: 1

Valid cases: 63699
 Invalid: 0

Literal question

What is the primary source of energy that is being used by the household for cooking?

Interviewer instructions

Against these two items, the code corresponding to the primary source of energy that is used by the household for cooking and the primary source of energy used for lighting during last 30 days preceding the date of survey will be recorded. If more than one type of energy is utilised, the primary or principal one on the basis of its extent of use will have to be identified and the corresponding code will be noted in the appropriate box. The codes are:

cooking: coke, coal and charcoal- 1, firewood and chips- 2, LPG- 3, gobar gas - 4, dung cake- 5, kerosene- 6, electricity- 7, others- 9, no cooking arrangement- 8

Lighting code (B3_q13)

File: Block 3_Household Characteristics

Overview

Type: Discrete
 Format: character
 Width: 1

Valid cases: 63688
 Invalid: 0

Literal question

What is the primary source of energy that is being used by the household for lighting?

Interviewer instructions

Against these two items, the code corresponding to the primary source of energy that is used by the household for cooking and the primary source of energy used for lighting during last 30 days preceding the date of survey will be recorded. If more than one type of energy is utilised, the primary or principal one on the basis of its extent of use will have to be identified and the corresponding code will be noted in the appropriate box. The codes are:

lighting: kerosene -1, other oil -2, gas - 3, candle - 4, electricity - 5, others -9, no lighting arrangement - 6

Monthly per capita expenditure (B3_q14)

File: Block 3_Household Characteristics

Overview

Type: Continuous	Valid cases: 63729
Format: numeric	Invalid: 0
Width: 8	Minimum: 21
Decimals: 2	Maximum: 92486.3
Range: 21-92486.26	Mean: 1311.7
	Standard deviation: 1314

Interviewer instructions

This item will be filled in only after completing blocks 5 to 12. It will be copied from column 6 of item srl. no. 37 of block 12. (The sum total of the relevant sub-total items (as indicated in block 12) adjusted for 30 days will be divided by the household size to obtain the monthly per capita expenditure.)

Performance of any ceremony last month (B3_q15)

File: Block 3_Household Characteristics

Overview

Type: Discrete	Valid cases: 63715
Format: character	Invalid: 0
Width: 1	

Description

Ceremonies are frequently performed to solemnize some events of life such as birth, marriage, etc. There are also rites consequent upon the death of a person. Such ceremonies may be performed by household members as required under the social/religious customs without incurring expenditure for entertaining guests. On the other hand, some households may spend a considerable amount of money for entertaining guests with meals during these occasions. Only the latter type of ceremony, in other words, only those ceremonies on which guests are entertained with meals (not just snacks) will be considered for the purposes of item 15 as ceremonies performed. Even an occasion which is not a traditional occasion for celebration or social gathering will be considered a ceremony if meals are served to a large number of guests by the household.

Literal question

Did the household perform any ceremony?

Interviewer instructions

If the household is found to have performed any ceremony during the last 30 days, code '1' will be recorded against this item. Otherwise, '2' will be recorded.

No. of meals served to non-hhold members last month (B3_q16)

File: Block 3_Household Characteristics

Overview

Type: Continuous	Valid cases: 12450
Format: numeric	Invalid: 51279
Width: 3	Minimum: 1
Decimals: 0	Maximum: 512
Range: 1-512	Mean: 2.5
	Standard deviation: 7.6

Literal question

How many meals were served to non household members by the household during the last 30 days?

Interviewer instructions

The total number of meals served to non-household members during the last 30 days will be recorded against this item.

Purchase any cereal from ration/ fair price shop last month (B3_q17)

File: Block 3_Household Characteristics

Overview

Type: Discrete

Format: character

Width: 1

Valid cases: 46157

Invalid: 0

Literal question

Did you purchase any cereal from ration or fair price shop last month?

Interviewer instructions

The answer against this question will be recorded in code. The codes are: yes-1, no-2. Purchase of foodgrains by workers from shops run by their employer at concessional or subsidised rates (this is prevalent, for example, in tea garden areas) will not be considered as purchase from ration/fair price shop.

Serial No. of members

Interviewer instructions

All the members of the sample household will be listed in block 4 using a continuous serial number in column (1). In the list, the head of the household will appear first followed by head's spouse, the first son, first son's wife and their children, second son, second son's wife and their children and so on. After the sons are enumerated, the daughters will be listed followed by other relations, dependants, servants, etc.

Relation to Head Code (B4_q3)

File: Block 4_Person records

OverviewType: Discrete
Format: character
Width: 1Valid cases: 291913
Invalid: 0**Literal question**

What is your relation to head of the household?

Interviewer instructions

The relationship of each member of the household to the head of the household (for the head, the relationship is 'self') will be recorded in this column. The codes are:

self 1 grandchild 6
 spouse of head..... 2 father/mother/father-in-law/mother- in-law ... 7
 married child 3 brother/sister/brother-in-law/sister-in-law
 spouse of married child .. 4 /other relatives..... 8
 unmarried child 5 servant/employees/other non-relatives 9

Sex Code (B4_q4)

File: Block 4_Person records

OverviewType: Discrete
Format: character
Width: 1Valid cases: 291913
Invalid: 0**Literal question**

Sex of the member

Interviewer instructions

The sex of each member of the household will be recorded in this column. For eunuchs, code '1' will be recorded.

Age (B4_q5)

File: Block 4_Person records

OverviewType: Continuous
Format: numeric
Width: 3
Decimals: 0Valid cases: 291913
Invalid: 0**Literal question**

Age (B4_q5)

File: Block 4_Person records

Age of the member

Interviewer instructions

The age in completed years of all the members listed will be ascertained and recorded in this column. For infants below one year of age, '0' will be entered. As in the previous round, ages above 99 will be recorded in three digits.

Marital Status Code (B4_q6)

File: Block 4_Person records

Overview

Type: Discrete

Format: character

Width: 1

Valid cases: 291863

Invalid: 0

Literal question

Marital status of the member

Interviewer instructions

The marital status of each member will be recorded in this column. The codes are: never married - 1, currently married - 2, widowed - 3, divorced/separated - 4.

General Education Code (B4_q7)

File: Block 4_Person records

Overview

Type: Discrete

Format: character

Width: 2

Valid cases: 291757

Invalid: 0

Literal question

Education of the member

Interviewer instructions

Information regarding the level of general education attained by the members of the household listed will be recorded in this column. For the purpose of making entries in this column, only the course successfully completed will be considered. For instance, for a person who has studied up to say, first year B.A., his/her educational attainment will be considered as higher secondary (code 07). For a person who has studied up to 12th standard but has not appeared for the final examination or has failed, his/her educational attainment will be considered under 'secondary' (code 06). The relevant codes to be used for recording entries in this column are: not literate -01, literate without formal schooling -02, literate but below primary -03, primary -04, middle -05, secondary -06, higher secondary -07, diploma/certificate course -08, graduate - 10, post graduate and above -11.

No. of days stayed away (B4_q8)

File: Block 4_Person records

Overview

Type: Continuous

Format: numeric

Width: 2

Decimals: 0

Range: 0-30

Valid cases: 79732

Invalid: 212181

Minimum: 0

Maximum: 30

Mean: 1.6

Standard deviation: 4.4

Literal question

How many days a member has stayed away from the household?

Interviewer instructions

No. of days stayed away (B4_q8)**File: Block 4_Person records**

The number of days for which the member 'stayed away from home' during the 30 days preceding the date of enquiry should be recorded here. A continuous absence from home for 24 hours will be reckoned as a 'day stayed away'. That is, the entry will be made in completed number of days and any fraction of a day will be ignored. The location of the place where the person stayed, having been away from his/her own household, may also be within the same village/town and staying away will not only mean physical absence but also non-participation in food consumption from his/her own household. For example, if a member stayed away for two days, but consumed food prepared at home during these two days, then that member will not be considered for this item as staying away. For members who did not stay away for even 1 day during the last 30 days, 0 will be recorded.

No. of Meals per day (B4_q9)**File: Block 4_Person records****Overview**

Type: Continuous
Format: numeric
Width: 1
Decimals: 0
Range: 0-3

Valid cases: 291650
Invalid: 263

Literal question

How many meals do you usually take in a day?

Interviewer instructions

The number of meals consumed by a person is usually reported as 2 or 3. For a person who takes food only once in a day, the entry will be 1. One may also come across a person who takes food more than three times a day. For such persons, however, only 3 should be entered. That is, in this column, the recorded number of meals taken in a day, even if it is reported to be higher, should not exceed 3. In addition, for infants of age '0' as well as for children who subsist on milk only, '0' may be recorded against this item.

Meals (School) (B4_q10)**File: Block 4_Person records****Overview**

Complaint to authority (B4_q20)

File: Block 4_Person records

Overview

Type: Discrete
 Format: character
 Width: 1

Valid cases: 5860
 Invalid: 0

Literal question

Did any member do complaint to authority?

Interviewer instructions

There are provisions in some schemes under the public works that a person, who is eligible to get public work but did not get it, not due to his/ her inability to get such work, but for reasons, entirely attributable to the authorities/ agencies entrusted with the task of executing the public work, may make a complaint to panchayat or BDO/ SDO/ other Govt. official. The complaint may be either written or oral. There may be cases where the household member had not complained but knew that there was provision for complaining, or the household member had not known that provision for complaining existed. Depending upon any one of the situations, obtained for a household member during the last 365 days, appropriate code will be assigned as follows:

yes: complained to panchayat 1
 complained to BDO/ SDO/ other Govt. official 2
 no: new that there was provision for complaining but did not complain..... 3
 did not know that there was provision for complaining..... 4

In the cases where more than one public works were undertaken in and around the locality during the last 365 days, the situation for the household member will be judged considering all such works. If more than one of the four situations, given above, is obtained for a household member in respect of the public works undertaken in the locality, the relevant code appearing first in the code list will be considered and recorded.

Whether received compensation? (B4_q21)

File: Block 4_Person records

Overview

Type: Discrete
 Format: character
 Width: 1

Valid cases: 5625
 Invalid: 0

Literal question

Whether members received compensation after complaint?

Interviewer instructions

Whether received compensation? (B4_q21)

File: Block 4_Person records

For those household members who sought but did not get work in public works, information on whether they received any compensation will be recorded in this column in terms of codes. If the reply is affirmative, assign code 1 and assign code 2 if the reply is negative. There may be situations where a person may get compensation without complaining. In this case also, entry will be 1 in this column.

File: Block 5_Monthly household expenditure on food and non food items

Overview

Type: Discrete
 Format: character
 Width: 1

Valid cases: 3110721
 Invalid: 0

Description

An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub-sample is drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate.

Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units.

The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.

Description

The survey period of one year of this round was divided into four sub-rounds of three months duration. Equal number of sample villages and blocks were allotted for survey in each of these four sub-rounds.

Literal question

Sub-Round

Sub-Sample (SubSample)

File: Block 6_Monthly household expenditure on fuel and light

Overview

Type: Discrete
 Format: character
 Width: 1

Valid cases: 325626
 Invalid: 0

Description

An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub-sample is drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate.

Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units.

The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.

Literal question

Sub-Sample

Interviewer instructions

Record 1 or 2 depending on whether the selected sample village/block is central sample or state sample

Description

Sub-Sample (SubSample)**File: Block 9_Household expenditure on education and medical (institutional) goods and services**

An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub-sample is drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate.

Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units.

The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.

Record 1 or 2 depending on whether the selected sample village/block is central sample or state sample

FOD Sub-Region (FODSubRegion)

File: Block 11_Household expenditure on durables

Overview

Type: Discrete

Valid cases: 732953

Format: character

Invalid: 0

Width: 4

Literal question

FOD Sub-Region

Segment Number (SegmentNo)

File: Block 11_Household expenditure on durables

Overview

Type: Discrete

Valid cases: 732953

Format: character

Invalid: 0

Width: 1

Segment Number (SegmentNo)

File: Block 11_Household expenditure on durables

Literal question

Segment Number

Interviewer instructions

This item is to be recorded from the heading of block 5a of Schedule 0.0.

Second Stage Stratum (Stage2_Stratum)

File: Block 11_Household expenditure on durables

Overview

Type: Discrete

Valid cases: 732953

Format: character

Invalid: 0

Width: 1

Literal question

Second Stage Stratum

Interviewer instructions

This item will be copied from the heading of column (12) or (13) or (14) of block 5a of Schedule 0.0.

Sample Household Number (Hhold_no)

File: Block 11_Household expenditure on durables

Overview

Type: Discrete

Valid cases: 732953

Format: character

Invalid: 0

Width: 2

Literal question

Sample Household Number

Interviewer instructions

The sample household number (i.e., order of selection) of the selected household is to be copied from column (12) or (13) or (14) of block 5a of Schedule 0.0.

Level (Lvl)

File: Block 11_Household expenditure on durables

Overview

Type: Discrete

Valid cases: 732953

Format: character

Invalid: 0

Width: 2

Literal question

Level

Block 11 Item Code (B11_q1)

File: Block 11_Household expenditure on durables

Overview

Type: Discrete

Valid cases: 732953

Format: character

Invalid: 0

Width: 3

Literal question

Block 11 Item Code (B11_q1)

File: Block 11_Household expenditure on durables

Block 11 Item Code

No. in use on the date of survey (B11_q3)

File: Block 11_Household expenditure on durables

Overview

Type: Continuous	Valid cases: 459579
Format: numeric	Invalid: 273374
Width: 3	Minimum: 0
Decimals: 0	Maximum: 611
Range: 0-611	Mean: 1.7
	Standard deviation: 1.6

Literal question

How many numbers of the item are being used by the household on the date of survey?

First hand purchase - number (B11_q4)

File: Block 11_Household expenditure on durables

Overview

Type: Continuous	Valid cases: 16800
Format: numeric	Invalid: 716153
Width: 2	
Decimals: 0	
Range: 0-25	

Literal question

How many numbers of the item were first hand purchase?

Interviewer instructions

The number of each item of durable goods purchased (first-hand) for which some expenditure has been incurred during the reference period will be recorded in this column.

First hand purchase - whether hire purchased (B11_q5)

File: Block 11_Household expenditure on durables

Overview

Type: Discrete	Valid cases: 68704
Format: character	Invalid: 0
Width: 1	

Literal question

Whether the item was hire purchased?

Interviewer instructions

If an item of durable goods is purchased on instalment payment and the expenditure made on it during the reference period consists of one or more such instalment payments, code 1 will be recorded in this column. Otherwise i.e., when durable goods are purchased and entire amount is paid during the reference period, code 2 will be recorded in this column.

Note: If more than one of a particular item are purchased during the reference period and some of them are purchased on hire-purchase basis and the remaining are purchased outright, then code 1 will be recorded in this column.

First hand purchase - value (in Rs.) (B11_q6)

File: Block 11_Household expenditure on durables

First hand purchase - value (in Rs.) (B11_q6)

File: Block 11_Household expenditure on durables

Overview

Type: Continuous	Valid cases: 160994
Format: numeric	Invalid: 571959
Width: 7	Minimum: 0
Decimals: 0	Maximum: 1205610
Range: 0-1205610	Mean: 2247.3
	Standard deviation: 15861.1

Literal question

How much did the household spend on the item of the first hand purchase?

Cost-raw material, service & repair (B11_q7)

File: Block 11_Household expenditure on durables

Overview

Type: Continuous	Valid cases: 231560
Format: numeric	Invalid: 501393
Width: 6	Minimum: 0
Decimals: 0	Maximum: 400110
Range: 0-400110	Mean: 831.2
	Standard deviation: 3742.9

Literal question

How much was paid by the household towards the cost of raw materials & services?

Interviewer instructions

This column is for recording expenditure on materials and services for construction, assemblage, repair and maintenance of all durable goods - first-hand as well as second-hand. Value of durable goods constructed will comprise value of raw materials, services and/or labour charges and any other charges. The total value of raw materials, services and labour charges will be recorded in this block. Here, expenditure incurred towards repair and maintenance of items purchased on second-hand will also be accounted.

Note: 1. The purchase value of a consumer durable constructed or repaired by an artisan for his/her domestic use will be the aggregate of the purchase value of the raw material components used and imputed value of his/her services for its construction/repairs.

2. If an article is repaired during the reference period by one of the sample household members then the repair charges will be imputed and recorded against appropriate item only if the household member is a professional for that repairing job.

Second Hand Purchase - Number (B11_q8)

File: Block 11_Household expenditure on durables

Overview

Type: Continuous	Valid cases: 578
Format: numeric	Invalid: 732375
Width: 1	
Decimals: 0	
Range: 1-4	

Literal question

How many numbers of the item were second hand purchase?

Interviewer instructions

The number of each item of second-hand durable goods purchased during the reference period will be recorded in this column. An imported item of durables, even if second-hand, will be treated as first-hand purchase and information will be recorded against the relevant columns.

Second Hand Purchase - Value in cash (in Rs.) (B11_q9)

File: Block 11_Household expenditure on durables

Overview

Type: Continuous	Valid cases: 1915
Format: numeric	Invalid: 731038
Width: 6	Minimum: 0
Decimals: 0	Maximum: 280000
Range: 0-280000	Mean: 7421
	Standard deviation: 24160.5

Literal question

How much did the household spend in cash on the item of the second hand purchase?

Total expenditure (in Rs.) (B11_q10)

File: Block 11_Household expenditure on durables

Overview

Type: Continuous	Valid cases: 351112
Format: numeric	Invalid: 381841
Width: 7	Minimum: 0
Decimals: 0	Maximum: 1209350
Range: 0-1209350	Mean: 1619.2
	Standard deviation: 11483.4

NSS (NSS)

File: Block 11_Household expenditure on durables

Overview

Type: Discrete	Valid cases: 732953
Format: character	Invalid: 0
Width: 2	

Literal question

NSS

NSC (NSC)
