Overview

ABSTRACT

The primary objective of the survey is to collect information on household income and household expenditures, household consumption, changes in assets and liabilities, durable goods ownership, and housing characteristics including other living conditions of households.

KIND OF DATA

Sample survey data [ssd]

UNITS OF ANALYSIS

Households and individuals

Scope

NOTES

The NSO has a long history, since 1957, of conducting representative national surveys of income and expenditure with the primary objective of collecting information on household income and household expenditure, household consumption, changes in assets and liabilities, durable goods ownership and housing characteristics, including other household living conditions. The original five-yearly survey period has now become a yearly event with extended objectives.
