Overview

ABSTRACT

Objectives: The main objectives of the survey were to identify longstanding health problems, diseases, bodily or sensory, or mental disabilities in the population aged 15 to 64 as well as its influence on their work performance and to find out the measures to be taken or necessary for integration of disabled persons in the labour market. Essentially, the ad hoc module coordinated by Eurostat was designed to measure the practical implementation, ensuring the rights and equal chances for persons with disabilities or longstanding health problems, and to find out to what extent the goals set in the action plan have been met.
