KIND OF DATA

Census/enumeration data [cen]

UNITS OF ANALYSIS

Individuals

Scope

NOTES

Disabilities: Seeing difficulties, hearing difficulties, speaking difficulties, gripping/holding, moving/mobility difficulties, body movement difficulties, personal care difficulties, behavioural difficulties
Term used to denote 'disability': "Disabled person"
Definition of this term: A disabled person is a person who experience loss, change or abnormalities of any parts of the body, nervous system, organ functions or limitation of physical/mental abilities. A disability may be present from birth, or occur later in life and may be permanent or temporary in nature (more than six months). This condition prevents the person to participate fully and effectively in performing basic activity functions, living and interacting in a society and cultural environment.
Source of this definition: Definition for disability is adapted from the definition used by the Department of Social Welfare under the Ministry of Women, Family and Community Development
Questions used to identify persons with disabilities: "Do you experience any form of disabilities as follows: seeing, hearing, speech, physical, slow learner, mental (multiple answers accepted)?" Possible answers: yes, no.
Minimum duration to be considered as a person with disability: No
