Overview

ABSTRACT

Objectives: The main objective of the survey is to update and expand the labour force statistical baseline, fully capture and analyse the employment pattern. The survey results will provide an importance reference for policy and decision makers, business entrepreneurs, analysts and government officers to develop as well as monitor and assess the implementation of government policies and programmes on employment promotion and poverty and unemployment reduction and support the effective labour market. Accordingly, the survey aims at collecting the comprehensive set of data from households to estimate employment and unemployment characteristics which capture the seasonal variability, location, social and economic activities in accordance with the definition and methodology of ILO.

Reference Period: A month

Periodicity of Data Collection: Every quarter

KIND OF DATA

Sample survey data [ssd]
