KIND OF DATA

Sample survey data [ssd]

UNITS OF ANALYSIS

Individuals

Scope

NOTES

Disabilities: Seeing difficulties, hearing difficulties, speaking difficulties, gripping/holding, moving/mobility difficulties, body movement difficulties, personal care difficulties, behavioural difficulties

Term used to denote 'disability': "Personnes avec incapacités (persons with disabilities)"

Definition of this term: A disability is defined as any restriction or lack (resulting from an impairment) of ability to perform an activity in the manner or within the range considered normal for a human being.

Source of this definition: Washington Group

Questions used to identify persons with disabilities: "Do you have a difficulty: seeing, even with the glasses or lenses, hearing, walking or climbing stairs, remembering, concentrating, making decisions, daily self-care (wearing, eating, washing, etc.), communicating (to understand others or vice-versa give and take information)?"

"Because of a health problem, do you have any limitations in performing activities at home, school or at work?"

"Does this difficulty last at least 6 months?"

Minimum duration to be considered as a person with disability: 6 months
