Identification

ID NUMBER

DDI_SEN_2002_ESAM_v01_M_DIS_ILO

Overview

ABSTRACT

Objectives: To provide descriptive statistics on the socioeconomic and demographic situation of the people with disabilities and compare it with the people without disabilities.
Reference Period: 2001/2002
Periodicity of Data Collection: NA

KIND OF DATA

Sample survey data [ssd]

UNITS OF ANALYSIS

Individuals

Scope

NOTES

Disabilities: All types (seeing, hearing, speaking, moving/mobility, body movement, gripping/holding, learning, behaviour, personal care difficulties)
Term used to denote 'disability': "Handicap"
Definition of this term: According to the WMO, disability is defined as the social deficiencies for a given individual, resulting from a loss that limits or prevents him/her from the fulfilment of social roles that are normal (given the age, the sex, the social and cultural factors)

According to the World Action Programme for the Persons with Disabilities, disability is defined as an insufficiency or a deficiency of physical and / or mental abilities of a given individual. These insufficiencies or deficiencies can be congenital or acquired.

According to the l'Enquête Sénégalaise Auprès des Ménages (ESAM), disability is defined as a physical or mental incapacity that prevents the person to normally perform an activity or schooling. It can involve persons with seeing and speaking impairments,, deafness, another physical or mental diseases, which make the victim unable to pursue a normal activity.
Source of this definition: WHO, World Action Programme for the persons with disabilities, Statistical Office of Senegal
Questions used to identify persons with disabilities: The questions in the questionnaires are directed on the regional distribution of people with disabilities, on the type of activities they are involved in, type of education they have/will obtain and type of job activities they perform.
Minimum duration to be considered as a person with disability: No

Coverage
