

#EndChildLabour

AUC-ILO Africa Forum on Child Labour

Harnessing Corporate Social Responsibility Initiatives to Address Child Labour

26th April 2023

Ministry of Foreign Affairs of the
Netherlands

MobiPay - A Vital Eco-system Player Within The Agricultural Supply Chain In Uganda

- MobiPay AgroSys Ltd. is a Ugandan-based agro-technology solutions provider that aims to **increase sustainable digital and financial inclusion services** to farmers across Uganda
- Operates **digital platforms that enable farmers** to purchase inputs, access agronomical knowledge on crop diseases and solutions, sell harvested produce, and facilitate internal and external payments for organizations.
- Increase access to **financial services, market information, and extension services** for most smallholder farmers with an established one-stop centre for farmers and other sector intermediaries

Digital Platform And Child Labour: Favorable Transactional Costs

Sustainable & higher market prices: Farmers are given direct access to off-takers

Lower input prices: inputs ordered on the platform at reduced prices and pick from local input dealers,

Leveraging The Power of Digital Platforms To Increase Access To Financial Services For Member-based Organizations

Enhanced Farmer' s financial and digital inclusion by strengthening the capacity of savings groups through the following approaches/activities;

- VSLA health assessment- maturity and functionality and groups
- VSLA training and boarding on digitization platform- Focusing on group leaders
- VSLA digitalisation- linkage of the VSLA groups to mapped Equity Bank

#EndChildLabour

“ A Child’s hands are too small to work; they look good holding a pencil” - Unknown

Thank You
