Clinic to discuss challenges & solutions for Caribbean micro, small and medium enterprises in times of COVID-19

7 May 2020 | 11:00 am - 13:00 pm ECT

The ILO Office for the Caribbean and the Caribbean Centre of Excellence for Sustainable Livelihoods (CoESL) invite entrepreneurs and interested stakeholders to a 2-hour clinic to discuss challenges and solutions for Caribbean micro, small and medium enterprises in times of COVID-19.

WHAT WE SEEK TO ACHIEVE:

- Share perspectives on how micro, small and medium enterprises (MSMEs) across the Caribbean are faring during the pandemic.
- Discuss their main challenges, as well as possible solutions with peers and the general audience.
- The results of the discussion will contribute to inform future ILO policy recommendations. In particular they will also feed into the ILO’s #ResilientWithDecentWork / #Nocontagiemosempleo virtual roundtable series on May 12, which is dedicated to MSMEs and policy responses.
