Updating labour inspection system of the Republic of Iraq

Deadline for submission of proposals: 4 January 2022

I. INTRODUCTION

The International Labour Organization, with support from the European Union, is implementing a project to enhance labour governance, inspection and working conditions in Iraq, in response to the COVID-19 pandemic. The project addresses a number of labour market challenges imposed by the pandemic, as well as some of the longer-term decent work priorities of Iraq.

It focuses on strengthening the labour inspection system and improving occupational safety and health (OSH) in line with international labour standards, through policy development and capacity building. The project will also work closely with social partners to raise their awareness on labour inspection, OSH and fundamental principles and rights at work, so they can better engage in programmes to promote compliance with labour legislations and respond to COVID-19.

The project will:

- **Develop national labour inspection policy in consultation with social partners, which includes** reviewing a 2018 labour inspection assessment in consultation with the Ministry of Labour and Social Affairs as well as workers' and employers' organizations with a view to update and validate the relevant findings and recommendations and develop a national labour inspection policy and a national action plan for reforming labour inspection.
- **Adopt and implement the ILO Strategic Compliance Intervention Model, through** creating a Strategic Compliance Task Team to lead the implementation efforts; developing a labour inspection case management system; and promoting the ILO's approach to Strategic Compliance Planning (SCP) for the labour inspectorate.
- **Strengthen institutional capacity of the labour inspectorate, through** analysing the structure of the labour inspectorate; and updating labour inspection tools, such as guidelines and manuals, to ensure that labour inspection procedures are standardized and gender-responsive.
- **Improve the capacity of labour inspectors, through** training labour inspectors on modern labour inspection procedures and relevant International Labour Standards as well as conducting Training of Trainers (ToTs) on labour inspection.

II. TASKS AND RESPONSIBILITIES

The consultant is required to achieve the following deliverables as appears in below table breakdown:
