SOCIAL PROTECTION DATA COLLECTION IN VIET NAM

26 – 27 AUGUST 2021

SOCIAL PROTECTION DATA COLLECTION IN VIET NAM

OVERVIEW

SNAPSHOT OF THE COURSE

Social protection data collection and analysis are essential vehicles of the effective implementation of national strategies, policies and programmes designed to reduce and prevent poverty and vulnerability across the life cycle. The ILO has for decades been supporting its member States throughout data compilation and monitoring process on the functioning of social protection systems. The key ILO tool for periodic collection of administrative data on social protection is the Social Security Inquiry (SSI), which allows for monitoring progress in social protection towards achieving the SDG target 1.3, implementing Social Protection Strategy and shaping the vision for the 2030 social protection system in Viet Nam.

IS PROVIDED)

WHAT

WHAT WILL I LEARN?

This training course will offer participants the opportunity to:

- Enhance knowledge of methods and definitions of social protection statistics, contributing to harmonization of national the knowledge base in the field of social protection;
- Become familiar with ILO methodology for collection and monitoring social protection data;
- Improve capacity to monitor and evaluate social protection data, specifically with regard to assessment of social protection coverage and adequacy of benefits;
- Strengthen the capacity to avail of ILO Social Security Inquiry as a tool to produce comprehensive, reliable, and quality social protection data, reinforcing national social protection statistical systems;
- Discuss key concerns and identify opportunities using SSI tool to compile, monitor and process social protection data in Viet Nam.

WHY

WHY SHOULD I JOIN?

- Learn about ILO methodology on social protection data collection, monitoring and application
- Join and interact with a network of professionals engaging in social protection statistics in Viet Nam to strengthen country-level coordination of data collection and to shape a common understanding of its processing and applicability;
- Put learning into practice producing indicators of coverage and adequacy using the updated Social Security Inquiry (SSI) inventory for Viet Nam;
- Receive ITCILO Certificate of Participation upon successful completion of the course.

WHO

WHO SHOULD ATTEND THIS COURSE?

This course is designed for key actors of Viet Nam involved in social protection data collection and monitoring seeking to strengthen their knowledge of technical aspects, tools and methodologies used to compile and process statistical data.

METHODOLOGY

The course will rely on live sessions (webinars), delivered and facilitated by International Training Centre of ILO (ITC-ILO), ILO country office in Hanoi and Institute of Labour Science and Social Affairs (ILSSA) in Viet Nam.
