Discover Ataúro, a very friendly and relaxing Island destination. Ataúro is Timor-Leste's untouched eco-tourism gem. It has a beautiful natural environment with rugged mountains, forests and grassy slopes. The coastline varies from cliffs to the most sublime beaches and reefs.

Our Island offers wonderful diving, snorkeling and swimming in clear tropical waters. Whales and dolphins are commonly sighted. There is excellent trekking and mountain biking. Ataúro communities specialize in different handicrafts and local market days provide an interesting insight into Island life.

Situated close to Dili, Ataúro can be accessed by boat and plane. Accommodation available is smaller scale with comfortable but simple facilities often in idyllic surroundings. Ataúro has NO crocodiles.

Grupu Turizmu Ataúro warmly invites you to holiday on Ataúro. Comprising tourism operators and community representatives, our purpose is to increase employment and revenue from tourism for our communities. We thank New Zealand Aid and Irish Aid for funding this advertisement via BOSS Project (IADE/ILO).
